

Army Is Outbidding Grocers for Produce, House Probers Hear

Small Business Committee Told Over-Ceiling Prices Are Paid

ATLANTA, Dec. 9.—A grocer from the vicinity of an Army camp told the House Small Business Committee today he was unable to compete with the camp in purchasing fruit and produce. The grocer, H. D. Samples of Macon, president of the Retail Grocers Association here, said: "I have not had an egg in my store in three days because I can't compete with Camp Wheeler under ceiling price regulations, Mr. Sample said. The Army camp outside Macon is paying 70 cents a dozen for eggs, he stated, considerably more than he is allowed to charge for them."

He also testified that many small meat dealers would be forced out of business because they were unable to compete with larger merchants in packing house dealings. He said he was paying 23 per cent more for meat than he paid in March when OPA ceilings went into effect.

Hoarding Suspected. Shortage of canned goods was cited by H. L. Singer, Atlanta wholesale grocer.

"I know the armed forces are getting a large percentage of canned food output," he said, "but they are not getting all of it. I am wondering if some person is going about the country buying up available stocks to hold until the ceiling prices are lifted."

Army post exchanges also are cutting deep inroads into the sales of privately owned stores, witnesses said. Although sales to civilians are restricted, persons with authority to buy from exchanges are acquiring extra quantities for friends, it was indicated.

Patman Assails SWPC. Representative Patman, Democrat of Texas, told the committee yesterday that the Smaller War Plants Corp. has done nothing since its creation by Congress 15 months ago, even though it had been given the money, the power and the directions.

Mr. Patman, chairman of the committee, said he believed that perhaps "Congress has done a little checking up" on the administration of Federal agencies. Congress appropriated \$150,000,000 for the SWPC program. Representative Patman said, and in his opinion would provide any additional funds necessary.

J. L. Mason, deputy regional director of production services for the WPB, stated that his office had the personnel, the forms and everything else required to administer the act as soon as the necessary directives are received from Washington. "My guess," Mr. Mason said, "is that the SWPC felt it might be better to build slowly but on a firm foundation."

The committee will conduct its final meeting at Charlotte, N. C., tomorrow before returning to Washington.

Friedman Expects Action In Naval Depot Fraud Case

By the Associated Press. HARRISBURG, Pa., Dec. 9.—United States Commissioner Sidney E. Friedman, who last week charged that the FBI had been "hamstrung" in an investigation of fraud involving the new Mechanicsburg (Pa.) Naval Depot, believes the case "is now in competent hands and we are going to have the action I sought."

Mr. Friedman made the comment after appearing before a Federal grand jury which yesterday began a study of the fraud allegations. The commissioner had said there was "a solid basis in fact" in reports of a \$1,000,000 shortage of equipment and materials at the \$40,000,000 installation, built by civilian contractors.

Justice Department officials in Washington denied that the FBI inquiry had been impeded. Instead, he said, preliminary investigation had shown the case to be of such importance that it was turned over to the department's war fraud unit.

Congress in Brief

By the Associated Press. Senate. In recess until Friday. Special War Investigating Committee hears Admiral Land of Maritime Commission on oil and coal usage. Judiciary Committee hears Censorship Director Byron Price on war powers bill.

House. Ways and Means Committee hears end of hearings on President's request for new war powers. Coinage Committee studies legislation to make steel and zinc pennies and nickels.

\$11,000,000 Divorce Suit Of Mrs. McInerney Withdrawn

By the Associated Press. BRIDGEPORT, Conn., Dec. 9.—Counsel for both sides today announced plans for withdrawal of the million-dollar divorce action of Mrs. Catherine Conner McInerney, Greenwich socialite, against Thomas H. McInerney, National Dairy Products Corp. head, following a 12-hour conference during which Superior Court Judge Edward J. Daly waited for the case.

Attorneys John Keogh and Brian McMahon, representing the attractive, 40-year-old Mrs. McInerney, and Raymond J. Hackett, for her husband, warded off all questions on the terms of a reported property settlement. It was understood that actual withdrawal of the suit would come as soon as final agreement on a property settlement was reached.

The settlement terms, the lawyer, however, said the presence in the courtroom of Gov. Rodes K. Myers of Kentucky, a member of the plaintiff's legal staff, was an indication that Mrs. McInerney might take her action to another jurisdiction, possibly Kentucky.

Mrs. McInerney, now a resident of Bardonia, Ky., was accompanied to the courtroom by Ham Fisher, creator of the Joe Palooka cartoon, and Mrs. Fisher; Mrs. Henry Hamilton of Louisville, Ky., an aunt; Mrs. Ida Kil of Washington and Mrs. Rosemary Turner McMahon, wife of the attorney and a former Washingtonian.

Counsel for Mrs. McInerney, who charges incredible cruelty, asks \$11,000,000 alimony and claims that her wealthy 75-year-old husband misrepresented his age when they were married February 1, 1941, at Fort Lauderdale, Fla., discussed settlement terms during a recess called by Judge Daly.

Van Nuys Challenges Right to Censor Mail Sent to Territories

Senator Declares Practice Has Been 'Illegal Up to Date'

By the Associated Press. Chairman Van Nuys of the Senate Judiciary Committee challenged today the legal authority of Byron Price, director of the Office of Censorship, to censor mail between the United States and its territories and possessions.

Senator Van Nuys expressed his stand at a press conference after three hours behind closed committee doors. The censorship director himself, talking to reporters before Senator Van Nuys' conference, said he had no doubt that it was Congress' intention in passing the First War Powers Act last year to "protect the security of communications in and out of the country."

Senator Van Nuys said he thought the censorship of mail, except that going to foreign countries, "has all been illegal up to date."

"I don't think the Commander in Chief has got any more right to censor mail between Alaska, Puerto Rico and the United States than he had to censor mail between New York and California," he said.

Aimed at Security. At issue is a bill authorizing the censorship of communications between the United States and possessions and territories. "The mandate to the Commander in Chief certainly includes a mandate to control communications in or around combat areas," Mr. Price said.

Mr. Price said that because all communications with possessions and territories must pass through territory where there is possible danger of enemy interception or must go into a combat zone, he felt that censorship of these communications was necessary for security purposes.

Gov. Ernest Gruening of Alaska, whose protests to the committee against censorship of the Alaskan mail resulted in recall of the measure for further hearing after it had passed both houses, also appeared, as did Delegate Dimond of Alaska, who opposed any censorship.

Asked for his reaction to Mr. Price's explanation of the operation of censorship, Senator Van Nuys told reporters: "I think Price is doing as good a job as anybody could under the circumstances."

Emphasizing that he was voicing his personal opinion and not that of other committee members, Senator Van Nuys said "going to hesitate a long time" before he voted for the pending bill. He said Gruening had presented a letter from a high naval official in Alaska which said there was no need for censorship between this country and Alaska.

Senator Van Nuys said that Mr. Price admitted in many instances there had been mistakes in intercepting and copying parts of letters traveling in and out of the country, and from Alaska but attributed it largely to inexperience of some of the 14,000 employees in the censorship service.

Letter Intercepted. The chairman said Mr. Price told the committee he had corrected the practice of clipping certain items out of newspapers or magazines before letting them go to Alaska. Mr. Price explained that he was not aware this was going on until it was brought to his attention, since he could not know everything that was being done by the many employees.

Senator Van Nuys revealed that there had been extensive discussion, led by Senator McFarland, Democrat of Arizona, of the interception by censors in the Seattle office of a letter from a woman in California to her husband, who was working on a military project in Alaska. This letter merely asked the husband for information how she could join him in Alaska, Senator Van Nuys said.

When the letter was intercepted by the censors, they sent excerpts to the Federal Bureau of Investigation and to the War Production Board, the chairman added. He said Mr. Price justified this on the ground that the FBI wished to check on all persons going into Alaska and the WPB desired to have information on the background of defense workers employed there.

Senator Van Nuys said he was impressed, however, with the belief that "900 out of every 1,000" going to or coming from Alaska were concerned with "purely personal and domestic affairs."

Ohio Publisher Killed

NEWARK, Ohio, Dec. 9 (AP)—Charles H. Spencer, 72, publisher of the Newark Advocate, was killed today in the collision of his automobile and a truck. Mr. Spencer began his newspaper career some 50 years ago as a reporter on the Advocate after graduation from Denison University at Granville.

Dairy Product Prices To Stay Same Under Permanent Ceiling

Other Food Items Covered in Regulation Fixing Maximum Levels

By the Associated Press. The Office of Price Administration emphasized today that prices on butter, eggs, cheese and other food products previously fixed by a 60-day price ceiling freeze which expired December 3, continue exactly the same under a permanent regulation which replaced the temporary order on the day of its expiration.

The new regulation governs prices at the retail, wholesale and processor levels and covers, in addition to the items named, condensed milk, flour, cake mixes, canned citrus fruits and juice, corn meal, hominy, poultry (except turkeys), and fresh citrus fruits (at retail only).

The new regulation follows the predecessor in fixing the maximum price on these commodities at the highest level at which they were sold by each individual firm during the five-day period, September 28-October 2, 1942.

Ceiling to Be Replaced. This ceiling is to be replaced by specific dollar and cents ceilings at the processor's level as soon as possible. Fixed margins for wholesalers and retailers also will be specified. As such orders are issued, the commodities covered will be withdrawn from the permanent regulation.

Specific price orders already have been issued on onions, potatoes, turkeys and dry beans, food items which originally were covered by the temporary, 60-day freeze.

The new order provides that if any maximum price fixed by it is lower than the price set by an Agriculture Department agreement or order, the department's price shall automatically become the seller's maximum. Under the Agricultural Marketing Act, the department regulates the handling of milk and milk products, fruits, vegetables and nuts. The act sets minimum prices which must be paid farmers for milk.

Nazi Capital Tightens Blackout Safeguards

By the Associated Press. BERLIN (From German Broadcasts, Dec. 9)—Berlin is tightening its blackout safeguards at the orders of Propaganda Minister Goebbels, who also is Nazi general for the German capital, the Berlin radio announced yesterday.

Starting Saturday, it said, police will patrol the streets at night and violators of blackout regulations will be liable to punishment. "That the enemy has not undertaken air attacks on Berlin for a considerable time," Goebbels warned, "is no reason at all why blackout regulations should be less carefully observed."

Melbourne Cheers Parading Americans

By the Associated Press. MELBOURNE, Australia, Dec. 9.—Cheering crowds lined the streets of Melbourne today as United States soldiers and 40 nurses paraded through the city. The parade, the Melbourne Herald said, "provided our first chance to show appreciation of the men whose courtesy and good conduct we have admired so much."

37 Die in Hospital Fire

WELLINGTON, New Zealand, Dec. 9 (AP)—Thirty-seven women patients were hospitalized during the fire in one of New Zealand's greatest fire tragedies when the women's wing of the Seadiff Mental Hospital was destroyed.

By the Associated Press. When saved Comdr. Blackburn told his rescuers he had been making about 1 knot and had expected to reach land in about three more days, Comdr. Blackburn, 30, was graduated from the Naval Academy in 1933. He is married and is the father of two children. His father is Capt. Paul B. Blackburn, whose last official announcement Navy officials said was as director of the Naval Reserve of the 3d Naval District, New York.

War Council Studies Rehabilitation Plan For Freed Nations

President Explains North Africa Pact With Admiral Darlan

Plans for creation of a United Nations organization to provide relief and rehabilitation in countries freed from the Axis, during and after the war, were discussed by President Roosevelt with the Pacific War Council today.

The President also explained arrangements made with Admiral Jean Darlan in French North Africa and "the steps he hopes to take to relieve any immediate difficulty arising from Fighting French opposition to dealing with Admiral Darlan, New Zealand Minister Walter Nash told reporters.

Asked if the council was satisfied by the explanation, Mr. Nash said, "I was quite happy about it."

He said the global war situation was canvassed with particular attention to the needs of China for essential supplies, both military and non-military.

Mr. Nash, who acted as principal spokesman for the council, would not go into any further details about the military or political situation in North Africa.

The New Zealand Minister said discussions are now proceeding to the point where all the United Nations are to be consulted about the formation of relief and rehabilitation organizations.

Yale Professor Asks Uniforms for Teachers

By the Associated Press. NEW HAVEN, Conn., Dec. 9.—A Yale professor suggests that teachers be provided with "suitable uniforms or insignia of office" as an inducement to stick to their profession.

The Red Cross has demonstrated the value of the psychological principle involved in such a device," said Prof. Clyde M. Hill, education department head at Yale in an editorial in "School Management."

The educator asserted it was natural for teachers to want "to share in the honor we accord all men and women who undertake the more hazardous exploits of war."

Indiana Has First Case Of Gasoline Hijacking

By the Associated Press. SEYMOUR, Ind., Dec. 9.—The first case of gasoline hijacking since rationing of the fuel began in Indiana was reported to State police today.

William B. Spies of Columbus, Ind., said three youths in a small truck bearing New York license plates crowded his car from the road south of here this morning and siphoned the gasoline from his machine into an extra tank on the truck.

Hershey Keeps Post As Draft Chief in Manpower Setup

McNutt Calls Setup 'Military Twin' of Industrial Recruiting

By JESSE O. IRVIN. The Selective Service System became a bureau of the War Manpower Commission today...

WMC Chairman Paul V. McNutt, acting under the broadened authority given him by President Roosevelt Saturday, announced this change late yesterday.

The new Bureau of Selective Service, Mr. McNutt explained, will be the military twin in the commission setup to the industrial recruiting and placement agency, the United States Employment Service, the head of which has not been named.

To Continue Functions. He said the reorganization "permits the selective service organization to continue its present functions and duties without change, subject to the direction of supervision of the executive director."

\$46,000,000,000 Spent by U. S. in Year of Total War

Supresses Entire Cost Of World War; 78 Billion Expenditure in '43 Seen

By the Associated Press. One year of total war has cost the United States more than \$46,000,000,000—surpassing the entire cost of participation in the World War.

Conservative Figure. Since last December 8, when Congress declared war on Japan, the Treasury has reported \$46,393,880,525 spent on war activities alone up to December 5, 1942.

The cost of American participation in the World War, Treasury statistics show, was \$40,583,002,000. The Nation entered the second year of its war against the Axis with the greatest public debt in its history.

Public Debt Doubled. The public debt, too, is nearly twice what it was a year ago. At that time—December 8, 1941—it was \$55,231,154,812. It has since mounted to more than \$100,000,000,000, the latest Treasury figure, December 5, placing the gross debt at \$103,577,850,314.

When the United States entered the World War in 1917, it had a gross debt of approximately \$1,500,000,000. During the first year of participation in that war, the public debt rose to \$11,350,376,680 and November 30, 1918, it stood at \$19,438,375,022.

**Use of Enemy Patents
By U. S. Industries
Backed by Roosevelt**

**Program of Licensing
Is Outlined in Letter
From Crowley**

A program to make all patents taken over from enemy control "readily and freely available forever to American industry" had President Roosevelt's approval today.

The President made public at his press conference late yesterday a letter from Leo T. Crowley, alien property custodian, outlining the program, and said it provided a good pattern for handling foreign patents both now and in the future.

Mr. Crowley disclosed that patents seized from citizens of enemy-occupied countries are being handled on a different basis than those formerly controlled by enemy nationals, but emphasized that licenses for use of any "vested" patent will be issued widely when "deemed essential to the war effort."

Will Control 50,000.

Reporting that by December 31 his office will control over 50,000 foreign patents, Mr. Crowley said that licenses under enemy patents not already exclusively licensed will be issued to any legitimate business concern on a royalty-free, non-exclusive basis for the life of the patent. American rights in existing exclusive licenses will be respected, "pending thorough study," with royalties being collected by Mr. Crowley's office.

The Government is taking over patents of nationals of enemy-occupied countries with a view to safeguarding their interests, Mr. Crowley said.

"We believe," he explained, "that our friends in the occupied countries would have us turn their patent rights into an active weapon of warfare for the defeat of their oppressors. Hence, if no license is already outstanding, we shall grant non-exclusive licenses under these patents * * * royalty-free for the duration of the war and six months thereafter. Under these licenses, reasonable royalties will be charged after the termination of the emergency."

Use to Be Encouraged.

To encourage "the widest possible use" of the inventions covered by the seized patents, Mr. Crowley said his office would defend companies obtaining licenses under this program against any infringement suits brought by former owners.

The patents taken over represent "some of the finest achievements of modern science, particularly in the production of dyestuffs, plastics, pharmaceuticals, and electrical goods," Mr. Crowley reported.

Declaring that "every effort will be made to bring these patents to the attention of small business as well as large," he said "we are dedicating" them to "the service of American labor, American industry and the consuming public. There are many opportunities here for the small businessman to obtain the use of processes which will help him convert his plant to war production, and to establish a sound business in the post-war world."

Hostages
(Continued From First Page.)

and explosives and participating in anti-Nazi activities, these circles said. Six Czechs accused of being ringleaders in a sabotage and terror game were reported executed in Prague December 1.

Executions in the protectorate during November totaled 157, it was said.

**Fourteen Reported Executed
And Six Others Doomed**

BERN, Switzerland, Dec. 9 (AP)—Fourteen persons have been executed and another six sentenced to death in Nazi-controlled Europe on charges of Communist activity, treason and food-law violations, German sources reported today.

A Paris court-martial imposed the death penalty on six Polish students accused of fomenting Communism. Among them was a girl who was said to have been active in Republican Spain before taking refuge in France. Five other young Poles were sentenced to hard labor for life.

The so-called People's Tribunal in Prague sentenced 10 to death for alleged high treason against the Nazi Reich and the established order in the Czech protectorate. Der Neue Tag of Prague said the sentence had been carried out.

Neue Wiener Tageblatt reported the execution of three men in Vienna after their conviction of treason by a Nazi court.

In Berlin, a 46-year-old man was put to death for falsifying lists of persons entitled to extra food rations for heavy labor.

In Croatia, capital police at Zagreb arrested 400 dealers and customers of a "black market" in food during the last month. In food during the last month, five speculators were sentenced to public flogging. At Belgrade, Nazi authorities reported closing Serbian cafes which the German-controlled local press claimed were places of loitering, gambling, drinking and debauchery.

SCHULTE SURVEYS DAMAGE—Representative Schulte, Democrat, of Indiana takes a look at the welt over his eye which he received yesterday in an altercation in the House barber shop with a man wanted by New York police in connection with the slaying of his wife. —A. P. Photo.

**N. Y. Police Want Man
Floored by Schulte;
Is Murder Suspect**

**Representative's Blow
Quiets Assault in
House Barber Shop**

The blow with which Representative Schulte, Democrat, of Indiana, yesterday floored a 36-year-old New York man in the House barber shop, was credited today with netting police a murder suspect.

The man, identified by police as Rudolph Nies, 36, of Islip Terrace, N. Y., was sent sprawling between two barber chairs in the House barber shop by the 200-pound House member who attempted to quiet him after he had gotten into an argument with two barbers. Mr. Schulte had just been shaved.

Later Washington police informed Representative Schulte that his victim was wanted by the Suffolk County (N. Y.) district attorney's office for investigation in connection with the murder of his wife, found yesterday morning in her home with 30 stab wounds in her chest.

At the Capitol it was recalled that Representative Schulte had frequented the House Office Building gymnasium ever since he was overpowered and robbed by three colored men here in 1938. At that time he lost \$1,800 in checks and two watches. Today Mr. Schulte nursed a welt over his eye.

and had led several investigations into Police Department efficiency here. On one occasion he branded vice squad detectives "sissies" and called for more "strong-arm" men in the squad.

Mr. Schulte was defeated in the November elections and is serving his last month in Congress.

Suspect Was Machinist.

In New York Russell Richards of the Suffolk County district attorney's office said a murder warrant had been issued for Nies. District police expect it to be mailed here. The man's wife was found on the bathroom floor of her home after a neighbor had become suspicious of drawn window shades and an accumulation of milk bottles on the porch.

Police here said Nies, who is under guard in Gallinger Hospital today, had been employed as a machinist in a Jamaica (Long Island) engineering plant. They could give no explanation of the man's presence in Washington. A 2-year-old daughter of the Nieses, police said, died last May.

Mr. Schulte said yesterday's fight started when he remembered that a stranger who walked into the barber shop and started "getting tough" with the barbers. He came after me with his fists clenched, so I let him have it," Nies was said to weigh 150 pounds as against Mr. Schulte's 200.

Bending over to see if the man was injured Mr. Schulte received an unexpected kick in the forehead, the victim's foot landing over the Representative's left eye. He said this action made him "a little sore" but that after that it wasn't any trouble to hold Nies until police arrived.

**President Can Save
Child Care Program,
FWA Official Says**

**\$6,000,000 Earmarked
For WPA Is Available,
Nursery Groups Advised**

In answer to the many telephone calls from national and local child-care committees and unions regarding the future of the WPA nursery school program, a Federal Works Agency official today revealed one possible step that might be taken to save it.

Under his war powers the President could make the entire WPA child care and protection program a section in the Federal Works Agency, the official said. It is also legally possible for the President to order that the "not less than \$6,000,000" earmarked last July for WPA programs to care for children of working mothers become part of an FWA section on child care.

At present the FWA has the supervision of Lanham Act grants to communities for establishment of nursery schools. Under these grants, however, FWA does not operate nursery school programs. Grants become a part of the local sponsoring agency's budget and that agency runs the program.

Unless the WPA child protection program is made an integral part of Federal Works, it like the other WPA projects will die with the fiscal year, June 30, 1943. Until that time, however, funds will still be available for war agencies needing nursery schools, the FWA official said. For example, he added, the District could have opened WPA nursery schools immediately upon the passage of the nursery school bill, had that section not been struck out yesterday by the Senate District Committee.

**Richard Tucker Dies,
Film Character Actor**

LOS ANGELES, Dec. 9.—Richard Tucker, 59, character actor who broke into films when Thomas Edison was making his first practical movie experiments, died Monday.

He was one of Hollywood's busiest actors, appearing in scores of pictures, including "Merry Andrew" with the late Will Rogers; "Baby Take a Bow," in which Shirley Temple hit screen popularity; "Diamond Jim," "Here Comes the Band," "Sings," "Manslaughter" and "Sing Wings Night."

When informed late yesterday of the identity of his victim, Mr. Schulte said:

"I am mighty happy that I had a part in the capture of a vicious criminal. All I did was what any man would have done under the circumstances—protect the barbers from being attacked."

A member of the House District Committee, Mr. Schulte has served on the Police and Fire Subcom-

Busy Day for Batista Includes Dinner as Hull's Guest Tonight

Cuban President Plans To See Defense Plants And Visit New York

By HAROLD B. ROGERS. President Fulgencio Batista of Cuba, who arrived in Washington late yesterday and was an overnight guest at the White House, today launched into a busy schedule of official and social activities, which will continue through most of this week.

Following his visit here, he will make a tour of some of the defense plants of the country. President Batista was to be guest of honor today at the Pan-American Union, planned to hold a press conference and to greet the chiefs of various diplomatic missions. Tonight he will be entertained at dinner by Secretary of State Hull.

Moves to Blair House. After spending last night at the White House the visiting President moved today to the Blair House, official guest residence of the Government, which will be his headquarters while in Washington.

During his stay in Washington he will be honored with a luncheon given by the Cuban Ambassador, Dr. Aurelio F. Conchoso, and by a luncheon by Nelson Rockefeller, coordinator of Inter-American Affairs. The Cuban President also will visit the Capitol Building, Annapolis, Mount Vernon and Arlington National Cemetery. From Washington he will proceed to New York and later will go to Buffalo for a visit to war industry plants. While in New York he will be entertained by the Mayor, the Cuban Chamber of Commerce and the Chamber of Commerce and the Chamber of Commerce.

Met at Airport by Roosevelt. Arriving late yesterday afternoon, President Batista was met at the airport by President Roosevelt and a distinguished group of high Government officials. They included cabinet members and high ranking officers from the armed forces.

Through he is a major general in the Cuban Army, President Batista arrived in Washington wearing civilian clothes, a dark blue suit. As he alighted from his airplane he was greeted with a 21-gun salute. A guard of honor was drawn up at attention.

When he stepped from the airplane he was greeted by Secretary of State Hull, accompanied by George T. Sumnerlin, chief of protocol, State Department, and Col. Louis R. Frier, of the United States Army Air Forces. Secretary Hull escorted Gen. Batista a short distance to where President Roosevelt awaited him, standing beside the presidential car. President Roosevelt extended his hand in cordial greeting, and welcomed the visitor, saying, "How do you do. Welcome back!"

Wallace in Party. The two Presidents stood side by side, and the visitor then was welcomed by a long line of cabinet officers and American officials. They included Vice President Wallace, who is taking an interest in Latin American affairs; Secretary of the Treasury Morgenthau, Postmaster General Walker, Secretary of the Navy Knox, Secretary of Interior Ickes, Secretary of Labor Frazier, Undersecretary of State W. L. Gen. Leslie M. McNair, Lt. Gen. Thomas Holcomb, commanding general of Marines, many other high-ranking Army and Navy officers; Leo S. Rowe, director general of the Pan American Union, and others. General Batista's staff was introduced.

Accompanying Gen. Batista are Dr. Jose A. Martinez, minister of state; Dr. Conchoso, Spruille Braden, American Ambassador to Cuba; Amadio Lopez Castro, minister of the presidency; Brig. Gen. Francisco Tabernilla, Cuban Army; Dr. Oscar Garcia Montes, member of Cuban National Development Commission.

Bands Along Route. The ceremonies at the field were conducted by a service band playing the national anthems of Cuba and the United States. The two Presidents then motored back to the White House along streets lined with rows of soldiers and police. Several bands, stationed at intervals, and at the White House, greeted the visitor with martial music.

At the White House on arrival tea was served and later the visitor was guest of honor at a state dinner. In his toast at his guest at the dinner, President Roosevelt emphasized the theme of the good neighbor policy, which he said had been well called the good partner policy. White House Secretary Stephen T. Early told reporters today.

He said Mr. Roosevelt asserted that in this policy meant that any trouble in any of the American republics caused unhappiness to the whole hemisphere.

Mrs. Batista in Florida As Husband Visits Roosevelt. MIAMI, Fla., Dec. 9 (AP)—Mrs. Elisa Godínez A. Batista, wife of Cuba's President, arrived today with a party of friends to await the return of her husband from a visit with President Roosevelt and a tour of war production plants.

Mrs. Batista and her friends expect to remain at a boyfriend hotel until Gen. Batista starts home about December 20.

In her party arriving by clipper were her daughter, Mrs. Undersecretary of War Manuel Perez and his wife and three family friends. Mrs. Corall San Pedro, Mrs. Dolores Boulosa and Mrs. Dolores Ochoa.

Gen. Emmons in Capital For Staff Conferences

Lt. Gen. Delos C. Emmons, commanding general of the Hawaiian Department, has arrived here for conferences with the general staff on matters pertaining to his command, the War Department announced today.

Before his assignment to Hawaii last December 17, to relieve Maj. Gen. Walter C. Short, Gen. Emmons commanded the 9th Air Force Command with headquarters at Bolling Field.

CUBA'S PRESIDENT ARRIVES—President Roosevelt and President Fulgencio Batista of Cuba shown leaving for the White House yesterday shortly after the Cuban chief executive arrived at a nearby airport. —Harris & Ewing Photo.

Difficulties Beset Cameramen Of Navy at Pearl Harbor

Two Put to Work on Machine Gun Learn to Operate It in Short Order

By the Associated Press. This is one of those "now it can be told stories." It can be told because the Navy has finally released its Pearl Harbor report and illustrated it with some remarkable war photographs.

After the photographs were published, the Navy Department was deluged by requests for the names of the men who made them. Policy forbade identification of the individual photographers, but Lt. Comdr. A. D. Fraser, who, under Capt. Herbert W. Taylor as director, is executive officer of the Navy's photographic section, agreed today to tell something about their work.

50 Cameramen on Hand. There were about 50 Navy picture-makers at Pearl Harbor when the Japanese bombs started falling. Not all were out snapping their cameras under enemy fire. Some had to work in the darkrooms developing films and printing pictures. The Navy has laid down the rule of no individual credits.

One of the 50 Navy picture-makers at Pearl Harbor when the Japanese bombs started falling. Not all were out snapping their cameras under enemy fire. Some had to work in the darkrooms developing films and printing pictures. The Navy has laid down the rule of no individual credits.

The troubles of those who did get pictures at Pearl Harbor were complicated by more things than Japanese bombs. Two photographers were busy with their cameras when an officer came by and presented them with a machine gun.

"Here," he said, "put this thing together and start shooting." "Neither of us had ever worked a machine gun before," they reported to Comdr. Fraser, "but we sure learned how in a hurry."

Banks, Public Advised To Invest Reserves in Government Bonds

Association Sees Need To Insure Sound War Financing Program. By the Associated Press. CHICAGO, Dec. 9.—To insure a sound war financing program, the president of the American Bankers Association believes, both the public and the Nation's banks must invest heavily in Government securities.

Emphasizing the need for public participation in the Government financing, W. L. Hemingway, association president, in an address last night also asserted that the country's banks must take their share of the Government offerings, although they may not approve the maturities or other terms of some of the issues.

Sees Holdings Doubled. Speaking at a Central States conference of bankers, the St. Louis banker predicted that by next June 30 the banks' present 25 or 30 billion dollar holdings of Government securities would be doubled.

In line with Mr. Hemingway's suggestions toward the borrowing phase of the war effort, the Chicago Clearing House Association earlier yesterday went on record urging bank depositors to use surplus deposit funds to purchase Government securities.

Clifford S. Young, president of the Federal Reserve Bank of Chicago, speaking at the same conference with Mr. Hemingway, urged banks to invest in Government securities to the full extent of their reserves.

He declared the banks would have a big load to carry even if the public has taken the maximum amount of Treasury issues.

Mr. Hemingway told the bankers that no government could last today if it failed in war financing, and he cautioned against doing it by getting money from the Federal Reserve banks.

Warns Against "Easy Way." "That would be the easy way," he said, "but it would be only one step ahead of financing by printing paper money. The only sound way is to get the money from the people of the United States. That is the Treasury's intention, and that is what bankers want. The bankers' job is to assist in the sale of Government bonds."

Mr. Hemingway said that in the fiscal year ending next June 30 the Government would need between \$1 and \$4 billion dollars, of which 21 to 24 billions would be raised by taxes, leaving 60 billion to be borrowed from the people and the banks. He estimated the public could absorb only about half the latter sum, leaving 30 billion to come from commercial banks.

"Banks ought to take what is necessary and each ought to determine its fair share," he said. "We should not hold off because we don't like the maturities, or other details, or the way the program is handled. We have got to get in here and do our part."

Housewives, join the fight! Save waste cooking fat for gunpowder. Take them to your meat dealer.

Volunteer Officer Program to Continue For Men Under 38

VOC Plan Not Affected By Halt on Enlistments, War Department Says

The volunteer officer candidate program will continue for men under 38 years of age, the War Department announced late yesterday, correcting a statement made earlier in the day that the VOC program was suspended.

It was explained that the VOC plan is not affected by the executive order halting enlistments, as had been the earlier interpretation. Since the VOCs are under selective service and their induction has always been cleared through local draft boards, a War Department spokesman said, the stop order on enlistments does not affect this program.

Affects 51 D. C. Men. The only change in the VOC plan is the halt on applications of men 38 years old and over. Local boards have been notified that VOCs of 38 and over who have been actually ordered to report for induction may be inducted, but that no VOC who was not ordered to report for induction on or before December 6 may be inducted if he has passed his 38th birthday anniversary.

The amended War Department announcement immediately affects 51 District men. Draft boards here are to be informed at once to notify members of their boards to report for induction during December to meet the call for 51 men.

30 Await Later Calls. In order to fill the call, a local draft spokesman said, it was necessary to go through the papers of 54 men. Only three men of the group whose papers were examined had to be dropped because they were 38 or over.

In addition to the 51 men who will go into the Army in December to complete for an opportunity to go to officer candidate school, another 50 District registrants deferred because of dependency are in the VOC pool awaiting induction on later calls.

Maj. Johnny N. Shanks Prisoner in Philippines

Axis Resents Contacts Of Economic Mission With Allies in Ankara

Maj. Johnny N. Shanks, 42-year-old Army officer who fought on Corregidor, is a prisoner of the Axis and is being held in the Philippines, his wife, Mrs. Bessie M. Shanks of 3810 Thirty-first place, Brentwood, Md., said today.

She said she had received word from the War Department that her husband, who is well known in Washington, had been taken a prisoner following the fall of the island fortress.

The last word received from her husband was a letter written in May a few days before Corregidor surrendered. Mrs. Shanks said. The letter was not received here until July, however.

The family has two sons. Johnny W. 18, is an Army Air Force private stationed in Washington State. Norman K. 15, is a student at Langley Junior High School.

Mrs. Shanks said that Johnny, jr., enlisted in the Army following the fall of Corregidor because "he wants to follow in his father's footsteps."

Maj. Shanks started his career as an enlisted man, too. He joined the Army in 1920.

Mrs. Shanks and her children came to Washington from the Philippines in 1939. Maj. Shanks has had several tours of duty here.

The wife is a night supervisor at National War Agencies. Maj. Shanks is a native of Jefferson City, Mo.

Rumania in Hot Water With Nazis; Hungary Gaining in Favor

Axis Resents Contacts Of Economic Mission With Allies in Ankara

Special by Radio to The Star and Chicago Daily News. Rumania under the Reich's grip is not exactly appreciated by Rumanians who are daily becoming more worried over the huge losses they are suffering on the Russian front and feel that their contribution to the Axis cause is far greater than that of their Hungarian neighbors.

Somehow in Europe, Dec. 9.—Rumania again has gotten into hot water with her Nazi schoolmaster, while her rival, Hungary, has been reinstated—at any rate, for the time being—as the favorite boy in school.

Rumania's latest offense, according to a usually well-informed source here, centers around an economic mission sent by Marshal Ion Antonescu's government to Turkey. Members of the mission apparently were not too ardent friends of the Axis, and immediately on reaching Turkish soil they contacted friends among American and British diplomats there.

The object of these contacts is not known, nor whether they were purely of a personal nature. But they greatly displeased the Nazis, who have made representations to this effect in Bucharest, observers here say.

A few days before sending the economic mission to Ankara, Transylvanian Leader Julius Maniu, who for the last 10 months has been confined to his country estate in Transylvania, reportedly has made a sensational escape from Rumanian police surveillance and reached Turkey.

Maniu's political activities in Turkey are even livelier than those of his economist friends. The Nazis also deeply resented Maniu's escape and are viewing his contacts in Ankara with a certain apprehension.

Their reactions to these Rumanian pin pricks were immediate. They have shown special friendship to Rumania's historical enemy, Hungary, and have even hinted that the latter might perhaps obtain the whole of Transylvania after the war. It is clear that this Nazi use of the Transylvania question as a tool to keep both Hungary and

Washingtonians to Meet

Three Trawlers Lost

The Washingtonians will meet at 8:15 p.m. tomorrow in room 210, the Highlands Apartment, according to an announcement by Miss Etta Taggart, president.

LONDON, Dec. 9 (AP)—The Admiralty announced today the loss of three trawlers, destroyed December 5 by a gasoline fire and explosions at Lagos, port of the British West African colony of Nigeria.

Members of the Washingtonians will meet at 8:15 p.m. tomorrow in room 210, the Highlands Apartment, according to an announcement by Miss Etta Taggart, president.

Heavier Taxes Needed To Check Threat of Inflation, Paul Says

85 Billion Seen Available To Purchase 70 Billion In Consumer Goods

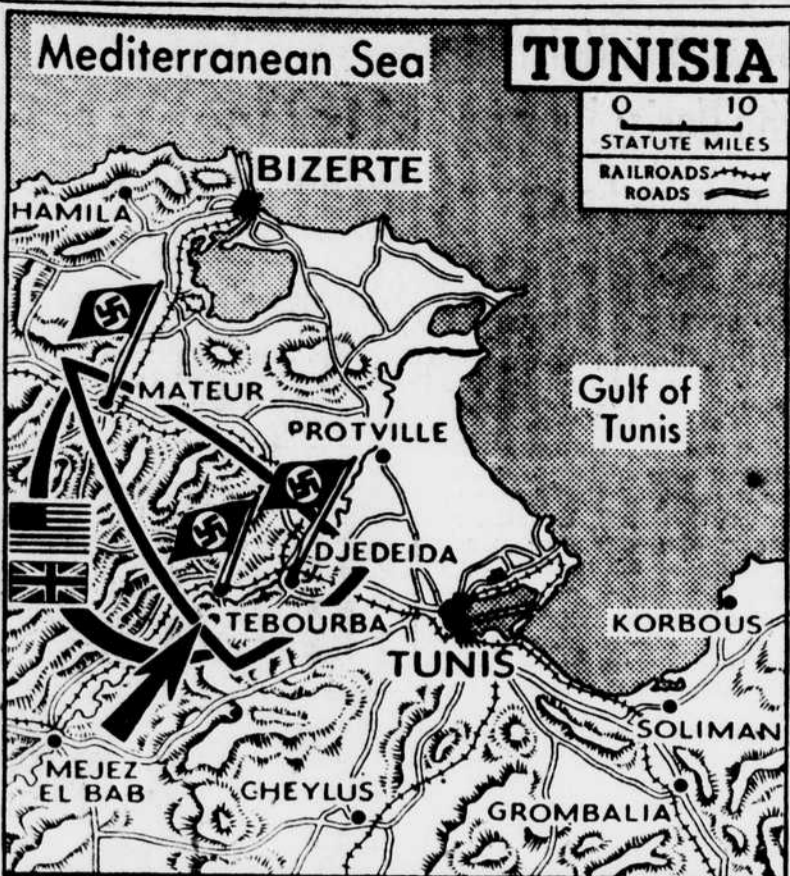

By the Associated Press.
 NEW YORK, Dec. 9.—Randolph E. Paul, general counsel of the Treasury, expressing concern over "inflationary potentialities" in the Nation's war economy, declared last night that "it should be clear by now that heavier taxes are needed."
 "No doubt you feel," he said in a speech before the Life Managers Association of Greater New York, "that we deserve a vacation from further taxes to adjust ourselves to those recently enacted. It is a vacation we shall probably have to sacrifice. For the job of tax legislation is never done, particularly when the greatest war expenditures in world history are to be financed."
 Mr. Paul estimated that \$30,000,000,000 in consumer goods would be available next year and under existing taxes and savings, consumers would have about \$85,000,000,000 to spend.
 "Somehow we shall have to absorb by savings or by taxes an additional \$15,000,000,000 of attempted spending if we are to avoid further inflation and increases in the cost of living," he said.
 He predicted that part of the Government action to bring this about would be increased taxation, price control and rationing of goods.
 He added that part of the action might be in the form of an inducement not to spend, a progressive tax on consumer spending, or a minimum lending requirement, adjusted to income and family responsibilities, which every one would be obliged to equal or surpass.

Britain Will Consider Unshackling Prisoners

By the Associated Press.
 LONDON, Dec. 9.—Authoritative circles here said Swiss proposals to unshackle war prisoners would be examined in consultation with Canada, "with the utmost sympathy," but there was no official statement on the Swiss reports that it might be done soon.

NEW YORK, Dec. 9 (AP)—

Through intervention of the Swiss government more than 2,500 military prisoners in German and Canadian concentration camps soon will be released from shackles, Frederick Kuh, NBC commentator, reported last night from London.
 All the prisoners are to be unshackled on a date to be fixed by German and British authorities, according to tentative plans, he said. The plan would affect 1,376 British soldiers, mostly Canadians, now in German camps, and an equal number of German prisoners who are in Canadian camps.

ALLIES ERASE GERMAN GAINS IN NORTH TUNISIA—An Allied counterattack (black arrow) has erased German gains in the Tebourba sector of North Tunisia, a communique said last night. Allies were ranged along a curving line through the rugged hills facing the Axis "defense triangle," which is based on the towns of Mateur, Djedeida and Tebourba, all held by Axis forces.
 —A. P. Wirephoto.

Jap Military Group Reported Going Home After Berlin Mission

Possibility Seen That Tokio May Have Decided To Go More on Its Own

By the Associated Press.
 LONDON, Dec. 9.—The Vichy radio reported yesterday that the Japanese Military Committee headed by Vice Admiral Naokuni Nomura, which has been in Berlin coordinating Axis strategy, was going home, and London circles said it may mean that Tokio has decided to go more on its own.
 The Vichy broadcast said a Havas

SERVE EMBROS WINE
 WITH THE ROAST EMBROS BURGUNDY
 106 YEARS WINE TRADITION
 EMBROS CALIFORNIA WINE
 Embros & Sons, Inc.
 Washington, D. C.

dispatch from Ankara, Turkey, reported the arrival of Nomura there and that he expected to return to Japan by way of Russia.
 Official circles here would not comment because the report was unverified, but other quarters regarded the report as significant.
 "If the entire mission has been recalled, its mission in Berlin has been concluded and Tokio sees no useful purpose in its remaining there longer," one source said.
 "That could be interpreted as meaning that Japan no longer feels the need for such close liaison between Berlin and Tokio now that the Axis star is beginning to wane,

and that Tokio perhaps is going on its own more and more."
 Admiral Nomura's mission has been stationed in Berlin since early in 1941 in fulfillment of the terms of the 1940 three-power alliance. A similar mission is stationed in Rome. Some observers have believed the main task of these missions was to

act as the eyes and ears of the Japanese high command and report on conditions pertaining to their allies' military effort.
 There are more than 70 convenient branch offices for Star "Want Ads" located throughout the city.

WPB Cuts Manufacture Of Builders' Hardware

By the Associated Press.
 The War Production Board yesterday took all the frills out of builders' hardware lines by reducing from approximately 27,000 to 3,500 the number of items which may be manufactured after January 15.
 The order restricts sizes, types, grades, finishes, weights and standards for builders' finishing hardware.
 Merchandise covered by the order includes locksets, door trim, hinges, door knobs, key plates, screen door accessories and similar items.

OUCH! MY BACK
 Relieve muscular back-ache with powerful OMEGA OIL

If you travel over the Holidays, YOU MAY HAVE TO STAND

In seasons past, it gave us pleasure to provide... plenty of trains... plenty of berths... plenty of seats... so that everyone could travel comfortably to family reunions.
 But this wartime Christmas it will be a different story. Much of our Pullman and coach equipment that served holiday travel is now busy carrying troops. What remains is not sufficient to accommodate in comfort the crowds that usually climb aboard.
 Besides, the cars available must provide for large numbers of service men traveling on

leave, perhaps to have their last holiday dinner with the family in a long time.
 So, if you plan a trip over the holiday period, chances are there will be neither Pullman nor coach accommodations available. Standing room may be all that is left.
 We're genuinely sorry this is the outlook, but these are war days—and the demands of war must come first. To the best of our ability, we shall endeavor to serve those who must travel, with the equipment at hand.

THESE DAYS MAY BE PARTICULARLY HEAVY TRAVEL DAYS

1942 DECEMBER 1942							1943 JANUARY 1943

BIG NEWS AHEAD!

Whatever Happens, You May Rely Upon This Newspaper to Keep You Fully Informed!

THE days and weeks just ahead will be the most momentous ones in our lives—not only as a nation engaged in total war, but also as individuals with vital wartime work to do, and perplexing problems to face. Now, as never before, we need to know—quickly, fully and accurately—what's happening on every Front, and what the day's news means to us.

To meet these wartime news-needs, your daily newspaper renders a THREE-FOLD service no other medium can match. It REPORTS each day's war and world news rapidly, correctly and completely. It INTERPRETS significant events in searching editorials and feature comment. It PRESENTS a fascinating "newsreel" of front page happenings and personalities—pictures that only your newspaper can get and print so swiftly.

Make sure that you miss none of the tremendously important news events of the days ahead—on the Home Front as well as on the Fighting Fronts.

TODAY and EVERY Day, Be Sure to READ.....

The Evening Star

SWIFT News Service to Your Front Door!
 Rain or shine, your hustling carrier-boy strives to reach your home on time, with the world news you need. His war task is to see to it that you receive the fastest and best newspaper service possible—come what may!

Ordnance Chief Says Materiel Shifts Won't Hurt Smaller Plants

Gen. Campbell Promises To Avoid Widespread Contract Cancellation

By the Associated Press.
CHICAGO, Dec. 9.—The current shift in types of war materiel production, made necessary by the "fluidity of war," will not bring any undue hardship on the country's smaller manufacturing firms, according to the War Department's ordnance chief.

Maj. Gen. Levin H. Campbell, Jr., said at a press conference yesterday that the smaller firms engaged in war production would be given utmost consideration in the shift and that instructions have been issued to minimize the curtailment of orders they hold. Later he spoke on the Army's program at a meeting of the Illinois Manufacturers' Association.

He said the larger companies engaged in war materiel production were in a better position to stand the effect of curtailment of orders until work could begin on items more urgently needed.

To Add Other Plants.

Gen. Campbell, whose agency has directed expenditures of \$52,000,000 in the armament program, said that every effort also would be made to bring into the program other small plants whose facilities the Nation needs in its war effort.

He described as "temporary" any hardships which might result from the shift in production, and asserted that "there will be no widespread cancellation of contracts."

Currently, the United States is placing the most emphasis on the production of aircraft, merchant vessels, and fighting ships, the Army ordnance chief said.

"Certain other types of war materials are being 'de-emphasized' simply because we have them in sufficient quantity at this time," he added. "This does not mean we aren't going to need more of the 'de-emphasized' items. We may or we may not. The 'fluidity of war' will determine that."

Gen. Campbell cited an example of the reasons behind the production shift—not a single anti-aircraft gun had been fired throughout the British Isles during a recent period of nearly 20 days.

Production Cut.

"It would be a mistake in any nation to carry on capacity production under similar conditions," he said. "The material for anti-aircraft shells can be better employed on war items more urgently needed."

Gen. Campbell told the manufacturers of the methods for keeping posted on world armament developments, and assured them "we will always be in advance of our enemy. Yet, if this war lasts but a few years, what we consider now as top-flight equipment may well be obsolescent at the end of that time."

Rationing Pays Off

MOUNT JOY, Pa. (AP)—Gasoline rationing paid off for automobile owners here. The Borough Council discontinued a special \$1-a-year water assessment against motorists, explaining "if they can't drive they aren't washing their cars."

Canada's Shipbuilding Stepped Up One-Fifth

By the Associated Press.
OTTAWA, Dec. 9.—Canada's shipbuilding program has increased by 20 per cent in the last three months and now envisages an estimated expenditure of \$900,000,000. Munitions Minister C. D. Howe announced in a departmental statement last night.

Since the beginning of the war Canada has launched close to 300 combat ships, including corvettes, mine sweepers, patrol boats, base ships and other vessels, Mr. Howe said. In addition, scores of cargo vessels have been completed, and approximately 1,100 smaller craft, ranging from lifeboats to motor torpedo boats, have been built and more than 2,000 are still under construction.

The cargo vessel construction program calls for the building of nearly 300 merchant vessels of the 10,000-ton type at a cost of approx-

imately \$600,000,000. More than 70 of these already have been delivered, one 88 days after the laying of the keel.

WLB Again Orders Montgomery Ward To Obey Ruling

Businessmen on Board Assail Chicago Firm For Its Resistance

Montgomery Ward and Co. Chicago, today was under a new order from the War Labor Board to execute immediately a contract with the CIO United Mail Order, Warehouse and Retail Employees Union, embodying the union security and other provisions set forth in the board's earlier order on November 5.

A unanimous 12-man board served the new directive on the Chicago merchandising house late yesterday after some of the industry and public members accused company officials of publishing "half truths," harming the private enterprise system and "welching" on a promise to the President.

The directive was addressed both to the company and the union. It allowed the company to incorporate another clause stating that the board's terms were included in the agreement "after protest."

"Duress" Clause Asked. Company officials in a closed hearing had already rejected that phraseology as "wholly inadequate." The company wanted a clause saying it was signing under duress and that the board's order was illegal and unsound. The company had objected specifically to the union maintenance clause which would require all employees who were union members after a certain date to remain in good standing.

The order said the collective bargaining agreement was to become effective as of yesterday. The board set no deadline for compliance. One member said it was assumed the company would reply within a reasonable time and until then no further steps were contemplated. The board's previous practice in cases of non-compliance has been to refer the case to the White House. The union has announced willing to sign.

The board's original order affects all the company's Chicago employees, numbering about 6,000. The company denounced the order in newspaper advertisements and said it would comply only if ordered to do so by the President "as Commander in Chief in time of war." The President so ordered. Then the company insisted on the right to incorporate the duress clause.

Industrialist Assails Ward. Harry L. Derby, one of the four industry members sitting on the case, told the company representatives that "Montgomery Ward has done the greatest disservice to industry and the private enterprise system of any concern in the United States, and I feel that just as strongly as I can. The ads that you put in the papers and broadcast nationwide were statements of untruth or half truth." Mr. Derby is president

of American Cyanamid & Chemical Co. Roger D. Lapham, chairman of the board of American-Hawai Steamship Co., also criticized the company, saying it "uses its freedom of speech by half truths."

Wayne L. Morse, a public member, said he considered the company's position "a pure case of welching on an agreement" with the President and "one of the most unpatriotic positions that any citizen could take in time of war."

Chairman William H. Davis told the company representatives: "You say to me orally that you are doing it because you are good citizens of the United States. Then you put in the contract you are not doing it for that reason, but you are doing it under duress. . . . If a soldier in battle advances under the order of the commander in chief and is killed, has he been killed under duress?"

Company Offers Statement. John A. Barr, manager of labor relations for the company, said he preferred not to answer that question.

The company placed a statement in the record saying it considered its position was one of obedience to the commander in chief, but that it did not consider the document in question a contract because "there has been no agreement between Ward's and the union." The statement added that in order that the document itself may be clear and truthful, the company included three sentences stating the board's order was illegal and unsound and was incorporated in the document "under duress."

"If Ward's had the right to test the legality of the board's demands in the courts, Ward's would have done so, but Ward's was deprived of a remedy in the court by the board's complete lack of legal authority to compel obedience to its order," the statement said. "The board's very lack of authority thus resulted in a denial to Ward's, as it has to other employers, of a right to relief in the courts."

WLB Authority Denied As Hearing Opens On Newark Strike

79 City Heads Join In Refusal to Accept Board's Ruling

By the Associated Press. A spokesman for the City of Newark, N. J., told the War Labor Board today it had no authority "to invade the field of purely local government" by assuming jurisdiction over a labor dispute between a municipality and its employees.

Raymond Schroeder, Newark's corporation counsel, contended before the board that there was not "the slightest reference" to labor disputes between governing units and their workers contained in President Roosevelt's executive orders granting WLB jurisdiction over industrial disagreements.

The board heard arguments over the jurisdiction question in a case involving a strike of 400 garbage

collectors in Newark last October. A WLB panel has recommended that the board take jurisdiction. Newark's stand has won the backing of the mayors or city managers of 79 cities who have joined in a manifesto telling the War Labor Board that "we cannot at any time submit to its jurisdiction any alleged dispute with city employees."

Davis Opens Hearings. "The President was careful not to include all employers in his executive orders," Mr. Schroeder said. "If he had, they would have been unconstitutional."

Board Chairman William H. Davis opened the hearings by saying the board had "no desire to increase our obligations or authority." He added, however, that successful prosecution of the war "does not exclude any kinds of disputes."

Mayor La Guardia of New York declared yesterday that many other heads of American cities had approved of the protest. The statement said the 79 signers had considered President Roosevelt's October 3 order "under which the WLB alleges to have jurisdiction over municipal employees," and concluded "that there is nothing in the Federal statute or the said executive order which gives the said War Labor Board jurisdiction over

municipal employees, their wages, their employment, their dismissal or their relations with officials of their respective city governments."

Mayor La Guardia said members in all parts of the country of the United States Conference of Mayors, which he heads, were consulted after Newark, N. J., had challenged the WLB's powers when a panel in November recommended intervention in a dispute between the Newark Public Works Department and 400 garbage collectors.

Also pending before WLB is a disagreement between New York City and 32,000 employees of the city's transit lines over wages, hours and working conditions. No panel has recommended assumption of jurisdiction in the New York case.

New York representatives have been invited to sit in on the Newark hearing. It was said informally by WLB spokesmen that if the board decides it has jurisdiction in the New York case, a panel then would go into the issues in greater detail. The Transport Workers Union asked the board to intervene.

Newark director of public works. The right to strike, the commission asserted, was not one of the rights enjoyed by public employees.

District Girl Reports For WAVE Duty

Gloria Brown, 725 Taylor street N.W., yeoman third class, has reported for active duty as a WAVE at the 11th Naval District headquarters, San Diego, Calif.

She was a member of the first group of WAVES to report for duty in the San Diego area. Miss Brown has completed a course in Navy indoctrination and yeoman training at Oklahoma A. and M. College.

Gas Thief in Hurry Leaves False Teeth

By the Associated Press. SALEM, Ore.—Police frightened away the man who was siphoning gasoline from an automobile. They can't identify him, but they are certain he left in a hurry. Beside the tank they found a rubber hose—and a pair of store teeth.

Stolen Car Recovered With Little Gas Used

By the Associated Press. BOISE, Idaho.—The thief who took Vern Phillips' automobile with its full tank of gasoline had a conscience, anyway. Police located the missing car, its fender dented and only a little of the gasoline used up. On the fender was \$8 in bills and a note explaining the money was to cover the cost of repair work and the inconvenience to Mr. Phillips.

Coroner to Investigate Printer's Death After Fight

A coroner's inquest was to be held today in the death of Albert W. Bamberger, 54, linotype operator employed by the Washington Times-Herald, who died yesterday afternoon following an altercation with another newspaper printer in front of 1302 R street N.W.

Robert Ashley Ball, 39, printer employed part-time by the Washington Daily News, was in custody

of first precinct police pending the coroner's decision.

According to Detective Sergt. J. K. Baker, the two printers were together in a restaurant when Mr. Ball, who had been drinking, told Mr. Bamberger he had not "liked him since 1929."

Mr. Bamberger then left the restaurant. When he reached the street, Sergt. Baker said, he was struck on the forehead by Mr. Ball and knocked to the sidewalk.

The injured man was taken to Emergency Hospital, where he was pronounced dead on arrival.

Private Tim Shenk Sends Greeting to Timoshenko

FORT MACARTHUR, Calif.—Pvt. Tim Shenk figured he and Marshal Timoshenko had something in common besides an enemy. So he spent \$4.04 on a New Year cablegram to the Russian Army leader. Pvt. Shenk addressed it to Moscow, but added: "I hope it has to be forwarded to him in Berlin."

Don't lose hope 'til you've tried a Star "Want Ad." NA. 5000.

Straus, 'Tote' Inventor, Urges Bond Lottery

By the Associated Press.

BALTIMORE, Dec. 9.—Harry Straus, inventor of the totalisator for race tracks, has bobbed up with a plan for a national War bonds lottery which he said embodied all the attractive features "without its obnoxious aspects."

Mr. Straus, who lives in a Balti-

more suburb, said the plan would add to the various War Bond series another type bearing no interest, to be known as United States Victory Prize Bonds.

Out of every \$50,000,000 of the bonds sold there would be \$1,000,000 in prizes for the lucky buyers, to be chosen by lot. All the bonds would be payable at par at the end of eight or 10 years.

Mr. Straus would select 1,689 lucky bondholders at the end of the first year, during which a special fund would be set up to cover the cost of the prizes. During the year, Mr.

Straus suggested, the Government could set aside a total of \$1,125,000, which would cover both the prizes and the cost of distribution.

A first prize of \$50,000, second of \$30,000, and so forth, were set forth in the plan, which Mr. Straus said had many advantages both for the Government and individuals.

The Government would benefit by accelerated sales, a low interest rate and wide distribution while individuals would perform a greater patriotic service because of the bond issue's lack of interest and a guaranteed return of principal.

D. C. Soldier Decorated For Bagging Jap Plane

Sergt. Edward D. Connor, jr., of Washington has been awarded a silver star for "skill, courage and determination" in the face of the enemy, according to an Associated Press dispatch yesterday from Allied headquarters in Australia.

Sergt. Connor, whose local address could not be learned immediately, was lower turret gunner of a B-25 bomber which returned to its home

base May 10 after a bombing raid on Lae Airdrome. While waiting to land, the report stated, the ship attacked two Zeros, one of which the sergeant shot down in flames while the other fled.

Test Case On WLB Brewing

Montgomery Ward Issue Yet May Plague Administration

By DAVID LAWRENCE.

Recent negotiations between the Montgomery Ward Co. and the War Labor Board...

The erroneous impression prevails in many quarters that the "war powers" of the Executive are limitless and absolute.

If this were true, then America could be said to have discarded her Constitution and gone totalitarian.

The fact is, the President possesses no war powers by virtue of his office. He gets them only when delegated to him by Congress.

Delegation of power is one of the most delicate expressions of the Constitution and it means that Congress cannot delegate to the Executive any power except in specific instances.

Provides Dismissals. In the Montgomery Ward case, the War Labor Board—itsself created by an executive order without any specific delegation of power...

Thus, an employee who is not a member of a union and of course doesn't pay dues can retain his job whereas an employee in the same plant who has been a member of a union and refuses to pay dues any longer must be fired by the employer.

The Montgomery Ward executives pointed all this out to the War Labor Board but were told they must sign the contract anyhow.

Smith Seeks Inquiry. It isn't a record of which democracy can be proud and it will rise to plague the administration.

Mr. Smith is particularly interested in the effort of the WLB to regulate the wages of municipal employees.

ADD BEAUTY To Your Basement with ASPHALT TILE 15¢ DIENER'S 1221 22nd St. N.W. Telephone DI. 6875

On the Record

Blitz Peace Will Present World With Problems Worse Than War Itself

DOROTHY THOMPSON.

Within the last few days two viewpoints have been expressed by distinguished citizens...

Walter Lippman before the Canadian Club in Montreal, the other by Wendell Willkie in a message to the London Evening Standard.

Mr. Willkie pleaded for an international discussion now regarding peace aims, suggesting that if clarity Dorothy Thompson...

They were not achieved America was likely to return to isolationism after the war...

Now I submit that both Mr. Willkie and Mr. Lippman are correct. We must decide to remain together in order to settle our differences...

To my mind, the most disturbing feature of the war to date is that the leadership of both Britain and America are falling to give the people of their countries any comprehensible view of the future.

The other day, Attorney General Biddle, speaking before the University of Virginia, complained that the public is not sufficiently moved by the vision of a better world...

Mr. Biddle, a member of the administration, is attacking the press and molders of public opinion for not presenting a democratic vision to the American people.

This is a truly remarkable viewpoint. The fact is that since this war began no publicist is able to construct out of any words emanating from either Washington or London a picture of what either government envisages for the future.

Occasionally persons who presume to know the plans of the State Department tell us that Mr. Wallace's visionary concepts have been shelved in favor of a State Department policy...

Administration Secret. The truth is that whatever official plans may exist for the future reconstruction of Europe and

the world, and the future organization of security and peace; whatever thought may have found form regarding the social and economic structure of the world following this war remains a secret of the administration...

Day by day thousands of words are being spoken across the ether to sympathizers of ours in enemy countries with a view to influencing public opinion in other countries.

Minds Demobilized. It is not the function of private citizens in time of war, however deeply concerned they may be about the future and however much thought they may have given over years of their lives to international questions...

Not having anything to discuss, people lose interest. Resignation spreads, accompanied by a feeling of malaise, an apprehension as to whether any one knows where we are really going...

Slogans are put out which are obvious nonsense. One of them is "Food Will Win the War, and Write the Peace."

It is a repetition of the Roosevelt tactics consistently used since Senator Byrd began his long fight against waste. In several previous instances, the President made forced moves toward economy and reorganization...

Very Smart Politics. It is a repetition of the Roosevelt tactics consistently used since Senator Byrd began his long fight against waste.

The Great Game of Politics

Liquidation of Other Wasteful Agencies Likely In Wake of 'Voluntary' WPA Suspension

By FRANK R. KENT.

Before the "liquidation" of the WPA by President Roosevelt, who declared that it had asked for its own "honorable discharge," is put under the hood...

The impression these conveyed that both the President's order and WPA's unselfish request were entirely voluntary is not a correct impression.

What would give it increased force and weight, of course, were the election returns. As a result of these a new Congress is about to come in, with a rather convincing mandate against useless expenditures...

In brief, WPA was doomed. Its number was up. Under the circumstances the President's decision was hardly a voluntary act...

Very Smart Politics. It is a repetition of the Roosevelt tactics consistently used since Senator Byrd began his long fight against waste.

It is a repetition of the Roosevelt tactics consistently used since Senator Byrd began his long fight against waste.

that when, after the war, the necessity for a Federal relief agency arises again, it will take a sounder and less wasteful form than WPA.

The two have spent—and are still spending—vast sums of money for almost negligible results. Trying to avert the ax, the NYA claims it is now doing vital work in the training of youths to take jobs in munition factories.

Nevertheless, the chances for success seem good. For one reason, realization of the waste involved in such agencies—particularly during a war—is increasing all the time.

The Byrd Committee has had testimony to that effect, and while the FSA counters with big claims of benefits conferred, a strong case against it as a wasteful and unnecessary agency is made.

They further contend that the great bulk of this billion has been lost; that the submerged farmer has been burdened with debt that he cannot pay...

This Changing World

Attitude of Arabs and Spanish Neutrality Causing Concern for Tunisia Campaign

By CONSTANTINE BROWN.

Difficulties which the British 1st Army under Lt. Gen. K. A. N. Anderson continues to encounter have become irksome, but are not causing any particular worry.

There are, however, two political elements which are creating concern in Washington: The attitude of the Arabs and the possibility of Spain ranging herself on the side of the enemy.

The 12,000,000 or 13,000,000 Arabs in Morocco and Algeria are fairly friendly. They are suspicious people and they have adopted toward America a policy of wait and see.

Application of the strongest Nuremberg laws to the Jews in that area was only too pleasing to the Arabs. We removed this blotch as soon as we landed in Morocco and Algeria.

So long as military operations are proceeding according to schedule there is no serious danger. But if the military machine slows down our difficulties easily could be exaggerated by the remaining Axis agents.

But it is not inconceivable that if the Nazis succeed in pushing back our attacking forces, there may be a reaction among the Arabs, who understand only power politics.

pose—an eventual direct attack on the European mainland. Neither American nor British forces are in that area to pacify the country. We are using it as a base, a jumping-off place, and do not wish to become entangled in any kind of local warfare.

Ten days ago Generalissimo Franco and the rest of his cabinet were reported determined to maintain strict neutrality. That is all we desired. So long as Spain remained neutral the 200,000 men she has in North Africa and the 550,000 men in Spain itself were no bother to us.

That army's disposition, which became known last week, began to create a certain amount of concern since there were practically no forces to defend the country's back door to Nazi-occupied France.

It is true that the council is composed of about 100 members and meets only twice a year in an advisory capacity.

The exchanges of cordial telegrams between Hitler and Franco on the latter's 56th birthday also were glossed over by our diplomats as an inevitable gesture of courtesy.

Whether Franco has become a Michavellian diplomat and is using all means at his disposal to placate the Nazis to avert an invasion or whether he has been influenced by the local victories of the Axis in Tunisia is not known.

It is believed that Franco, after being impressed by the lightning landing of the American forces in North Africa, has begun to doubt our ability to hold on and is flirting with the idea of co-operating with the Axis.

Franco's qualms and doubts could be disposed of quickest by an early victory over the Nazis in the Bizerte-Tunis area.

McLemore

Lady Santa Clauses! What Next?

By HENRY McLEMORE.

I got the shock of my life the other day and I'm a man who doesn't shock easily. I've seen Fight Promoter Mike Jacobs pour

vintage champagne into a lily cup filled with ice and say, "Have some grape, boys." I've seen Westbrook Pegler play golf. I've seen Frank Crownshield stand on his head.

I've seen my wife when she matter how much you lost, dear, just so you had a good time. I've seen Gene Tunney acting natural, just being himself. I've seen people order okra and spinach when they had a choice of two vegetables.

I've seen—well, that's enough to show you that I am almost shock-proof. But I am telling you that the other day if some one had draped a coat of electric eels around me I could not have been more shocked than I was.

I happened this way: I was in the toy department of a big department store just kind of fooling around, you know, having a go at the electric trains, winding up the tanks and trying to make them go up inclines, pulling the triggers of those boys' size machine guns and generally having a very good time.

Not the standard Santa Claus. Not the regulation St. Nicholas. Not the accepted resident of the North Pole. Not the genuine driver of Donner and Blitzen and the other reindeer that make such a clatter on the roof. No sir! This was a woman Santa Claus.

I feel sorry for the kids today. They put on long pants when they're 6. They will never know the awful feeling of pride and embarrassment of putting on their first long pants at 16 and feeling that every eye in the world is looking at them.

Think back. Would you and I have ever believed in a Santa Claus who didn't live up to the story book pictures? War is primarily a matter of big things. But there are a lot of little things that it changes too.

War is primarily a matter of big things. But there are a lot of little things that it changes too.

Weather Bureau Pioneer To Retire After 45 Years

NEW ORLEANS, Dec. 9.—Meteorologist L. H. Daingerfield, administration for the Gulf Coast district, will retire from the Weather Bureau Service January 1.

Mr. Daingerfield, a pioneer in the study of the upper air and its relations to the weather, began his work with kites back in the '90's.

Uncle Sam needs your waste bacon grease, drippings, vegetable shortening. Take them to your meat dealer.

Complete selections now. \$65 to \$145 OTHER OVERCOATS, \$52.50 & UPWARDS LEWIS & THOS. SALTZ 1409 G STREET N. W. NOT CONNECTED WITH SALTZ BROS. INC.

They divided up the world LONG before the days of Hitler, Mussolini and Hirohito, three men met in a little office in the oldest part of London, and divided up the news rights of the world. They were the heads of the three great news agencies of Europe: Reuters of England, Havas of France, Wolff of Germany. They had under their thumb all the news agencies of other countries. And the greatest of them was Reuters. And so when Paul Julius Reuter—born, by the way, in Germany—the one-man ruler of the English agency, decided which parts of the world each agency could serve with its "news," that was the way it was. Naturally, the lion's share went to the British. That division of the world's news coverage existed right on through the first World War, and almost up to the present one. It was The Associated Press that broke the monopoly. The story of the freeing of the newsways of the world from the fetters of foreign monopolies is the story that Kent Cooper tells in this book. To the man who is now the General Manager of The Associated Press, that fight was a personal crusade. His victory came too late to allow for that free exchange of knowledge between the peoples of the earth, that might have prevented this war. But it is full of significance for the building of a more durable peace in the days to come. BARRIERS DOWN 324 pages \$3.00 As all booksellers FARRAR & RINEHART 232 MADISON AVE. Two of Seven Nazis Who Fled Canadian Camp Still at Large

One Believed Officer Who Previously Had Escaped Three Times

By the Associated Press.
GRAVENHURST, Ontario, Dec. 9.—Two of seven Germans air force officers who escaped last night from a prison camp near here were still free today as police pressed a wide-spread search for them through Northern and Central Ontario.

Albert Waller, 24, and Hans Strehl, 22, were captured last night after getting past the first enclosure at the camp. Two others were caught at Barrie, 40 miles south of here, after riding into town on the snow-plow of a train.

The fifth, Aberhard Willdermuth, 23, was caught early today at Washago, 13 miles south of here. He was seen in a coal chute by a night operator at the Canadian National Railways station who turned in an alarm.

One Speaks Only German.
Those still at large were Otto Steinhilper, 22, who speaks only German, and Siegfried Schmidt, 24, who speaks German and some English.

Authorities indicated the fugitive listed as Otto Steinhilper may be Ulrich Steinhilper, who had escaped three times before. Once he went across Niagara Bridge on a locomotive and returned to Canada on the same train without his knowledge. He was recaptured and again escaped at Windsor station at Montreal, where he hid under a railway coach by tying himself to the rods. On a third escape from an Ontario camp he soon was recaptured.

Carrying False Identification.
The Germans captured at Barrie were Reinhard Pfundter, 21, and

Walter Manhardt, 24, who were chased through the town and caught on a highway by a provincial constable. Manhardt was believed to be the same prisoner who escaped from a camp at Bowmanville, Ontario, December 30, 1941, and was recaptured January 2 by a United States border patrol near Ogdensburg, N. Y.

Police said both Pfundter and Manhardt were carrying registration cards and false identification cards, as well as concentrated food and German-English dictionaries. They told police they wanted to go to Halifax and get on a ship in an effort to return to Germany.

Yule Cards Will Bear Re-employment Promise

By the Associated Press.
KANSAS CITY—Christmas cards from the city administration will go to 250 former city employees now in military service in all parts of the world.

And each, said City Manager L. P. Cookingham, will carry news that the people in the November election voted a charter amendment guaranteeing service men their jobs when they return—something they weren't sure of under the old system.

MONTGOMERY WARDS

SECOND STATEMENT

TO NATIONAL WAR LABOR BOARD

The following statement was submitted to the National War Labor Board at its meeting in Washington on December 8, 1942.

The War Labor Board on November 5, 1942, issued an order that Wards "incorporate" in a contract with a C.I.O. union at Chicago:

1. A clause establishing a form of the closed shop, called "Maintenance of Membership," together with a check-off of union dues from wages.
2. A clause providing for compulsory arbitration on any questions the union wishes to raise.
3. A clause guaranteeing in these uncertain times present wage and working conditions for a year.

Wards rejected this order of the board for these reasons:

1. The board was without authority. Congress, the only law-making authority under the Constitution, has not empowered the board to order any employer to do any of the things which the board demanded of Wards.
2. The order violated the fundamental principles of liberty. Liberty requires that an employee be free to join or to resign from a union without jeopardizing his livelihood. Liberty requires that an employer be free to employ the person best suited for the work.
3. The order was in itself illegal. The order required Wards, first, to interfere with the free choice of its employees to resign from the union; second, to give support to the union by a check-off of union dues; and third, to discriminate against employees if they resigned their membership in the union, all in direct violation of the National Labor Relations Act.
4. Wards operates in a highly competitive field composed of one million seven hundred fifty thousand retail establishments. It is unfair to impose burdens upon Wards and not upon those with whom it is in competition.

The imposition of the closed shop against Wards cannot be justified by reference to the so-called no strike agreement. Wards was not a party to this agreement. Wards had no voice in the selection of those who, as representatives of industry, attended the conference in December, 1941, which formulated this agreement. Wards has never ratified the results of that conference.

Furthermore, the conference itself did not agree that the War Labor Board might impose the closed shop principle. Those acting as representatives of industry expressly recommended to the President that this issue not be considered by the board. The board, in ordering a form of closed shop at Wards, has acted contrary to these expressed recommendations of the industry representatives.

If Wards had had the right to test the legality of the board's demands in a court, Wards would have done so, but Wards was deprived of a remedy in the courts by the board's complete lack of legal authority to compel obedience of its order. The courts have declared that the mere making of demands which do not have to be obeyed does not, in the eyes of the law, violate any legal right. The board's very lack of authority thus resulted in a denial to Wards, as it has to other employers, of a right to relief in the courts.

The President of the United States as well as the board is wholly without constitutional authority to order any employer to do the things demanded of Wards. Nevertheless, in deep respect for the President and his great

responsibility in time of war, Wards said, in rejecting the board's order:

"If Congress imposes closed shops, compulsory arbitration contracts for a year's duration on employers, or if the President of the United States, as Commander in Chief in time of war, directs that Wards accept the board's ruling, which we earnestly believe are illegal and uneconomic, we will respectfully obey."

The President on November 18 wrote the company, saying:

"As Commander in Chief in time of war, * * * I * * * direct Montgomery Ward and Company to comply, without further delay, with the National War Labor Board's directive order of November 5, 1942."

Wards immediately answered:

"Your order of November 18th has been received and will be promptly obeyed."

Wards thereupon altered the general form of its contracts with unions and incorporated, word for word, the clauses ordered by the War Labor Board. This document was offered to the union. The company has fully complied with the President's direction and will continue to do so.

The document which the President has directed Wards to sign is not a contract. The requisite of a contract is that there be a meeting of the minds or agreement between the parties. There has been no agreement between Wards and the union. The document which the President has ordered Wards to sign affects the rights and liberties of Wards and of its employees. Therefore, in order that the document itself may be clear and state the facts, Wards informatively included these three sentences:

"The following provisions are not voluntarily agreed to by the company. In the company's opinion they are illegal and unsound. These provisions are copied verbatim from the War Labor Board's order of November 5, 1942, and are incorporated herein, on the company's part, under duress and only because the President of the United States as Commander in Chief in time of war has expressly ordered that they be included."

These three sentences are in all respects true. They do not alter the effect of the provisions ordered by the board—provisions which Wards will carry out. Nevertheless, the union has refused to sign the offered document.

Wards will be happy to accept any improvement in the wording of this statement, but Wards will resist any attempt to hide the truth by a change in its substance.

On January 9, 1941, the President said:

"In the future days which we seek to make secure, we look forward to a world founded upon four essential human freedoms. The first is freedom of speech and expression—everywhere in the world."

Wards feels that it is bound by the rules of good citizenship to make sure that the simple truth about these provisions and Wards' acceptance of them be not hidden from or misrepresented to its hundred thousand employees, its sixty thousand shareholders, and its many millions of customers. The elimination of this statement would serve no purpose but to conceal the truth from readers of the document.

Wards has cheerfully met with the union and with this board whenever requested. Wards has promptly obeyed the direction of the President. Wards insists that its right to tell the truth not be destroyed.

MONTGOMERY WARD AND COMPANY.

Sewell Avery,

President

War Department Censors Films About Army Nurses Picture Company Acquires Interest in Russian Play Opening Here Next Week

By ANDREW R. KELLEY. When Director Mark Sandrich was here in July conferring with Red Cross officials on a story about the heroic nurses at Bataan, he had no idea he would have to make the picture under the rigid eyes of Army censors.

The controversy began when a play "Cry Havoc," by Allan Kenward, was presented at the Beechwood Theater in Hollywood, a cameo playhouse which seats but 88. The script was originally predicated upon action in Norway, but before it was staged it was changed to Bataan.

The War Department also dispatched courier to MGM to find out what Culver City was going to do about it. Merle Oberon and Joan Crawford had been assigned to co-star in "Cry Havoc."

Hedy Held on F Street. Natalie Schaefer steps into the cast of the "Doughgirls" at the National Theater tonight.

First general in the United States Army to take a regular actor's role in a movie is Brig. Gen. Eugene L. Eubank.

Twentieth Century-Fox has bought a \$17,500 slice of the Konstantin Simonov play, "The Russian People," opening here under Theater Guild auspices next Monday night.

STICKS AROUND — Lucille Ball, whose romance with that hunk of a man, Victor Mature, is the high light of "Seven Days' Leave," holds over at RKO-Keith's Theater.

Where and When Current Theater Attractions and Time of Showing

National—"The Doughgirls," new comedy with a local setting; 2:30 and 8:30 p.m. Capitol—"White Cargo," saga of Tondelayo and her luring; 11 a.m., 1:40, 4:25, 7:15 and 9:55 p.m.

Warner Bros. Studio has rushed a print of "Casablanca" to New York for earliest possible shipment to the United States armed forces.

Counting three to a family, more than half a million people will read this issue of The Star, if you have a "want" tell them through a Star "Want Ad."

'Now, Voyager' To Follow Astaire Film

Bette Davis Is Case For Psychiatrist In Earle's Next

Bette Davis' newest starring picture, Warner Bros. "Now, Voyager," one of the most touching love stories ever to come to the screen, will be the feature attraction following "You Were Never Lovelier" at the Earle Theater.

'The Ghost Breakers' Returns to Little

"The Ghost Breakers," starring Bob Hope and Paulette Goddard, today opens a revival engagement of one week only at the Little Theater.

Out West Again

George Marshall will direct Paramount's "Riding High," Technicolor musical with a Western background.

HELD OVER—Hedy Lamarr as the tropical siren, Tondelayo, is being held over for a second week at Loew's Capitol Theater in "White Cargo."

Thrice Handy

Otto Preminger, the Nazi officer in "The Pied Piper," and currently directing Joan Bennett, Milton Berle and himself in "Margin for Error," has been signed by Twentieth Century-Fox to a long-term contract as actor, director and writer.

Low Ayres Gets Religion, Plans Study of Theology

Greer Garson Complains About Playing Venerables, But Likes Madame Curie

By SHEILAH GRAHAM, North American Newspaper Alliance.

HOLLYWOOD.—Lew Ayres has got religion. When the war is over and he is relieved of his duties with the Medical Corps, Lew plans a trip around the world to study every type of religion now in existence or ever was in existence, concentrating on the mystical beliefs of India and Burma. Then he will return to this country and spread the gospel (as he sees it) in a Nation-wide lecture tour.

Greer Garson, who is always protesting that her Metro bosses make her play middle-aged ladies on the screen (which, incidentally, she does superbly), is going the whole hog in her next movie, "Madame Curie." She will probably portray the great scientist at the age of 70! Greer's quarrel during "Mrs. Miniver" was that she had a 19-year-old son (Pierce Richard Ney), but was still presented as Greer Garson. "On my recent bond tour," she tells me, "people expected me to get off the train in an invalid's chair!" She says she doesn't mind being an old lady in the Curie film, "because then I'm not Greer Garson, but a character who will not be confused in private life with me." Greer gives her age as 31.

Jean Likes Privacy. Jean Arthur has to do a rumba in "Merry-Go-Round," and insists on a huge screen around her, whenever she practices it on the set. "Some day a book will be written about Miss Arthur's fantastic shyness, and it's cause . . . Paulette Goddard says she isn't worrying about the rationing of gasoline. "I let the studio worry about it," she coos sweetly. "If they want, let them work their darnedest to get me to my job." Paulette is sharing Burgess Meredith with an escort with Dorothy Lamour . . . Ann Sheridan is going with Edmund O'Brien who is used to be married to Nancy Kelly and wasn't it cute of Freddie Bartholomew to be the first of the young players to volunteer for service . . .

Mary Astor is coping with the servant problem by closing up the downstairs part of her big Brentwood home. "I live upstairs with my family of two children, and one servant can take care of us all." Mary recently gave up her free-

Pressmen Approve Renewal of Arbitration Pact

By the Associated Press.

FRESSMEN'S HOME, Tenn., Dec. 8.—George L. Berry, president of the International Printing Pressmen and Assistants' Union, said yesterday that its membership had approved a renewal of its international arbitration agreement with the American Newspaper Publishers Association.

Renewal of the agreement, to run for a period of five years, was approved by a referendum vote of the union's membership during November, Mr. Berry said. "This contract has been operative," Mr. Berry said, "for 36 years, except for a short time many years ago which involved negotiations. The renewed contract will extend it to 41 years. "During the period of its operation only one violation of its terms has occurred. This establishes an unprecedented record of continuous peaceful relationship between investor, management and labor as it affects the printing pressrooms of the newspaper plants on the continent of North America."

K. of C. to Give Party At St. Vincent's Asylum

Three sound movie shorts and entertainment from the Washington Council Minstrel Troupe will be presented for the girls of the St. Vincent's Orphan Asylum tonight by the Knights of Columbus. The party, to be held at the home, will also feature the presentation of a group of framed children's pictures to the sisters for the home. The program is the first of many planned by the Washington Council of the Knights of Columbus for the coming year.

Francis B. Myers, grand knight of the council, has appointed a special committee, headed by Joseph M. McKenna, Alfred P. Neff and Alfred A. McGarraghay, to handle these programs.

Fish Offers Program To Guard Home Front; Favors Pipelines

Asks Congress to Enact 'Pay-as-You-Go' Plan For Income Taxes

By the Associated Press.
A legislative program for the new Congress "to insure that we do not lose the war at home while winning it abroad" was outlined in the House yesterday by Representative Fish, Republican, of New York. He recommended that:
Congress require by law that pipe lines for gasoline and fuel oil be constructed immediately into New York and New England.
Congress to be the sole legislative authority for the Nation.
Congress, with the power to raise revenue, should devise a constructive and workable pay-as-you-go plan of income taxes.
All unnecessary projects, such as the St. Lawrence Ship Canal, should be scrapped for the duration of the war.
The House should create a committee on aviation.
Congress should devise a program for the immediate assistance of small business, including a fair distribution of war orders.
Mr. Fish also urged that ceilings on salaries be prohibited except by congressional action.
Declaring that although the Republicans failed by a few votes to control the new House, he said, "There is a clear majority of at least 25 against the New Deal and its socialistic program."
Referring to the first anniversary of the declaration of war against Japan, Mr. Fish said there had been accusations that Congress was responsible for Pearl Harbor.
"No member of Congress, either

Republican or Democrat," he said, "had anything to do with the disaster at Pearl Harbor, least of all the Representative from the 26th New York district (Fish). In 1939 I introduced a resolution to prevent the sale and shipment of scrap iron to Japan, but this was opposed by the President."
The New Yorker said that since that time "much of the 6,000,000 tons of scrap iron was turned into bombs and on December 7, 1941, was poured out over the ships in Pearl Harbor."
He said there would have been no current shortage of scrap if his resolution had been enacted.

Fire Destroys Virginia House Where Lincoln Reviewed Army

A house at Baileys Cross Roads, Va., where Abraham Lincoln held a "grand review" in 1861 and Julia Ward Howe got the inspiration for her "Battle Hymn of the Republic," was destroyed late last night by a fire of undetermined origin.
The rambling old frame house, under whose roof Lewis Bailey, the man from whom the cross roads got its name once slept, had been vacant for the last eight years. It was owned by the Misses Mildred and Ardala Moore of 1622 Upshur street N.W.
Both the Annandale and Falls Church fire departments responded to calls sent out after the house was discovered in flames. By the time they arrived the fire, burning rapidly in the dry timbers, was too far advanced to be controlled.
While it burned, a handful of residents of the neighborhood, standing in snow flurries after a trample through muddy fields,

watched and recalled what they knew about its history.
It was over those fields that Gen. McClellan's revived Army of the Potomac, smarting from the defeat it met at the hands of the Confederates during the summer, staged the "grand review" for President Lincoln on November 20, 1861. Twenty thousand Washingtonians spent half a day traversing the seven miles to the Cross Roads to witness it.
Nearly 100,000 infantry, cavalry and artillery troops took part in the parade.
Away from the review that day came a woman who suddenly had seemed to hear a call from the thousands of distressed mothers of

the boys who had paraded in one of the last demonstrations by the Army of the Potomac before it went out to resume bloody fighting. Back at the old Willard Hotel, Mrs. Howe wrote her stirring poem.
The old Bailey home once was a much more spacious home than the five chimneys left standing by the flames indicated. Beside it in former years stood "The Inn," a smaller structure moved there from the Cross Roads after the Civil War and later moved back and converted into the present home of Charles F. Miller, Washington attorney.
Land on which the original home was located has come down from a

patent that dates back to the time of King George II. On April 18, 1843, it was deeded by Machaliah Bailey to Lewis Bailey, and it is presumed that soon after this the dwelling was erected. On July 17, 1897, the homestead was sold to Millard J. Moore of Washington, father of the present owners.
Cash in Circulation Put At \$110.07 Per Person
By the Associated Press.
The Treasury said today that money in circulation averaged \$110.07 a person in November. This compared with \$105.72 the previous month.

Coast Guard Officer Reveals Narrow Escape on Invasion

Place of Refuge From Strafing in Africa Turned Out to Be Ammunition Cargo

A Coast Guard lieutenant who directed landing operations from a transport on North Africa last month and who once took what he thought was refuge behind a tractor hitched to a load of ammunition, today told the Navy of his hazardous exploits.

"It was the darkest night I've ever seen," said Lt. Bernard E. Scalan of Edwardsville, Ill. "We had orders not to fire unless a certain searchlight was turned on. Well, it did come on, and immediately Navy and Coast Guard support boats started hammering away, extinguishing it almost immediately. Then the shore batteries opened up on us, and lead and shrapnel came down like rain."

Planes Strafe Beach.
 Lt. Scalan remained offshore to direct and protect landing parties until daylight came, and then went ashore. At once enemy planes swept overhead, their machine guns strafing the beach. Most of the party made cover, but Chief Boatswain's Mate Lloyd M. Morris of Campbell, Calif., was strafed while he was waist deep in the water. Seaman (First Class) William W. Martini of Springfield, Ill., dragged him to shore and to an emergency hospital.

Later that day Lt. Scalan set out to look for a missing ensign and to locate a new landing beach. Again enemy planes came at them before they had gone 100 yards. Lt. Scalan tells the remainder of story as follows:

"We of the shore party all made for cover, naturally. I spotted a bulldozer—a small tractor used for towing purposes—leaped behind it for protection, but found two soldiers already there. It was a tight squeeze, but I managed to burrow in between them. After the strafing we learned that the bulldozer was connected with a wagonload of ammunition. Imagine our embarrassment if the ammunition had been hit and

exploded. Our secure shelter wouldn't have been so cozy.

Two at Boat Wounded.
 "After quite some time and considerable hiding, we located the beach party and were then told that the two men who had been detailed to attend to the boat while we were ashore had been wounded. On returning to our ship I learned the details. Richard L. Buckheit, boatswain's mate second class of St. Marys, Pa., and Donald Larue, seaman second class of Hackettstown, N. J., had been strafed by enemy planes.

"Seeing this, two of our shore party under cover rushed to the boat, where they found Larue, wounded and curled up on a bed he'd improvised for himself, and Buckheit, hit in the shoulders and legs. One of these firemen was Leonard A. Goldstein of Forest Hills, N. Y.; the other was named Clark.

"As firemen, their basic duties didn't call for the handling of small boats, but they'd been prepared for such an emergency through the instructions we'd given all hands on our way over. So these two took the wounded men to the nearest ship and it was their promptness in doing this that saved Buckheit's life. He was operated on immediately. Larue, unfortunately, had been much more seriously wounded and died soon after."

Asked what happened to the ensign he had set out to find, Lt. Scalan explained, "Ensign Harry A. Storts and I are pretty good friends. We're both from Illinois. I asked permission to look for him while I was ashore. I couldn't find a trace of him, however, and finally had to return, giving him up for lost.

Free After Capture.

"Three days later he turned up. After he'd landed his boat, he had it unloaded, then joined the party

of soldiers he'd brought in and went ashore with them. They crossed the beach and made their shelter without being hit and then came to a Moroccan sentry. They were cautious about moving in their equipment with this man on duty, but it soon was quite evident he either didn't care what they did or was afraid to do anything about it, for he paid no attention to them whatever.

"As they advanced farther, they were taken prisoners when they ran into an enemy machine gun nest. They were released three days later when the Casablanca armistice was signed, whereupon Ensign Storts returned to our ship.

"I'd like to add a word of praise for the unsung heroes of the landings—the men aboard ship who did an outstanding job of unloading the supplies into the landing boats while under constant shelling from

the shore batteries. You might also put in a word of praise for a real hero, a Navy pharmacist's mate named Curry, who seemed to be all over the beach attending wounded, totally disregarding machine gun bullets as though they were nothing more than raindrops."

Man Bags First Deer In 13 Years—Loses It

By the Associated Press.
 BUTLER, Pa.—For 12 seasons R. N. Welch, Butler sportsman, went deer hunting without success.

He bagged an eight-point buck on his 13th try, and left the carcass on the back porch overnight, intending to dress it the next day. But he awoke to find a thief had stolen the coveted trophy.

President Roosevelt Host Last Evening to Batista

Cuban Chief Executive Joins Members Of His Party at Blair House Today

President Roosevelt of the United States was host last evening to the President of Cuba, Maj. Gen. Fulgencio Batista, who was a guest at the White House overnight. Today Gen. Batista and the Minister of State for Cuba, Dr. Jose A. Martinez, who arrived yesterday afternoon for a few days' visit, joined other members of the visiting President's party at the Blair House.

The dinner last evening was the first of a series of official functions for the chief executive of the island republic showing the warm friendship of this country for Cuba. There has been a close tie between the two countries since our war with Spain for the freedom of Cuba.

Arrangements for the dinner last evening were similar to other such functions in the stately White House, with the Marine Band Orchestra playing from its station in the north corridor, and the rooms bright with autumn blossoms on the mantels and tables. The guests were seated at a long table in the state dining room, with delicate pompons in the small vases of the famous Monroe gold service and low mounds of autumn blossoms alternating with the candelabras and bowls of fruit.

Members of President Batista's party who were among the guests last evening were the Minister of State, Dr. Martinez; the Cuban Ambassador, Dr. Aurelio F. Conchoso; the Minister of the Presidency, Senor Amodeo Lopez Castro, and Dr. Oscar G. Mesa, a member of the Cuban National Development Commission.

Officials of this Government who were guests last evening were the Secretary of State, Mr. Cordell Hull; the Secretary of the Treasury, Mr. Henry Morgenthau, Jr., and his father, Mr. Morgenthau of New York; the Attorney General, Mr. Francis Biddle; the Postmaster General, Mr. Frank C. Walker; the Secretary of the Navy, Mr. Frank Knox; the Secretary of the Interior, Mr. Harold I. Ickes; the Secretary of Agriculture, Mr. Claude R. Wickard; the Secretary of Commerce, Mr. Jesse H. Jones; Associate Justice Robert H. Jackson; the Speaker of the House, Representative Sam Rayburn; Senator Tom Connally, chairman of the Foreign Relations Committee; Representative Carl Albert, chairman of the Foreign Affairs Committee; the chief of staff to the President, Admiral William D. Leahy; the chief of staff, United States Army, Gen. George C. Marshall; the chief of naval operations, Admiral Ernest J. King; the commandant of the Marine Corps, Lt. Gen. Thomas Holcomb; the Undersecretary of State, Mr. Sumner Wells; the director of economic stabilization, Mr. James P. Barnes; the chief of foreign relief and rehabilitation, Mr. Herbert H. Lehman; the chairman of the War Man Power Commission and Federal Security administrator, Mr. Paul V. McNutt; the United States Ambassador to Cuba, Mr. Spruille Braden; the assistant director general of the Division of American Republics of the State Department, Mr. Phil H. Bonsal; Mr. Stanley Woodward of Protocol Division; Brig. Gen. John B. Coulter, U. S. A., and

Capt. J. J. Addoms, U. S. N., aide to President Batista, and Capt. John L. McCrea, naval aide to President Roosevelt.

President Batista was honored today by the Governing Board of the Pan-American Union, a special session of the board being followed by a luncheon in his honor. Luncheon was served in the Hall of Heroes, and the members of the President's party who were present were Dr. Martinez, Brig. Gen. Francisco Tabernilla of the Cuban Army, Dr. Montes, the chief of protocol, Dr. Pedro Rodriguez Capote, Comdr. Rolando Pelaez and Maj. Jorge Hernandez, naval and military aides to the President; his physician, Dr. Oscar Figarola Infanta, and his private secretary, Senor Don Rafael Mulet.

The Secretary of State, Mr. Hull, as chairman of the Governing Board, presided at the special session and at the luncheon. Other members of the board at the lunch were the vice chairman, the Bolivian Ambassador, Dr. Don Luis Fernandez Guachalla; the dean of the diplomatic corps, the Peruvian Ambassador, Senor Don Manuel de Freyre y Santander; the Argentine Ambassador, Senor Don Felipe Espil; the Mexican Ambassador, Dr. Don Francisco Castillo Najera; the Ecuadorian Ambassador, the Uruguayan Ambassador, Dr. Don Juan Carlos Blanco; the Panama Ambassador, Dr. Don Ernesto Jaen Guardia; the Paraguayan Ambassador, Dr. Don Celso R. Velasquez; the Guatemalan Minister, Dr. Don Adrian Recinos; the El Salvador Minister, Dr. Don Hector David Castro; the Nicaraguan Minister, Dr. Don Leon De Bayle; the Honduras Minister, Dr. Don Julian R. Caceres; the Costa Rican Minister, Dr. Don Luis Fernandez; the Dominican Minister, Dr. Don J. M. Troucso; the Haitian Minister, M. Andre Liautaud, and the Colombian Charge d'Affaires, Senor Don Alberto Vargas Narino.

Others at the luncheon included Ambassador Braden, the Minister Counselor of the Cuban Embassy, Dr. Don Jose T. Baron; Gen. Caulter and Capt. Addoms, United States military and naval aides to President Batista; Mr. Sumner Wells and the director general, the assistant director general and the counselor of the Pan-American Union, Dr. Leo S. Rowell, Dr. Pedro de Alba and Dr. William Manger.

Others at the luncheon included Ambassador Braden, the Minister Counselor of the Cuban Embassy, Dr. Don Jose T. Baron; Gen. Caulter and Capt. Addoms, United States military and naval aides to President Batista; Mr. Sumner Wells and the director general, the assistant director general and the counselor of the Pan-American Union, Dr. Leo S. Rowell, Dr. Pedro de Alba and Dr. William Manger.

Miss Mary Duff, Mr. L. W. Glowa Are Married

After Wedding Trip Will Be at Home in Alexandria

A pretty wedding of Sunday afternoon took place in St. Mary's Chapel of the Washington Cathedral of St. Peter and St. Paul, when Miss Mary Cosette Duff, daughter of Col. and Mrs. Robinson Earl Duff of Chevy Chase, and Mr. Lattimer William Glowa of Arlington were married in a 3 o'clock ceremony.

Canon Charles W. F. Smith officiated before an altar decorated with white chrysanthemums, and Col. Duff escorted his daughter and gave her in marriage. She wore a gown of white satin made on princess lines and adorned with an heirloom brooch. Her veil was short and made of illusion, and she carried a bouquet of Cecil Bruner roses and bouvardia.

The bridegroom, who is the son of Mr. and Mrs. Daniel A. Glowa of Elmhurst, N. Y., had for his best man his brother, Mr. Theodore A. Glowa of West Point, and Ensign Robert Raish and Lt. S. B. Waugh were the ushers.

A reception after the ceremony was held at the home of the bride's parents, Mr. and Mrs. Glowa leaving later for a wedding trip. On their return they will make their home in Alexandria.

Mrs. Glowa is a graduate of Mount Vernon Seminary and Wellesley College, and the bridegroom is a graduate of the Massachusetts Institute of Technology.

Chinese Embassy Is Scene of Party

Tea at Twin Oaks, Residence of Ambassador

By KATHARINE BROOKS. The Chinese Ambassador and Mrs. Wei gave a tea yesterday afternoon at Twin Oaks, the estate of Mrs. Charles J. Bell, which they have maintained as their residence following the precedent established by two of the Ambassador's predecessors. The number of guests was comparatively small and included mostly those from resident circles, personal friends of the hosts as well as many of those who have worked for the relief of the suffering in China.

The Ambassador stood in the great hall of the rambling old house built by the late Dr. Gardiner Hubbard, father of the present owner. Nearby stood the Counselor of the Embassy, Mr. Liu Chieh; the Military Attache, Maj. Gen. Chu Shi-ming, and other members of the Embassy staff were about the rooms seeing that the guests were served and that they met all the other members of the staff and their very attractive wives.

Mrs. Wei was usually to be found in the dining room surrounded by an admiring group of her guests. She has great animation and a keen sense of humor and is a charming and delightful hostess. She wore a midnight blue satin Chinese robe yesterday with small figures embroidered in white over the upper part and the short sleeves. About her neck she wore a string of green jade matching the stud earrings and large ring which she wore on her second finger.

Patronesses for the dances are Mme. Henrik de Kauffmann, wife of the Danish Minister; Mrs. David S. Barry, Mrs. William Draper Blair, Mrs. Edward Goring Bliss, Mrs. Walter F. Chappell, Jr.; Mrs. Hamilton Fish, Jr.; Mrs. Edward R. Finckelstadt, Mrs. John N. Greeley, Mrs. Reginald S. Huidekoper, Mrs. Lowndes Jackson, Jr., and Mrs. John A. Kennedy.

Mrs. Samuel H. Kauffmann is one of the patronesses and others are Mrs. Nicholas Longworth, Mrs. James Alexander Lyon, Mrs. Charles Carroll Morgan, Mrs. Hugo A. Renner, Mrs. Adolphus Eaton, Mrs. L. Corrin Strong and Mrs. William North Sturtevant.

Accepted by WAVES

Mrs. Raymond Soderberg, now a lieutenant in the Falls Church Red Cross Motor Corps and an air-raid warden, has been accepted by the WAVES and expects to leave soon to enter training at Smith College. Mrs. Soderberg is the daughter of Col. and Mrs. Robert Davis.

Additional Society News on Page B-5.

By the Way—

Beth Blain

When the Addison Fosters came to Washington 10 years ago, on business for the shipbuilding company that Mr. Foster then represented, they only expected to be here a few months. At the end of five years they sent to New York for their furniture and now, at the end of 10, they feel practically like case dwellers. Every summer they lease (or did before the gas rationing) a small summer house in the old Quaker community of Sandy Spring and in the winter they live in a charming apartment in town.

It was in 1939 that Mrs. Foster first went to work for the American Red Cross. She began as did a great many others, making surgical dressings. Then she worked with the Finnish Relief for a year and after that took the Red Cross staff assistance course. Now, she is chairman of the Newspaper Committee for Public Relations for the District Chapter of the Red Cross and is doing a wonderful job at it. She hadn't had any newspaper experience before that, she says, but she once wrote a novel which "almost" got published and she wrote a play and even did all the casting for a troupe that never came off. "Can't you still do something about it?" we asked.

"Well, since the play was all about bootlegging, it's a little out of date now, I'm afraid," smiled Mrs. Foster.

She studied violin, too, and played a lot of golf, which she still does when she has the chance. Recently, she wrote a skit for the war rally that a group of independent grocers put on. There was one scene between a wounded soldier and a nurse in Bataan which required a very tropical background, and nowhere could any tropical foliage be found. Ingenious Mrs. Foster says she rented a green

Jane Byrd Lyle Is Married to Sergt. Schilhabel

Rev. Bonds Stocks Reads Nuptial Vows In Christ Church

The Church of Christ, on Lee boulevard, Arlington, was the scene Saturday afternoon at 4 o'clock of the wedding of Miss Jane Byrd Lyle, daughter of Mr. and Mrs. James Byrd Lyle of Falls Church, to Staff Sergt. Laurel Henry Schilhabel of the Army Air Forces. The ceremony was performed by the Rev. Bonds Stocks.

The altar was decorated with palms and white chrysanthemums, and the music was furnished by a chorus of mixed voices, which hummed the wedding march as the bride walked to the altar with her father.

The bride wore a gown of white satin made on princess lines with sweetheart neckline and a short train. Her finger-tip veil was held by a coronet of orange blossoms. She carried a shower bouquet of white roses.

Miss Martha Montgomery was the bride's only attendant. She wore a gown of moss green satin with matching hat and veil and carried a bouquet of tallismans roses.

Sergt. Schilhabel, son of Mr. and Mrs. William G. Schilhabel of Warrens, Wis., had Sergt. Milton Thornton of the Army Air Forces as best man.

Ushers were Mr. Clifford C. Lyle, uncle of the bride, and Mr. John Willis, both of Arlington, Va.

Following the ceremony a reception was held at the home of the bride's parents, where the bride and bridegroom, with the bride's parents, received their friends and relatives.

The bride's mother was becomingly gowned in blue jersey and wore a corsage of orchids.

Miss Kathryn Sweeney Becomes the Bride Of Lt. C. W. Eskey

The marriage of Miss Kathryn Sweeney, daughter of Mr. and Mrs. Harry P. Sweeney of this city, to Lt. (i. g.) Charles W. Eskey, U. S. N. R., son of Mr. and Mrs. Arthur L. Eskey, also of Washington, took place Saturday at noon in St. Alban's Church with the Rev. Charles T. Warner officiating.

Given in marriage by her father, the bride wore an emerald green velvet suit and a black picture hat with a veil. Her corsage was of white callenias and narcissus. Mrs. Charles Besinger of Stroudsburg, Pa., was the only attendant for the bride. Her suit was of tan silk gabardine and with it she wore a brown hat and tallismans roses.

Mr. Thomas Ekey, brother of the bridegroom, was the best man. Following the ceremony a bridal luncheon was held at the Shoreham Hotel. Lt. and Mrs. John Sweeney, brother and sister-in-law of the bride, came from Boston to be present at the ceremony and Miss Beatrice Claudio of Greenport, Long Island, fiancée of Aviation Cadet Howard W. Sweeney, brother of the bride, was also present.

Wedding Notices
The Star sometimes receives requests to print notices of weddings that have taken place as long as a week or more previously. Under ordinary circumstances, The Star cannot grant such requests. Notices of weddings must be received by The Star in advance of or on the date of the ceremony, and must bear a signed authorization.

Social Activities Are Continued In Suburbs

Lt. John M. Wilson Is Spending Week With Wife's Parents

Lt. John M. Wilson, U. S. M. C., who is on leave after receiving his commission from the Officers' Training School at Carlisle, Pa., last week is spending the week with Mr. and Mrs. P. H. Willis in Westmoreland Hills.

Mrs. Wilson, who is the former Miss Perceella Willis, daughter of Mr. and Mrs. Willis, has been making her home with her father and mother since her marriage to Lt. Wilson last summer.

Lt. and Mrs. Wilson were honor guests at a family dinner party that Mr. and Mrs. Willis gave Sunday evening.

Mrs. Luke Carry Visits in Drummond

Mrs. Luke Carry of Pontiac, Mich., has arrived in Drummond to spend several weeks with her son and daughter-in-law, Mr. and Mrs. James B. Carry.

Mr. and Mrs. Frank B. Schaefer have returned from Florida where they went during the late summer and are at their home in Somerset for a short stay.

Miss Elizabeth Sweet, a student at Mary Washington College, Fredericksburg, Va., has been the guest of her cousins, Mr. and Mrs. Raymond B. Leavitt of Westmoreland Hills, for several days.

Universalist Group Plans Dinner

The Women's Association of the Universalist National Memorial Church will hold its annual turkey dinner from 5:30 to 7:30 p.m. tomorrow at the church, Sixteenth and S streets N.W.

The committee in charge includes Mrs. Martin E. Jansson, chairman, assisted by Mrs. Francis Erdman, Mrs. W. Burton Pack, Mrs. W. E. Clafin, Mrs. A. A. Darragh, Mrs. Myra Hall, Mrs. Lettie Chapman and Miss Flora Hackett. Hostesses are Mrs. Seth R. Brooks, Mrs. Gilbert A. Saunders and Mrs. William H. McGlauffin. Mrs. Frank Ballou will be in charge of a cooked-food table.

Miss Hilbert to Wed

The engagement of Miss Betty Marian Hilbert to Mr. Robert Lewis Campbell is announced by her parents, Mr. and Mrs. Wesley H. Hilbert. Mr. Campbell is the son of Mrs. M. L. Pollock and is now on active duty with the United States Navy.

Entertains at Party

Miss Bonita Inez Crossnay entertained last evening at the Shoreham Hotel for a small group of friends upon the occasion of her 18th birthday. The daughter of Mr. Miguel K. Crossnay, director of foreign purchases of the Department of Agriculture, she is attending George Washington University and is studying for diplomatic service.

Will Be Married

Mr. and Mrs. Israel Pomerantz announce the engagement of their daughter, Miss Shanna Pomerantz, to Mr. Irving Schwartz, son of Mr. and Mrs. Max Schwartz.

The wedding will take place on the 27th of this month.

Mrs. Frank F. Bunker (left), president of the Washington Club, receives a check for \$400 from Mrs. James Shera Montgomery for the club's local war relief fund. The money was raised by a series of lectures on South America given by Mrs. Lydia Van Zandt (center) under auspices of a committee headed by Mrs. Montgomery. —Star Staff Photo.

'Billy' Mitchell's Sister Envies Russian Sniper

By Frances Lide

Ruth Mitchell, whose life has been full of colorful adventure, says that she doesn't have an envious nature.

In fact, she didn't know she had a jealous bone in her body until she began to read about Russia's woman guerrilla, Lt. Liudmila Pavlichenko who is credited with killing 309 Germans.

But thoughts of the Russian sniper who visited here recently filled her with deep envy, Miss Mitchell admitted to members of the American Newspaper Women's Club.

The only foreign woman ever admitted to the Chetniks, famed organization of Serbian fighters, Miss Mitchell made the confession when she was asked if she had ever killed a Nazi. "If you mean actually killed any—no," she said.

The sister of the late Gen. "Billy" Mitchell also revealed that she is so anxious to begin reconstruction work among the Serbian children that she's already made arrangements to be dropped into their country by parachute just as soon as the war is over.

That age-old reluctance of a woman to tell her age turns out to be of considerable benefit to a Red Cross fund raised by Chapter B of the PEO Sisterhood.

As a wartime service the chapter is designating a birthday collection as a Red Cross project, each member being asked to contribute a penny for each year of her age during her birthday month.

But most of the ladies, it seems, evade the issue by donating \$1. Which, of course, helps all the coffers in double quick time.

Following up on recent GOP election successes, the League of Republican Women has launched an intensive membership drive.

A number of congressional wives are serving on the Membership Committee, which got under way December 1 under the chairmanship of Mrs. R. A. Boone.

G. E., Westinghouse Sued as Monopolies By Justice Department

Electrical Firms Charged With Restraining Trade In Fluorescent Lights

The Justice Department today announced the filing of a complaint in the Federal Court at Trenton, N. J., charging the General Electric Co., the Westinghouse Electric & Manufacturing Co. and five other manufacturers, two trade associations and a testing laboratory with monopolistic practices and restraint of trade in the fluorescent lighting industry.

The Government accused the defendants of monopolizing and restraining trade in fluorescent lamps and fixtures by allegedly dividing the world market, conspiring with public utilities companies, controlling prices and making unlawful use of patent licensing agreements and agency contracts.

Besides General Electric and Westinghouse, others named are International General Electric Co., New York; Corning Glass Works, Corning, N. Y.; Consolidated Electric Lamp Co., Dandery, Mass.; Claude Neon Lights, Inc., New York; N. V. Phillips Co., New York; Reflector Lamp Manufacturers' Institute, Chicago; Fleur-O-Lier Manufacturers, Cleveland, and the Electrical Testing Laboratories, New York.

The fluorescent light, which came into wide-spread use in recent years, is a long tubular lamp which it is claimed gives a better light and uses less electric power than the familiar bulb incandescent lamp.

The Government seeks through the suit to have agreements among the defendants canceled and to have the business of some of them reorganized so as to restore competition, the Justice Department said.

It seeks also to enjoin General Electric and Westinghouse from instituting patent infringement suits based on patents related to the

fluorescent industry, or as an alternative, to force General Electric and Westinghouse to issue licenses without royalties to all who wish to use such patents.

The complaint alleged, the department said, that General Electric and International General Electric, which handles all of General Electric's foreign properties outside of the United States and Canada, agreed with the principal foreign lamp manufacturers to limit operations so that the foreign companies did not sell in the United States and General Electric did not invade their home market. Westinghouse joined in the agreement, the Government charged, in return for a share of lamp sales in the United States.

Another Government allegation is that General Electric and Westinghouse conspired with certain public utilities to retard the development of fluorescent lighting by failing to promote or advertise it. The Government charged also that control of the sale of fluorescent lamps was extended through the two trade associations, which were alleged to have assured adherence to specifications prepared by the manufacturers and the utilities by having products tested in the electrical testing laboratories which, the complaint asserted, is dominated by the utilities.

The Government said that except for one company—Hygrade Sylvania Corp., Salem, Mass.—fluorescent lamps used in this country for illumination purposes are made by General Electric and Westinghouse, which control prices through an agency system of marketing the lamps. The Government charged that this method is illegal.

General Electric also was alleged to have entered into arrangements with Consolidated Electric Lamp and Neon Signs Cos., whereby the lamp market was divided into indoor or illumination lamps and outdoor or advertising display lighting fields. The former field was taken over by General Electric and Westinghouse and the outdoor field was given to Claude Neon Lights and others, the Government said. In addition, it was charged, Consolidated received a share in the indoor fluorescent field by agreeing not to export and to adhere to the terms of another agreement involving incandescent lamps.

U. S. Tanks Provide Punch To Retake Tebourba Positions

By WES GALLAGHER, Associated Press War Correspondent.

ALLIED FORCE HEADQUARTERS IN NORTH AFRICA, Dec. 8 (Delayed)—American tanks supplied the punch which forced the Germans to withdraw from their newly-won positions south of Tebourba Monday, a spokesman at headquarters said today.

"American tanks attacked the Germans and regained some of the positions the Germans had taken in a counterattack and then during the night the Germans withdrew from the remainder," the spokesman said.

He added that the Allied forces, in regaining the plateau position previously lost to the Germans, had "extraordinarily fine support from the air by RAF and American Air Forces."

A spokesman for the United States 12th Air Force said Boston bombers attacked the Germans from

a height of from 50 to 100 feet, flying through a murderous anti-aircraft fire without loss.

Long-range P-38 fighters are making it extremely hazardous for the Germans to reinforce their garrisons by air and the whole Axis reinforcement of Tunisia "appears to have slowed up as a result of air attacks and activities of the Royal Navy," the spokesman added.

In the attack near Tebourba, the Boston bombers dropped action bombs near six tanks and then came back and strafed the vehicles, it was reported.

The American flyers are using B-17, B-26 and B-25 bombers in this area with P-38 fighters and C-47 transport planes, it was disclosed today.

The night bombers being used here by the RAF are new twin-engine Bisleys, an improved type of Blenheim bomber, an RAF spokesman said.

Camp Springs Wood Available for Needy After Army Is Served

Contractor Admits Some Was Burned by 'Thoughtless Gang'

Farmers and charitable institutions may get cordwood from the new Camp Springs-Meadows (Md.) airport project. It was revealed yesterday by Maj. H. D. Nottingham, area engineer, if there is any available after the Army's needs are taken care of.

This revelation was made to a reporter of The Star who visited the Fighter Command base to further an investigation on the burning of cords of usable firewood while nearby farmers were denied the right to purchase it.

There is a hitch to the promise, however. Maj. Nottingham said that the Army needs must first be taken care of, and these needs will not be known until the airport is occupied by troops. Then there are some 15,000 fenceposts needed to inclose the airport, Maj. Nottingham added, and these are being cut from the cleared timber.

Some Cordwood Burned.

During the course of a tour of the project, J. W. Moss, civilian engineer of the project, was questioned by the reporter on the burning of cordwood. Mr. Moss said, "We have a job to do here and in a hurry. In some isolated cases there is some good wood burned, but it is not the policy of the Army." "In some cases," he continued, "it would cost additional money to build gravel roads into some of the inaccessible places to reclaim the cordwood."

The reporter then pointed out several areas where he had witnessed the burning of 10 to 15 cords of wood on December 1 and asked Mr. Moss what these fires were for. Mr. Moss said, "The logs were being used to start a hot fire to burn stumps." In reply to a statement that on that day there were not any stumps near the fire nor was there a crane to toss the stumps on the fires, Mr. Moss replied, "It was probably some thoughtless gang doing the burning without authority."

During the tour the reporter was shown the burning of stumps on a large fire in the clearing process.

Used for Corduroy Roads.

Maj. Nottingham said the logs are used at times for corduroy roads in the low lands to make a base for the gravel.

Both Maj. Nottingham and Mr. Moss said that they salvage 99 per cent of the good cord wood and are hauling and storing it for the future. They proudly display large quantities of fence posts all skinned and neatly stacked. Also cords of fire wood are stacked in various parts of the 4,500 acres of the project.

Meanwhile the War Department reveals that on August 28 a cir-

cular letter authorized disposal of scrap wood to needy persons and charitable institutions when not needed by the Army.

The engineers revealed the men at the airport are working 10 hours a day and there are two shifts. Two hours are allowed between each shift to have the machinery and equipment greased and repaired.

Soldiers who are lucky enough to be stationed at the fighter command base will have all the comforts of home. The wooden barracks on the base have all been winterized and have ample large stoves. The other barracks are constructed of cinder block and are equally as warm, according to Maj. Nottingham.

Automatic Potato Peeler.

The troopers who receive K. P. duty at least won't have to peel potatoes for punishment for the new automatic potato peeler along with all up-to-date new equipment. The only thing in the mess hall not new is the ice box, which was borrowed from the Pentagon Building until the fighter command base received theirs that is on order.

The sanitary facilities at the airport are modern, with a heated lavatory and hot showers. The water at the base will be supplied by six wells now being dug.

Blood Donor Volunteers Sought in Chevy Chase

An appeal for volunteers in Chevy Chase to donate blood to the Red Cross was issued today by Mrs. Lee Price Calfee, chairman of the Chevy Chase Blood Donor Unit.

The mobile blood donor unit of the Red Cross will visit the Women's Club at Chevy Chase on Tuesday, she said, and a number of volunteers are still needed. The hours for the donations will be from 10 a. m. to 3:30 p. m.

Mrs. Calfee said the Chevy Chase quota for Tuesday will be 150 persons. Thus far only 80 persons have registered.

Any one interested in contributing to this Red Cross project should call Mrs. Calfee at Wisconsin 5435 or Mrs. Roger Whitford, chairman of the Women's Club Blood Donor Group, at Wisconsin 4041.

Alarm Clocks Sold Like Hot Cakes at Auction

By the Associated Press.

ST. LOUIS, Dec. 9.—Sixty-five alarm clocks sold like hot cakes at a public auction here yesterday, some going sight-unseen at prices that would make a grandfather clock quit ticking.

They were the most in demand of scores of articles—now off the market for the duration—which were auctioned off at the post office after being declared unclaimed or undeliverable. The sale is a semi-annual affair, but one postal official declared:

"We never had a mob like this before."

More than 1,000 "baragin hunters" jammed into a basement room and quickly turned it into anything but a bargain sale. Altogether there were 600 articles.

One lot of three alarm clocks sold for \$8.75; one single clock, \$4; an electric iron brought \$11; six decks of playing cards, \$3.50; box of sample soap, \$5.50; portable radio, damaged, \$16; pair nylon hose, \$3; three pairs ladies' silk hose, \$4.75. But a pretty good looking violin—without strings—sold for only \$1.50.

Yugoslav Music Is Presented by Chamber Guild

Three Artists Assist Quartet in Spirited Program

By ALICE EVERSMAN.

The rich musical heritage of Yugoslavia was the theme of the program given by the Chamber Music Guild last night at Almas Temple. The concert was under the patronage of the Ambassador of Yugoslavia and Mme. Fottitch and featured among the artists was the Yugoslav operatic soprano, Mme. Ljubica de Strozzi-Oblak.

The previously announced appearance of Jascha Herzog, violinist, was cancelled due to the inability of Mr. Herzog to reach this city from the West Coast, and his place was taken by Daniel Guilet, a graduate of the Paris Conservatoire and an artist of wide concert experience in Europe and South America.

The third artist assisting the guild quartet was Felicia Rybier, well-known pianist of Washington and Baltimore.

Due to its varied racial characteristics, Yugoslavia has a colorful source from which to draw its musical inspiration and one that goes deep into the life of the people. Not only does the blend of Slovenes, Croats and Serbs influence its attributes, but the changeful geographical and climatic conditions serve also as potent factors.

The national spirit is uppermost, however, and expressed itself spontaneously for generations in a folk music that has proven to be an inexhaustible spring of inspiration to those composers who sought for the development of the art form.

The folk lore has been utilized for the formation of a national art by composers during the last century, at first in the simplest style and later in a more international vein.

While the dance is perhaps the dominating type, the psychology of the peoples has been penetrated gradually to give substance and to broaden the scope. Within the past 30 years the creative powers of the musical writers has shown a greater diversity and a greater strength than ever before.

It was the product of modern Yugoslav composers that supplied the selections for yesterday's program. The single movements from three sonatas by Miloge Milogovic, Franz Dugan and Josip Slavenski, originally listed, were replaced by Mr. Guilet with Slavenski's "Chant et Danse" a "Balkan Dance" by Dajcevic in Herzog's arrangement and two dances "Danse des Veuves" and "Danse Serbe" by Manolovic.

These expertly fashioned works, stirring in their fire and heart-appealing melodies, were played with sensitive feeling, beauty of tone and refinement of style by Mr. Guilet. The expressive voice of Mme. de Strozzi-Oblak was heard first in two dramatic songs by Peter Konjovic, whose operas were produced often in Prague, and contrasting numbers by Josip Hacc, Ivan Zajc and Lajovic. Mme de Strozzi-Oblak has emotional power and the ability to project the meaning of a song such as the lovely "Majka" by Hacc and Zajc's "Vir."

The beautiful "Quintet Op. 81" by Dvorak concluded the program. In this the members of the Guild Quartet, Emmanuel Zetlin and Stanley Weiner, violins; Eugenie Limberg, viola, and Marcel Ancher, cello, were assisted by Mme. Rybier at the piano.

The five musicians achieved a well balanced tone in the ensemble. Mme Rybier blending the piano tone skillfully with that of the string instruments. Her brilliant technical equipment and temperamental fire gave color to the performance and could have been heard to greater effect were the piano placed in a more prominent position. As it was the artists were given an enthusiastic acknowledgement of their well planned performance after each movement.

Eels Cut Off Power
AUGUSTA, Ga. (AP)—The power supply of the Lombard Iron Works was suddenly cut off. Officials first blamed a water shortage in a canal. Investigation showed plenty of water, but the generating wheel had been clogged by 25 huge eels, weighing an aggregate of 87 pounds. One measured more than 43 inches long. A piece of wire had been knocked loose and permitted the eels to enter the wheel from the canal.

FPHA Plans to Create Community Facilities In Housing Agencies

Public Housing Chief Terms Nursery Schools One of Prime Needs

By SUSAN B. ANTHONY, II.

The responsibility for providing nursery schools, restaurants, infirmaries and recreation space and programs will be assumed by Federal Public Housing Authority in all its war housing projects where such facilities do not exist, FPHA Commissioner Herbert Emmerich announced today.

Mr. Emmerich's policy statement said that in "isolated areas and overcrowded communities where many war housing projects are being developed, certain facilities and services normally available in established communities are lacking." Such services, he adds, are essential to the occupants of these war housing projects.

Providing 205,000 Units. Under its present program, FPHA is constructing or has already completed 205,000 units for war workers in all war areas of the Nation. In all three types of housing going up, family dwellings, war apartments for childless couples and dormitories for single workers; facilities for eating, health protecting, recreation, safety and education are necessities, Mr. Emmerich said.

Too often, he stated, war area facilities already are overburdened and in isolated war plant areas, facilities "just do not exist." The FPHA will step in only if communities cannot handle the problems alone.

Howard White, director of FPHA community services, said that every attempt is made to tie in tenants and their activities with the normal life of the community. FPHA has agreements with 40 private and public organizations and agencies, such as the American Association of University Women and Federal Works Agency, that they will cooperate in this effort.

Other Problems. Child care is a leading problem in the family dwelling units. In the dormitory compounds, consisting of single workers and couples in war apartments, adequate eating facilities are needed. Dormitory rooms have no kitchens, and war apartments have only hot plates, so that common cafeterias must be provided. This is being done at Wilmington, N. C.; Norfolk, Va.; Seneca, Ill., and in Washington State and Oregon where giant housing projects are going up.

Every attempt is made to provide in large scale centers functions such as care of the sick, cooking, and recreation, that formerly took place in larger homes.

Local boards of education can get these funds to build nursery school space as part of new schools going up in war areas, he added.

A guiding policy of all FPHA community services, whether they be nursery schools or recreation halls, is that they serve the people of the community as well as tenants of the project.

Local boards of education can get these funds to build nursery school space as part of new schools going up in war areas, he added.

Local boards of education can get these funds to build nursery school space as part of new schools going up in war areas, he added.

26 School Papers Enter Journalism Contest

Twenty-six school papers in the District have entered the Journalism contest being conducted by the National Tuberculosis Association and the Columbia Scholastic Press Association.

The contest is open to elementary, junior and senior high schools. Each school paper is invited to submit a news story, feature story, or editorial on the tuberculosis problem, nationally or locally. Entries must be in by December 21.

A \$5 award will be given to each level of the schools for the best contribution. Similar awards are being made in Divisions I to XIII. Judges in the local contest are Dr. Charles P. Calk, Gallinger Hospital; Merlo Pusey, Washington Post, and Ralph Matthews, Washington Afro-American.

Photographic Exhibit To Show Soviet Effort

A photographic exhibition of wartime Russia will open Friday at the new war relief headquarters which Russian representatives will share with other such agencies.

The photographs will depict Russian war activities, civilian defense and women in industry. The exhibition is similar to other traveling exhibits being sent out from the headquarters of the American Council on Soviet Relations in New York.

SAN FRANCISCO.—MERCHANT MARINE HEROES HONORED—Three merchant marine heroes, pictured after being presented Victory Medals here. Left to right: Seaman Samuel A. Beard, Beaumont, Tex., who spent 23 days in a lifeboat in the South Atlantic; Carpenter Carl Kerstein of Dillon, Mont., who shot down four enemy planes before his own ship in Murmansk convoy was sunk; Pvt. (First Class) Eugene Moore of San Francisco, a guest at the ceremony, who battled and beat 65 Japs on Guadalcanal, and Fireman Joseph M. Salamon of Chicago, who swam through shark-infested waters after his ship was sunk in the Caribbean. —A. P. Wirephoto.

Congress May Lose Law-Making Power, O'Mahoney Warns

Greater Care Needed In Granting Authority To Bureaus, He Says

By the Associated Press. Delegation of legislative powers to Government agencies has progressed at such a rate recently that Congress stands in danger of losing its law-making authority to bureaucrats, Senator O'Mahoney, Democrat, of Wyoming said last night. In a radio address, the Senator

said he believed three courses were "indicated by the facts before us": The executive arm of the Government should abandon the policy of expanding its powers by interpretation. Congress should observe more care in delegation of powers by establishing definite standards and by exercising greater watchfulness over the use by bureaus of the powers it grants. The executive branch, through bureau heads, and Congress, through its committees, should co-operate in the determination of policies and the preparation of rules and regulations under delegated powers. Senator O'Mahoney said Congress should enact speedily a pending bill for the judicial review of administrative decisions, such a law not applying to any special powers involved in the conduct of the war. While members of Congress receive their commissions directly from the people, bureaus were created by Congress and the employees and officials appointed, he asserted. To many of these bureaus, he said, Congress has delegated "a substantial part of its legislative power." Between January 7, 1941, and April 12, 1942, the President issued 500 executive orders, written in private by anonymous experts without public hearings, Senator O'Mahoney said. Bureaus, he added, have written hundreds of regulations and orders affecting the daily lives of millions of citizens. The Senator termed war an execu-

tive and not a legislative function, and said proposals that Congress should insist on helping to manage the war "would serve only to promote confusion."

High School to Enlarge War Training Program

Because of the placement of trainees in local war industries and to meet the need for a greater number of men and women in industry, the Bethesda-Chevy Chase High

School has decided to enlarge its training program. J. W. Wisner, head instructor of defense training at the school, announced today.

Registration for an aircraft sheet metal course will be held tomorrow and Friday. The course will start as soon as 20 men and women have registered, it was said. Mr. Wisner also announced that approximately six more adults could be taken care of in the machine shop course.

It is patriotic to hoard—what? War bonds, the more the better.

U. S. Fuel Oil Supplies Drained by Cold Wave

NEW YORK, Dec. 9.—Heavy drains were made on the Nation's fuel oil supplies during the cold spell last week, the American Petroleum Institute report showed today. Sharpest decline was in stores of industrial fuel oil, which were down 2,577,000 barrels on December 5 at 75,219,000 barrels. This compared with 94,128,000 barrels at the same time a year ago. Household and light heating fuels decreased 1,076,000 barrels during the week to 48,663,000 barrels against 54,850,000 a year earlier. The shrinkage in stocks was much heavier than normal, previous records showed, and compared with drops of 629,000 barrels in heavy fuel oil and of 195,000 barrels in light fuels in the corresponding week a year ago. Gasoline stocks declined 2,920,000 barrels to a total of 75,934,000 while gasoline production was off 104,000 barrels from the previous week, at 11,165,000 barrels. A year ago stocks were 87,840,000 barrels. Daily average crude oil production was down 43,750 barrels from the previous week at 3,834,250 barrels compared with 4,107,950 a year earlier. Refinery operations at 78.3 per cent of capacity compared with 77.8 per cent the previous week.

Auto Accident Fatalities Decline 15.9 Per Cent

By the Associated Press. The Census Bureau said today motor vehicle accident fatalities in 133 major cities declined nearly 16 per cent in the first 47 weeks of this year. Fatalities in these cities up to the week ending November 28 totaled 4,607, a drop of 15.9 per cent. This indicated, the bureau said, "that curtailed automobile traffic this year may have been responsible for the saving of nearly 1,000 lives in cities."

Maryland Voids Gas Book Of State WPA Official

By the Associated Press.
BALTIMORE, Dec. 9.—Cornelius P. Mundy, State Office of Price Administration enforcement attorney, has announced the first revocation of a consumer's gasoline ration in Maryland for violation of rationing regulations.
Leo E. Simonton of Riva, Anne Arundel County, chief investigator for the Work Projects Administration, was denied the right to receive a "B" or "C" ration book until July 21, 1943, and ordered to surrender eight of his "A" coupons to the Anne Arundel County local board.
The revocation was ordered by the regional OPA office after consultation with national executives in public hearing in Baltimore October 29.
At the hearing it was charged that Mr. Simonton had acquired and used gasoline without giving "valid coupons."

Regimentation Must Go After War, Richberg Says

By the Associated Press.
CINCINNATI, Dec. 9.—Post-war leaders must continue "regimented operation" of industry only long enough to permit a safe transition to competitive enterprise, Donald Richberg, former NRA chairman, said last night.
The task of reordering the country's economy will be "supremely difficult," he told the Cincinnati Bar Association, because Americans have become "sharply divided into economic classes, each determined to advance its special interests without regard to the general welfare," Mr. Richberg contended.
"Liberal leaders of America must make it clear before the end of the war," Mr. Richberg asserted, "that either political control of private enterprise or irresponsible private control will bring about the eventual destruction of self-government and individual liberty."

Maj. T. B. Maury III Held Prisoner by Japanese

Relatives of Maj. Thompson Brooke Maury III, previously reported missing on Bataan, last night received word that he is in a Japanese prison camp. The information came in a telegram from the War Department to his parents, Mr. and Mrs. Magruder Gordon Maury, 5031 V street N.W.
The last word received from him directly was on Christmas eve last year, when a cablegram came to his wife in Los Angeles. He had been a staff officer under Gen. Douglas MacArthur.
Maj. Maury is a graduate of the University of Virginia and of West Point. He served for a time at Fort Myer and is widely known here.
Maj. Maury is a member of a well-known old Virginia family and is a great-grandnephew of Matthew Fontaine Maury, who was a lieutenant in the United States Navy, commodore in the Confederate Navy and founder of the Naval Observatory here.

Six members of one family have been singing in a cathedral choir in Belfast.

Three War Units Announce Selection of 4 Officials

By the Associated Press.
Appointment of four administrative officials was announced today by three war agencies. They were: Ralph J. Cordner, president of Schick, Inc., Stamford, Conn., to be director general for war production scheduling of the War Production Board.
Bernard Knollenberg, Yale University librarian, to be senior deputy administrator for the Lease-Lend Administration.
Laurence S. Knappen, formerly of the Rutgers University faculty, to head the economic analysis section of the Office of Price Administration.
Leonard W. Katz, formerly assistant to the president of the Crown Luggage Co., Baltimore, named a business specialist in OPA's personal and household accessories section.

Southern Farmers Will Vote Saturday On Cotton Control

Ballot to Test Sentiment For Federal Restriction Of Wartime Farm Produce

By the Associated Press. Dixieland farmers will vote Saturday on whether they favor keeping the production and marketing of cotton under strict governmental control for another year.

On that date the Agriculture Department will hold a referendum on the question of continuing in 1943 rigid marketing quotas under which it may tell farmers how much cotton they can sell.

The voting should provide a test of farmer sentiment on an issue being debated by agricultural leaders—whether governmental restrictions on farm production should be eliminated during wartime.

Danger of Excess. Contending that there is a danger of accumulating excessive supplies of cotton at the expense of short food supplies, the Agriculture Department expresses belief that restrictions should be maintained on the fiber crop to encourage farmers to grow and produce more things to eat.

The department takes the position that cotton production should be held to a minimum because of shortages of farm labor, machinery, equipment and transportation facilities. Manpower and other productive facilities which would go into the production of extra cotton could be used to a better advantage in growing foods needed more urgently than cotton, it says.

Some farm leaders contend that all governmental restrictions of production should be dropped for the duration. Such a stand was taken by a majority of State agricultural commissioners and secretaries at a meeting held here recently. They argued that in wartime it is not possible to have too many agricultural products. They predicted that starved and ragged Europe would need all the food and cotton this country could possibly supply when the war is over.

This year's above-average crop and surpluses from other years have provided the United States with sufficient cotton to meet its needs for about two years. Because of the war conditions, exports have dwindled to a dribble.

Acreage Specified. The department is asking that only about 22,500,000 acres be planted to cotton next year. This year's acreage totaled 24,005,000. In some past years as many as 40,000,000 acres were planted.

Under the crop control program the department gives each farmer a planting allotment. He may sell the cotton grown on this allotted acreage. Cotton sold from land in excess of the allotted acreage is subject to a marketing penalty equivalent to about half the market price. Likewise only those farmers who plant within their allotments are eligible for maximum Government benefit payments and loans on their cotton.

The Department is urging farmers to put some of their cotton land to growing peanuts and livestock feed crops or to special types of long-staple cotton needed for making parachutes and other war materials. Peanuts may be processed into vegetable oil used in making food shortening, salad oils and margarine.

The United States needs to produce more vegetable oils than ever before because it has lost important sources of supply in areas now held by the Japanese in the Western Pacific.

However, cottonseed is a good source of vegetable oil. Soybeans are another. Those farm leaders who urge unlimited production of cotton emphasize that cottonseed is a source of edible vegetable oil and livestock feed. That portion of the seed remaining after the oil has been extracted makes a good protein feed for cattle and hogs.

Upwards of 2,225,000 farmers in 19 Southern and Southwestern States will be eligible to vote in the referendum. Polling places will be established in schoolhouses,

courthouses and other public buildings normally used for voting.

Approval Each Time. The quota proposal must be approved by at least two-thirds of those voting. Last year 94 per cent of those casting ballots voted for the control program. This will be the sixth consecutive year the department has proposed cotton marketing quotas. They have been approved each time.

Advocates of the control program count heavily on a price-supporting phase of the farm program to win affirmative votes for quotas again this year. The Crop Control Act provides that the Government shall not make price-supporting loans on cotton in the event quotas are rejected. Those loans are made at rates equivalent to 90 per cent of parity. They are given credit for holding prices of American cotton above world market levels.

Wheat growers will vote next spring on a similar control program for the bread grain crop. The Agriculture Department is asking that some wheat land be planted to other food crops. The United States has sufficient wheat, the department says, to supply it for two years.

Tobacco growers already have approved marketing quotas for their 1943 crop. They will be allowed, however, to grow more of this crop because of increasing war demands.

Delegation to Attend Rites for P. A. Bennett

Four Missouri members of Congress will attend the funeral for Representative Philip A. Bennett, 61, Republican, of Missouri at Springfield, Mo., tomorrow. Mr. Bennett died Monday at the Naval Hospital of a heart ailment.

The all-Missouri delegation which will attend the rites includes the following: Representatives Short and Ploeser, Republicans, and Representatives Bell and Duncan, Democrats.

Want to send a note to Hitler? Save waste kitchen fats to make explosives.

Argentinian Says Trade Shouldn't Alienate Nations

Argentina and the United States may both have meat and corn to trade, but that is no reason for them to be unfriendly, said Senora Anna Rosa de Martinez Guerrero, chairman of the Inter-American Commission of Women, at the George Washington University yesterday.

The chairman of the Inter-American Commission of Women, herself an Argentinian, told 350 high school students at a pan-American conference that triangular trade treaties between American countries could solve the trade conflict between her country and the United States.

Argentina could sell meat to Ecuador, she said, so that Ecuador might send mine products here and the United States send machinery to Argentina.

Stressing the permanency of the broadening contact with Latin America, John Patterson, chief of the inter-American relations office of the United States Division of Education, advised the students to study Spanish along with their Latin American politics. Americans have been "isolationists" in language study as well as politics, he said. Other speakers were Julian G. Zier, chief statistician of the Pan-American Union, and Francisco Agulleira of the division of intellectual co-operation of the Pan-American Union.

Presbyterian Church Names Education Aide

Appointment of Miss Charlotte Taylor as full-time director of religious education in the Second Presbyterian Church at Alexandria, effective January 15, was announced today by the Rev. Fred V. Poag, pastor. Miss Taylor is a recent graduate of Mary Baldwin College at Staunton, Va., and of the Biblical Seminary, New York City. She was under appointment to the foreign missions service of the denomination when the war suspended work in this field.

U. S. Flyer Forced to Kill Jap He Was Trying to Rescue

By the Associated Press.
A NAVAL BASE SOMEWHERE IN THE SOLOMONS, Nov. 16 (Delayed)—Lt. (j. g.) Willis Ponder, Walnut Ridge, Ark., doesn't mind doing mercy errands with his sea-plane—even when rescuing Japanese.

But he wishes the Japanese would co-operate.

Lt. Ponder attempted to rescue two Japanese aviators whose torpedo plane had been shot down in an unsuccessful attack on United States warships off Guadalcanal.

He flew in with only one Jap, however, for shortly after he picked up both, one tried to assault him

and Lt. Ponder had to shoot him from the plane's wing.

The flyer said that when they were pulled from the water onto a float the two Japs appeared exhausted and willing to follow instructions to climb onto the wing.

Then suddenly one revived and leaped toward the cockpit. Lt. Ponder ordered him back at the point of his pistol.

The Jap kept coming, and Lt. Ponder fired. The Jap, evidently dead, fell into the water.

Radioman J. F. Westbrook, Aztec, N. Mex., then tied the other Jap to the flying wires, and Lt. Ponder took off.

First Woman Mechanic For Airline in U. S. Named

By the Associated Press.
NEW YORK, Dec. 9.—Mrs. Marjane Johnston is a little bit of a woman—but she can do a big job on aircraft motors.

Having solved the mechanical intricacies of the family car and plane, 61-inch tall Mrs. Johnston, who hails from Lone Jack, Mo., yesterday stepped into a job at La Guardia Field and became what was said to be the Nation's first woman airline mechanic.

Her husband, Francis G. Johnston,

former Eastern Air Lines mechanic and now a technical sergeant in the air forces, laughed when she suggested two years ago that she take up his trade.

But she did a good job of overhauling the engine in their car so he bought a plane and together, they went to work on that.

The plane was sold for enough money to pay for a year's course at a Newark, N. J., aeronautical school.

She passed a tough Civil Aeronautics Authority examination and applied for a job with American Airlines.

"Suppose you received a pilot's report of a rough engine?" Robert H. Burck, airlines personnel man, asked her.

"I would simply feel the cylinders," she replied quickly. "Cylinders generate heat, so a cool cylinder would be the trouble-maker."

Then she got the job.

Berlin Reports Sinking Of 13 Ships by U-Boats

By the Associated Press.
BERLIN (From German Broadcasts), Dec. 9.—The German high command reported today that U-boats had sunk 13 ships totaling 108,000 tons in the Atlantic, including the 18,700-ton British liner Ceramic, which, it said, was carrying troops to North Africa, and sank instantly in heavy seas.

"In view of the prevailing storm and heavy seas," the communique said, "large loss of life must be reckoned with."

(No such sinkings have been confirmed by any Allied sources.)

The communique said three other ships carrying war supplies were sunk from the same convoy and that two more and a destroyer-escort were hit.

Atlanta Executive Cites Trouble With U.S. Forms

By the Associated Press.
ATLANTA, Dec. 9.—If your business has felt the pressure of war measures, consider the case of Abner Lichtenstein, representative of the Atlanta Wholesale Grocers' Association.

Testifying at a hearing conducted here by the House Committee on Small Business, he related:

"It took me six months of steady work to train one man to handle all the forms that come to us almost daily, and by the time he had mastered all the details he was drafted."

Baltimore Golf Course Decision Reversed

By the Associated Press.
ANNAPOLIS, Md., Dec. 9.—The Maryland Court of Appeals today reversed a Baltimore City Superior Court verdict throwing open all four municipal golf courses to Negroes and remanded the case for a new trial.

The appeals were taken by the Baltimore City Board of Park Commissioners after Judge Eugene O'Dunne on last July 1 signed an order for a writ of mandamus compelling the board to grant Negroes the use of all four links. Prior to that time the Negroes had been restricted to the Carroll Park links, which was designated for their exclusive use.

Capital Develops Technique Of Interpreting Communiques

Nazis' Boastful, Russia's Enigmatic but Morale Lifting, America's Truthful

By HELEN LOMBARD.

A new game "how to read official communiques" is now the principal pastime of high officials in Washington.

Some political and general psychological information is coming into Washington from underground sources in Europe, but actual developments on certain war fronts are as immediately obscure to high officials as to the average newspaper reader.

In the last war, when the Allies were fighting shoulder to shoulder over a restricted area, information was pooled and observers freely exchanged. Today, because of the widely separated fronts and the facility of intercepting confidential dispatches, there is far less exchange of Allied information.

During the last war there also was easier access to information from the enemy fronts. The totalitarian Gestapo systems make it difficult to obtain smuggled information during this war.

Analyzed Here.

So both Allied and enemy communiques are microscopically analyzed in Washington.

The American official communiques are the easiest to read. Occasionally when military requirements make it imperative, the truth will be somewhat camouflaged or stated only in part. The consensus in Washington, however, is that the services give the maximum of information to the public compatible with military necessities.

When the Army or Navy says that "our casualties have been light," it is safe to believe that we have suffered only minor losses. The same thing holds true for American evaluations of enemy losses. When a communique from Guadalcanal says, for instance, that out of a detachment of 700 Japanese, 486 have been killed, the figure is correct to the last man. The marines have actually counted the dead before they give out the figure.

When the Japanese are forced to retreat in haste, the marines occupy the enemy position and proceed to bury the enemy, counting the corpses.

Tokio "News" Unreliable.

The Japanese communiques are prompt but unreliable. They frequently give out war news before the American communique is issued. The Japs, however, grossly exaggerate enemy losses while minimizing their own. The extreme reluctance of the Tokio high command to describe the recent reverses as victories is due, not to the fear of Japanese reaction to casualty lists, but to another psychological factor.

The explanation here is that the Japanese leaders, after having conquered vast territories with a minimum loss of life, had been selling to their people the idea of the invincibility of the Jap navy and army. There is extreme reluctance now, therefore, to admit that both have been stopped by a relatively small force of American marines and by a Navy which is also occupied with powerful enemies elsewhere.

Nazi communiques were accurate as long as Nazi arms were victorious, except for the fact that the strength of the opposing armies was greatly exaggerated. The explanation given here is that the Reichswehr did not wish to admit that many of its opponents were push-overs. In order to bring greater glory on German arms and to build up the legend of invincibility which hastened the collapse of each successive victim, the German command purposely exaggerated the resistance of each successive opponent. Today, however, Nazi communiques are glossing over recent events in North Africa.

Peculiar Russian System.

Among the Allied communiques, the Russian are the most difficult to analyze, particularly in respect to enemy casualties. As the Russians have been for the most part on the defensive or retreating since the Nazis attacked them in 1941, they have had little opportunity to count the German dead. They issue communiques, however, which give exact numbers of Nazis killed in each engagement.

Military men here are at a loss to know how the Russian figures are obtained. One theory is that Russian commanders compute, some-

what arbitrarily, the enemy dead by decreeing that their artillery disposes of so many Nazis per square mile. After a given number of hours of artillery fire there must be a given number of Nazi corpses. To date the Russian communiques have added up to the fantastic figure of about 15,000,000 Nazi dead.

As for the actual territory retaken by Russian forces during their winter offensives, the communique is correct when the actual name of the locality is given. But when an official communique states that a populated town called Y or an inhabited place called X has been recaptured, it is accepted here as being of the morale-boosting variety of communique. Russian resistance has far exceeded the official estimate given in Washington at the beginning of the conflict.

Proves its Worth.

There is little criticism here of the fact that Soviet leaders adopt a system of exaggerated communiques to bolster the morale of the Russian people. The system is obviously a good one as far as the Russians are concerned, since it works. Russian leaders undoubtedly know best how to mix truth with fancy to suit the taste of their own people. The Russian temperament is not the American temperament nor are their reactions the same as ours.

The British method of issuing official communiques is substantially the same as the American.

More Than 100 WAACS Have Flying Training

By the Associated Press
FORT DES MOINES, Iowa, Dec. 9.—When—and if—the air forces open its ranks to women, the WAACS will be ready.

More than 100 officers and auxiliaries of the Women's Army Auxiliary Corps training here already have flying experience, a survey shows, while at least one woman has a running start for the paratroopers.

Many of these flying WAACS received their training in civilian pilot training courses and most of them have private pilot's licenses.

Forty have more than 35 hours solo, while some of them have spent more than 100 hours in the air. A few are keeping their hands in by flying at the Des Moines municipal airport whenever time permits.

Octogenarian Resumes Work

War has caused 80-year-old James D. Willis to resume active work on his 960-acre farm near Rylstone, Australia, and he shears sheep and performs practically every other kind of farm labor.

Vice Cases Said to Involve Bellhops Are Continued

The cases of five colored men, said to be bellhops in downtown hotels, who were arrested and charged under a section of the pandering act, yesterday were continued for two weeks for a hearing when taken before Judge John P. McMahon in Municipal Court. The men were arrested by Detective Sergt. R. E. Blick, head of the police vice squad, in a con-

tinued drive on vice in the downtown area, he said. Pending their next court appearance, bond was set at \$1,500 each. Bond of \$1,000 was set for the appearance of a young woman, listed as a Government witness. The continuance was granted at the request of the prosecution. The men are charged with arranging for prostitution. Two of them were arrested in one hotel Monday night and three in another hotel Sunday night, Sergt. Blick said. They were listed as William R. Cook, 25, first block of Quincy street

N.E.; Clinton Scott, 28, 1800 block of Third street N.E.; Richard W. Brown, 26, 700 block of Harvard street N.W.; Paul Weldon, 21, 1700 block of Willard street N.W.; and James Epps, 27, 1800 block of Vernon street N.W.

Benefit Supper Planned

The ladies of Walker's Chapel Methodist Church will give a benefit chow mein supper at the church, Gebe and Dittmar roads north, Arlington, from 5:30 to 7 p.m. tomorrow.

Hearing Planned Jan. 4 On Memorial Drawspan

Proposals to extend the period during which the drawspan of the Arlington Memorial Bridge is closed to river traffic will be heard January 4 at the United States Engineers' office, Annex No. 5, First and Douglas streets N.W.

The request to change the regulations governing the operation of the drawspan was made by the National Park Service. All parties interested in the hearings are invited to be present. Present closed periods of the drawspan are from 7:15 to 9 a.m., and from 3:45 to 6 p.m. The new proposed closed periods would be from midnight to 9:15 a.m., and from 3:30 to 5:45 p.m.

More Balsa Plantations

Because of the demand in airplane construction for balsa wood, which normally grows wild in Ecuador, balsa plantations are being established in that country.

Nutritionist Will Speak At Chevy Chase College

Mrs. John Hader, Norwegian expert on nutrition and home economics, will speak at Chevy Chase Junior College on "Food Problems of the War" at 12:30 p.m. Friday. Mrs. Hader, who is married to an American, spends much of her time operating a farm at Springfield, Va. She is a qualified Red Cross nutrition instructor, a graduate of the Suhr Domestic School in Den-

mark; of the State Teachers' College of Home Economics in Norway; of King's College in London, and of Columbia University. Aside from serving on many national nutritional committees, Mrs. Hader has lectured extensively in the United States.

Gas Substitute Low

With a gasoline shortage already handicapping transportation, India faces a scarcity of charcoal, which is used in making the substitute, producer gas.

A Man's Idea of a "Real Man's Gift"

Famous Fownes Gloves

Sure, give him gloves for Christmas. But, by all means, give him nationally famous FOWNES . . . one of America's best-known names in gloves. It's the gift of gifts . . . one that goes hand-in-hand with Christmas.

Here's a thought from a male himself. It's no fun when a man has to change his one pair of gloves from a topcoat pocket to his overcoat pocket or vice versa when the weather alternates practically every day. Even if he already has gloves, your gift will make a pair for each coat. (Aside to the women: How would you like to change mirrors from one bag to another? Or wear the same pair of gloves for every occasion?) That's why we say, give him gloves by Fownes . . . makers of quality gloves for 165 years.

Suedes, pigskins and capeskins for dress, driving and sports wear. Unlined and lined with warm wool. Slip-on and snap fastener styles. Sizes 7½ to 10.

3.95

A MODEST PRICE FOR FOWNES GLOVES

Here's another group of nationally famous Fownes gloves in soft suedes and durable capeskins for dress and business wear. Tans, greys and browns in sizes 7½ to 10.

2.95

Another Group of Finer Fownes Gloves

A gift to please the most discriminate is in this group of Fownes Gloves. Velvety-finish, hand-sewn mochas for dress, casual and business wear. Sizes 7½ to 10.

5.75

Famous Fownes Wool Glove and Muffler Sets

A handsome gift for men and young men with a bit of sporting blood in their veins. Novelty stitched wool sets in white, green, canary, blue, brown, tan. Small, medium and large gloves.

Bishops to Assure Mme. Chiang of Church's Aid

Bishop Adna Leonard Included in Group For Audience

Bishop Adna Wright Leonard of Washington will accompany four Methodist bishops with long service in China when they hold an audience here with Mme. Chiang Kai-shek, it was revealed yesterday at the Council of Bishops' meeting in Cleveland.

The bishops will assure China's first lady of the church's continued full support of that nation.

A spokesman said the visit was being arranged through Mrs. Roosevelt and that the date had not been set, because the Chinese Generalissimo's wife is undergoing medical treatment.

The bishops who served in China are Herbert Welch of New York City, former president of Ohio Wesleyan University; Wilbur E. Hamaker of Denver, formerly a resident of Youngstown, Ohio; Paul B. Kern of Nashville and Arthur J. More of Atlanta.

The spokesman added that the bishops would express their Christian fellowship with Mme. Chiang, also a Methodist, and would tell her that the Methodist Overseas Relief would continue its active role in China, where it is spending more than in any other nation.

Part of Mme. Chiang's United States education was at Wesleyan College in Macon, Ga., a Methodist school, and the Council of Bishops arranged a memorial service last night to honor retired Bishop William N. Ainsworth, who died last July. Bishop Ainsworth was president of the college at the time of Mme. Chiang's attendance.

Sikorski Sees Great Role For Post-War Catholicism

Gen. Wladyslaw Sikorski, Prime Minister of the Polish government-in-exile, in acknowledging the bestowal earlier this year of an honorary degree of doctor of laws by Catholic University, told the faculty and students of the university yesterday that the Catholic Church would play an important part in the moral reconstruction of the post-war world.

"I am deeply convinced that the part which the Roman Catholic Church will play in the future moral reconstruction of the world will be enormous," the former commander in chief of the Polish armies declared. His remarks were translated by Polish Ambassador Jan Ciechanowski.

In the course of this war, Gen. Sikorski asserted, depends whether the world will achieve the realization of its highest ideals or be defeated by a primitive barbaric materialism which reduces men to beasts.

Declaring that Poland never will accept the yoke of slavery, Gen. Sikorski pointed out that his nation was the first to "take her stand on that side of the barricade where now the United Nations camp has rallied."

Navy 'Suicide' Unit First To Unlock African Door

WILLIAMSPORT, Pa., Dec. 9.—The "keyhole" to the AEF's narrow river in French Morocco—and a "suicide" unit of Navy volunteers was the key that opened the door, a 20-year-old sailor disclosed upon his return to the United States.

"It was a voluntary job, but to tell the truth, it was a suicide squad," Kenneth E. Probst of Williamsport wrote friends here from New England where he is spending his leave. "Our objective was to go up and take an airport. It was 12 miles up the river. We never expected to come out alive, for once we started up the river we couldn't turn back."

"Boy, you don't know what a feeling you get when things begin to pop. It took about three minutes for me to get in the groove. I had a 20-millimeter gun to fire, plus my 45 I had on me. In simple language, it was hell."

"If we didn't get up that river, you would not have your second front today. From the time we started we were under constant firing from batteries on the shore. I tell you I am a mighty lucky fellow, thank God."

Probst enlisted in August.

Soft Coal Price Ceiling Too Low, Randolph Says

Representative Randolph, Democrat, of West Virginia asserted in the House yesterday that some soft-coal operators of West Virginia will have to stop work unless the Office of Price Administration and the bituminous coal division permit higher prices at the mine.

Mr. Randolph accused both agencies of "undue delay" in settling appeals from operators who contend they are losing money daily under the price ceilings.

Mr. Randolph said, "All these agencies do is put out a stock letter which says: 'No conclusion has been reached.' This isn't a plea for greater profits. This is a plea for existence."

New Reduction Expected In Pneumonia Deaths

NEW YORK, Dec. 9.—The 1942-3 pneumonia season is starting this month with all signs pointing to another record-breaking decline in the death rate. Sulfanamide are credited with the life saving.

Last year the death rate dropped 21 per cent below 1940 and 63 per cent under the rate five years ago. Metropolitan Life Insurance Co. statisticians who compiled these rates said "the profile of seasonal mortality curves has been changed almost beyond recognition."

Motor of Hindenburg May Return to Reich In Form of Bullets

EASTPORT, Me., Dec. 9.—An engine of the German dirigible Hindenburg destroyed by fire at Lakehurst, N. J., May 6, 1937, may go back to Germany—in bombs and bullets.

Ration Board Interruption Of Classes Protested

Opposition to closing District schools during day study hours for use by the District ration boards was voiced in a resolution by the Summit Park Citizens' Association, meeting last night in the East Washington Heights Baptist Church.

Mrs. Lelia W. Marshall, association president, pointed to "time wasted for pupils," and urged that extra use of schools be made at night or in the late afternoons.

Whole-hearted backing of James Davis, new deputy air-raid warden of the Summit Park area, was urged by Charles King.

Mrs. Robert C. Hibben, regional chairman of the home nursing division of the American Red Cross, spoke of organizing a home nursing class in the Summit Park area.

Mrs. Virginia Snow, representing the chairman of the District Mobilization Committee, spoke on the newly organized Victory Volunteer Group.

It was announced that a Christmas dance will be given at the home of Mrs. Marshall, 3703 Bangor street S.E., Sunday night to raise funds for the association.

Army Cargo Planes Top U. S. Airline Mileage Total

CHICAGO, Dec. 9.—American cargo planes carrying supplies to combat zones and bringing in vital materials from distant points now travel world routes that total more than 60,000 miles, the Society of Automotive Engineers was informed last night.

Col. Harold R. Harris, chief of the Plans Division of the Air Transport Command, told of the growth of the air cargo service and said:

"The Air Transport Command's ton-mileage for one recent month was greater than the combined figure for all the airlines of the United States for the entire year 1941. Our world air routes now add up to more than 60,000 miles, which can be compared to the pre-war total of 41,000 miles for all domestic airlines in the United States."

Relating that the routes traverse oceans, the frozen North, deserts, jungles and mountains, he reported in an address that "we are getting down everything from jeeps to blood plasma in Africa, Alaska, Australia, India, China and way stations."

Col. Harris said the problem of furnishing gasoline was the principal obstacle standing between the air cargo service and the handling of a "massive share" of supplies by air.

Mrs. Robert C. Hibben, regional chairman of the home nursing division of the American Red Cross, spoke of organizing a home nursing class in the Summit Park area.

Mrs. Virginia Snow, representing the chairman of the District Mobilization Committee, spoke on the newly organized Victory Volunteer Group.

It was announced that a Christmas dance will be given at the home of Mrs. Marshall, 3703 Bangor street S.E., Sunday night to raise funds for the association.

**Attitudes 'Dangerous'
To Morale Reported
Among Midwest Youth**

**Indifference and Hostility
Cited in Survey by
Chicago Professor**

By the Associated Press.
CHICAGO, Dec. 9.—The morale of youth "at least in Chicago and the Middle West needs improvement."

This is the conclusion drawn by Dr. Mandel Sherman of the University of Chicago following an investigation of the attitudes of 7,000 Chicago young people.

The inquiry centered on a study of themes entitled "How the War Effects Me," written by 6,500 high school boys and girls as a regular English assignment, with no hint of the interrogatory purpose.

In addition, 500 other Chicago youths outside of school were interviewed in a manner that would not reveal that their morale was under scrutiny.

The result, a report on the inquiry said, showed that "The most dangerous attitudes to American morale—indifference and hostility," as well as critical and confused views were held by nearly 50 per cent of the youths investigated.

Personal Problems First.
Dr. Sherman said that the information upon which the report was based was obtained during last June and July.

"The most significant discovery regarding the attitudes of the youths," said a summary of the report, by Dr. Sherman, head of the orthogenic school of the university, "was that the majority were concerned with their personal problems rather than with the problem of winning the war. For example, a large number complained that the sugar rationing was only an introduction to the rationing of many other articles which would inevitably deprive them of most of their comforts."

"The attitudes held by these youths ranged from strong antagonism against the war effort and the Government to a strong desire to help win the war. This range in attitudes could be classified into seven types: Antagonism to the war effort held by 5 per cent; a critical attitude held by 6 per cent; indifference, 21 per cent; confusion about the war, 12 per cent; mildly favorable attitude, 9 per cent; a favorable attitude toward the war, 26 per cent, and a strong and vindictive attitude against the enemy, 21 per cent."

"It is evident that the morale of our youths, at least in Chicago and the Middle West needs improvement and has not improved greatly since the outbreak of the war. One of the reasons for this bad morale is the confusion of our youths regarding the causes and issues of this war and the many conflicting statements they have heard and read. They are essentially immature and are unable to develop strong convictions."

"It is very probable that the intellectual discussions regarding the war and the issues of the war have tended to confuse rather than clarify their understanding."

Summary Given to OWI.
A summary of the inquiry's findings was given to the Office of War Information.

As a remedy, Dr. Sherman recommended that Government leaders be appointed to deal directly with the youths to influence them to greater efforts in the war.

"We cannot leave the job to parents or to occasional volunteer workers because they have neither the time nor the understanding of the problems of this war," he said.

Dr. Sherman also suggested "an attempt to define the specific issues of the war so that our youths will be willing not only to accept them, but also to fight for them. Only a few of the real issues should be publicized and emphasized in a concrete way so that these issues can be understood by our youths in terms of their own lives and own problems. It is not enough to give them slogans such as 'Beat the Axis' or 'Axes for the Axis.' After a time these slogans become ineffective."

Need Factory Jobs.
"Make our youths excited about the war," the report said. "We must see that they become emotionalized about fighting the war either in the armed forces or otherwise. Only in this way can we arouse them out of their lethargy and complacency. It is entirely too late to educate them fully in the ideals of righteousness or the Four Freedoms or the Atlantic Charter. Such education should begin during early childhood. There has been too much 'intellectualization' about this war, with resulting confusion."

"Our youths must be given effective jobs, not the temporarily play-acting jobs such as collecting a few tin cans or a little scrap. Such collections can be done much more effectively in many other ways. If our youths are to take part in the war effort they should do so directly by having factory or other real jobs for at least part of the day. Thus they need not be taken out of their schools."

Dr. Sherman in an interview added that so far as he knew the inquiry was the first organized study of its kind to be undertaken, and suggested that similar projects might well be undertaken in other sections of the country, particularly since 18 and 19-year-old youths are now in the draft.

Hayes Family Proud of Don, 4-Footed Coast Guardsman

Dog Sends Home Good Report Cards From Jersey Job

Don, pride and joy of the George Hayes family, is enlisted for the duration with the Coast Guard.

This is by way of being a progress report on Don and the Coast Guard.

The 4-year-old dog answered the call to duty in September. He was taken to Philadelphia for the training that would make him a member of the armed forces instead of a household pet.

At first he didn't get it. It wasn't a matter of any lack of patriotism. The dog just couldn't understand sharing affection with other dogs. He registered his protest by nipping a few of his colleagues.

But that phase is over now. Don's "report cards" are excellent. He is assigned to patrol duty on the New Jersey Coast.

Mr. and Mrs. Hayes, who are keeping the home fires burning for Don at 24 V street N.W., don't like to point, but when they hear about dogs that join the service and fail to make the grade, they are inclined to murmur the good word about Don.

They have his certificate of acceptance framed, "miss him dreadfully" and, says Mrs. Hayes, "I really think Mr. Hayes makes excuses to go to Philadelphia so he

THIS IS DON.

may get first-hand reports about Don." Incidentally, their daughter Margaret is also with the Coast Guard.

Bard Says Uncertainty Over Ultimate Victory Of Allies Is Passed

Assistant Navy Secretary Hails National Unity at Cruiser's Launching

By the Associated Press. PHILADELPHIA, Dec. 9.—Assistant Secretary of the Navy Ralph A. Bard, who two months ago said the United Nations were losing the war now says "any uncertainty as to ultimate victory is passed."

Speaking at the launching of the

light cruiser Miami at the Cramp Shipbuilding Co. yesterday, Mr. Bard recalled that the United States had entered the war just a year ago, then added:

"We can look about us today and honestly say that any uncertainty as to the ultimate victory is passed despite the difficult trials which may lie before us.

"The American people have dug deep into national heritage and found there the things which made them great before and today make them great again. They have found national unity."

On September 27, in an address before the Industrial Union of Marine and Shipbuilding Workers in

Astors Give Cliveden To Nation to Promote World Understanding

Family May Continue To Occupy Mansion, but Trust Will Own It

By the Associated Press. LONDON, Dec. 9.—The Cliveden estate, reputed center of the Cliveden Set during the appeasement politics of the 1930s and site of a British-American World War cemetery, is being given to the nation by Lord and Lady Astor to be used for "promoting understanding and friendship among English-speaking peoples."

Lord and Lady Astor and their family after them may continue to live in the huge mansion on the Thames near London, the gift stipulates, but the big 300-year-old estate as a whole eventually will be devoted in some way to advance better international relations, especially among the United States, Britain and the Dominions.

The property will be owned and managed by the National Trust for Places of Historic Interest or Natural Beauty Foundation, under which people can put estates in trust for descendants subject to limited public use and avoid Britain's heavy inheritance taxes. Lord Lothian, late Ambassador to United States and the Astor's close friend, also died this before his death.

Site of War Hospital. Cliveden, site of a Canadian hospital in the World War and this war as well, was famous long before gossip ever arose concerning the Cliveden Set, which American-born Lady Astor has denied ever existed. The first house was built in 1666 for George Villiers, "witty and wicked" Duke of Buckingham, who had a love affair with Lady Shrewsbury and in a duel on the grounds—commemorated by "1668" still cut in the turf—killed her husband, the Earl of Shrewsbury. According to legend, the lady looked on, disguised as a page, holding her lover's horse.

William Waldorf Astor bought the estate in 1893. The present house, a century old, has a frieze with a Latin inscription of its history by the British statesman Gladstone.

46 Soldiers Buried in Garden. It is expected that the trust, in deciding the estate's use, will be advised by committee representatives of interested governments and organizations like the Rockefeller Foundation. Lord Astor established an endowment for the upkeep.

Forty-six American and British World War soldiers who died in the hospital are buried in the hidden Italian garden.

Although Cliveden Set opinion was once popularly supposed to favor

appeasement with the Axis and oppose collaboration with Russia, Lady Astor has maintained that "Cliveden has always been a meeting place and center for all sorts and kinds of men and women of the most conflicting views."

Columbia Heights Citizens Call for People's Counsel

The Columbia Heights Citizens' Association last night endorsed a resolution asking President Roosevelt to appoint a people's counsel to represent the citizens of the District in all judicial proceedings involving the interests of the users of public utilities services.

The action was taken after Mrs. Margaret Hopkins Worrell reported on abandonment of the office in

1936 and pointed out that District residents have had no voice while the Public Utilities Commission has been represented at all hearings and judicial proceedings.

Sergt. John F. Ryan, of the Metropolitan police, in charge of auxiliary police, spoke on various air raid protective services and their duties.

S. Alfred Nash, deputy air raid warden for the Columbia Heights area, told of the progress made for the past year in the warden service.

George H. Brown, president, presided at the meeting held at Columbia Heights Christian Church.

Thomas Circle Association Urges Penny Milk Plan

The Logan-Thomas Circle Citizens' Association last night approved Commissioner Guy Mason's efforts to seek a continuation of the plan providing 1-cent milk for needy children of the District. The present program will terminate December 31.

In connection with this, Edwin L. Sebastian introduced a resolution to approve liberalization of the Dis-

trict's restrictions on milk importations in view of the threatening milk shortage.

The association also favored more rigid enforcement of regulations concerning pedestrians and motorists, with particular attention to jay walking.

Frank M. Thompson introduced a resolution asking that the grounds at Fourth and Fifth streets on G and H streets be utilized for the construction of temporary housing units. The General Accounting Office was to have been constructed

there, but plans were discontinued with the outbreak of the war. The meeting was held at the Thompson home.

Stanton Park Association To Honor Defense Workers

Plans for a party honoring some 200 civilian defense workers of the area were made last night by the Stanton Park Citizens' Association, meeting in the Peabody School. Tentatively set for January 12,

the celebration would be a testimonial to "one of the smoothest running civilian defense organizations in the District," according to William J. Bartle, association president.

Taking cognizance of the Boston fire tragedy which cost the lives of nearly 500 persons, the association appointed H. L. Branthaver to investigate existing fire regulations in the District with a view toward seeing that "it can't happen here."

Mrs. Louise Ramirez, secretary of the association and chairman of its Civilian Mobilization Committee,

announced meetings of the mobilization group on the first and third Mondays of each month at the Eastern Presbyterian Church, Sixth and Maryland avenue N.E.

Three new members, Mrs. E. G. Edmonston, Mrs. O. L. Freed and Mrs. Gertrude Wiltshire, were inducted at the meeting.

Huge Coal Deposit

East Africa is seeking means to reach an almost inaccessible area in which is a deposit of 800,000,000 tons of coal.

U. S. Flyers With 8th Army Play Vital Part in Victory

Rommel Rout Aided By Bombing of Axis Ports and Shipping

By DEWITT MACKENZIE.

WITH THE BRITISH 8TH ARMY IN LIBYA, Dec. 9.—There is one thing I want to be sure to emphasize before leaving this cockpit of the Mediterranean. It is that our airmen who are operating with the British 8th Army have played an absolutely vital part in the great victory already won over the Axis.

They are entitled to this credit and the folks back home have a right to know about it.

Now this article isn't calculated to be a disclosure of virtue which some one is trying to hide from the world. Nobody is trying to suppress it, but on the contrary the prowess of our boys is being sung across the Libyan desert by our Allies.

Still, fine exploits frequently get pigeonholed as merely part of the day's work in a great war like this and I propose to advertise this one a bit—just in case.

The Americans and the British are working hand-in-hand and give credit to each other freely. For instance, Air Vice Marshal Sir Arthur Coningham, commander of the Royal Air Force and Allied units in the western desert, tells me our airmen are doing "magnificently."

Learned the Ropes From Allies.

Our own Col. William H. Crom, assistant chief of staff of the American Air Forces here, gives another side of the picture. When I told him I was writing about our men and asked him if he had anything he would like to contribute, he replied:

"Yes, there is. I take it that when this war is over, Britain and the United States must co-operate in a big way abroad to maintain the peace. I want to say a word for our Allies. When our young men of the 57th Fighter Division arrived here they were green. They were inexperienced in the tricks of the desert. The British knew this type of fighting and they were generous.

"The Royal Air Force and the South African Air Force made flights with our fighters to teach us the ropes. They handed our people for two or three sorties until we knew our way about and acquired the technique peculiar to desert warfare. It was a fine thing for our British comrades to do."

I am told by Lt. Col. Cornelius V. Whitney of the intelligence staff, who was with the American Air Forces through the whole campaign, that this same United States fighter group was considered among the top dogs on the desert. I am also indebted to this scion of one of America's famous families for this appraisal of the work of the Yankee forces:

"Our efforts in the historic offensive which Gen. Sir Bernard L. Montgomery launched at El Alamein on October 23 have been divided into three categories—those by our heavy bombers, our medium bombers and fighter-bombers. The so-called fighter-bomber is a comparatively new development. It is a fast, light fighter which carries one or two bombs. The Germans named it 'Jabo,' but the derivation of this catchy term isn't apparent.

Superior in Heavy Bombers.

"All these departments played a great part in the assault which precipitated the Axis' panicky 700-mile flight to El Aghella where Marshal Rommel's Africa Corps now is preparing to make a stand. Military historians undoubtedly will give our heavy bombers high ranking. In this class we have had considerable numerical superiority over the British and thus the vital task of sinking enemy warships, transports and

LT. COL. CORNELIUS V. WHITNEY.

supply vessels crossing the Mediterranean to Libya fell largely to us.

"There had existed up to the end of last June a corridor between Greece and the important Libyan port of Bengasi which neither British nor American warplanes could reach because their airdromes were too far away. Then big, long-distance American B-24s started operating, and began to hammer shipping in this corridor upon which the Axis was depending largely for supplies.

"Our heavies not only bombed shipping at sea from Africa to Crete and Greece, but rained terrible destruction on Libyan ports like Tobruk and Bengasi. Perhaps

our greatest feat was the raid of September 22 against Bengasi when half the port was destroyed. Subsequently bombing rendered this invaluable harbor almost useless to the Axis.

"In short, sinking of supply ships in the Mediterranean by American and British units was one of the main reasons why the enemy collapsed after the battle of El Alamein and fled all the way to El Aghella without further fighting.

Bombers Speed Victory.

"Thus our heavy bombers contributed immeasurably to the quickness and completeness of victory and to the remarkably small Allied casualties.

"Our medium and fighter-bombers also pulled their weight throughout the battle. During the opening of the fighting they participated in fierce bombardment of forward enemy troops, our air crews sometimes making several sorties a day.

"They joined too, with the British in bombing the retreating Axis forces clear to the Egyptian-Libyan border. The great military road along the coast was a shambles and this Allied bombardment was described by Axis prisoners as largely responsible for their panic."

Some indication of the work of our medium and fighter-bombers may be seen in their logs. During this offensive the 12th group of medium bombers made 551 sorties and dropped 100 tons of bombs.

The 57th Fighter Group carried out 1,527 sorties and unloaded bombs. It is also recorded that the 57 destroyed 44 planes, probably destroyed 7 more and damaged 20½. I asked the United States Army

Air Forces statistician how under the sun he could figure that half a plane was damaged.

"Well," he grinned, "it means that a British plane and an American plane got after the enemy machine together and damaged it. So we give each air force credit for half. We are accurate."

That is the sort of 50-50 basis of co-operation that the Allies here have been aiming at.

Transport Crisis Feared In Auto Mechanic Shortage

The entire Government program for wartime transportation is imperiled by a growing shortage of automobile mechanics, the American Automobile Association warned today in letters addressed to Manpower Commissioner Paul McNutt, Defense Transportation Director Joseph Eastman, Rubber Director William Jeffers and Price Administrator Leon Henderson.

Cars cannot be kept in operation unless measures are taken to prevent further drains on garage manpower, the letters declared.

The AAA pointed out that the problem created by drawing mechanics into the armed forces and war production factories is further complicated by the "Herculean task" imposed on garages by the Nation-wide tire inspection program, which will require about 120,000,000 inspections a year.

There are more than 70 convenient branch offices for Star "Want Ads" located throughout the city.

Actress Claire Luce Seeks Status as Millionaire's Widow

By the Associated Press.

NEW YORK, Dec. 9.—Musical Comedy Actress Claire Luce filed a petition in Supreme Court yesterday asking that she be declared the lawful wife and widow of Clifford Warren Smith, whose estate was estimated at \$1,800,000.

Miss Luce asserted Mr. Smith's Reno divorce from her on January 16, 1935, was illegal because the court lacked jurisdiction. Therefore, the petition sets forth, Mr. Smith's marriage the day after the divorce to the present Mrs. Charlotte Pantoni Hackett likewise was invalid.

Mr. Smith, who died July 14, 1940, was the stepson of Newcomb Carlton, millionaire telegraph company executive, and was the grandson of Benjamin F. Smith, who amassed a \$200,000,000 fortune from Colorado gold mines.

Miss Luce received \$12,000 annually from Mr. Smith from September 21, 1933, when they entered into a separation agreement until his death.

She explained yesterday that she had been in London when Mr. Smith died and was unable to obtain passage home until last March, then had been ill and thus the filing of the suit had been delayed.

Yule Bazaar to Aid Czechoslovak Relief

The Czechoslovak Relief Committee will hold its annual sale at a Christmas bazaar at the Legation, 2349 Massachusetts avenue, from 11 a.m. to 7 p.m. Monday and Tuesday, December 14 and 15.

Tea will be served the opening day between 4 and 6 p.m.

Included in the bazaar will be Czechoslovak etchings, Christmas cards, glassware and ceramics. Dolls dressed in national costumes, hand-knitted baby garments, aprons and many other articles, including

Czechoslovak cakes and cookies, will be for sale.

Proceeds of the bazaar will go to the Czechoslovak Red Cross in Great Britain.

A sure tip in the race for victory—a \$75 ticket pays \$100 and cannot lose. Buy War bonds now.

Our very fine Northern Back Muskrat Fur Coats

\$248

Plus 10% tax

If you know fine muskrat—you'll recognize the value. If you're not sure, here's what to look for—

Lustrous, luxuriously furred skins with long silky guard hairs, and the skins are wonderfully soft!

Blending is most important—Mink and Sable tones that look like mink and sable as these do. Blended by A. Hollander, of course!

How many skins used makes a big difference, as you well know. You can tell by the "feel" of these coats that all the skins necessary have been used to make them comfortably and beautifully full!

Casual roll collar and deep convertible cuffs on the model pictured—\$248. Plus 10% tax.

Jelleff's—Daylight Fur Salon, Third Floor

You'll get MANY THANKS for such a useful gift as a Rain-or-Shine Coat!

One from Jelleff's would be especially appreciated!

Colorful, transparent "Vinolite" raincoat in green, red, blue, yellow, white. Sizes 12 to 20. **\$5.95**

Cavalry Twill weather-processed cotton raincoat of famous Pell Mell make; rose, aqua, powder blue, natural; sizes 12 to 20. **\$8.95**

Trench Coat of cotton gabardine with epaulettes, bellows pockets, open blue or natural. Sizes 12 to 20. **\$10.95**

Raincoats and Reversibles from \$5.95 to the very grandest ones at \$35.

Jelleff's—Sports Shop, Third Floor

Williams Memorial Transportation Safety Medals Go to Four

Land, the Harriman Brothers and Trippe Receive Awards

The Arthur Williams Memorial Medal this year was awarded in triplicate to outstanding men in defense transportation work last night by the American Museum of Safety in the Metropolitan Club. Rear Admiral Emory S. Land, Maritime Commission chairman, was presented a medal "for outstanding contribution to the conservation of human life through safe construction and operation of ships."

Harrimans Honored.

The second award went in duplicate to W. Averell Harriman and E. Roland Harriman "for continuing the inspiring leadership of two generations in safe transportation." The brothers, it was pointed out, have carried on the tradition of railroad traffic safety as developed by their father, the late E. H. Harriman.

The third award was presented to Pan-American Airways for its pioneering in trans-ocean flying and aeronautical work in behalf of safety. The award went to Juan T. Trippe, president of the firm, for the system's work.

Dr. Donald B. Armstrong, museum president, noted that generous provisions of the Arthur Williams will had permitted renewal of awards which had been made by the museum "in recognition of great public service from the standpoint of human value."

Following tributes paid the late Mr. Williams by Col. John Stilwell, presentations were made by John Lord O'Brien, chief counsel for WFB to Admiral Land; Joseph B. Eastman, head of the Office of Defense Transportation; to the two Harrimans, and by L. Welche Pogue, chairman of the Civil Aeronautics Board, to Mr. Trippe. Dr. Donald B. Armstrong, president of the group, presided at the meeting.

War Role Considered.

The Award Committee included Frank L. Jones, chairman; Howard Cooney, Julien H. Harvey, R. V. Fletcher, Alfred E. Smith and Lew R. Palmer, secretary.

In making the award decisions, the committee announced particular consideration had been safety accomplishments during the war as well as the "vital part that safe transportation plays in hastening and insuring victory."

Mr. Williams was a prominent New York industrialist and philanthropist who for many years took an active interest in safety work and accident prevention. For more than 20 years he was president of the safety museum.

"Truly, transportation is the life-line behind the front line," Dr. Armstrong stated. "The American Museum of Safety, through the generosity of the late Arthur Williams, is deeply appreciative of its opportunity to sponsor these awards at this particular time, and to find that they rightfully belong in the all-important fields of marine, rail and air transportation."

Shop's Dec. 7 Sales Go to Red Cross

As a patriotic remembrance of Pearl Harbor, Emmanuel Avayanos, proprietor of a food shop at 2147 Pennsylvania avenue N.W., yesterday turned over \$130 to the District Red Cross Chapter to be used for war relief.

Mr. Avayanos said the money constituted the salaries of his four employees and the gross receipts of his store for December 7.

Of Greek descent, Mr. Avayanos told Red Cross officials he was grateful for the facts that he is an American and that he wants to help the war effort in every way possible.

Willie-Cries-for-War Gets What He Wants

TULSA, Okla. (AP)—Willie-Cries-for-War can dry his tears. He was inducted into the Army today.

The 31-year-old Ponca Indian explained his name was passed down by a grandfather who had definite leanings toward the warpath as a child.

Many years ago, when older warriors of the tribe would refuse to allow Willie's grandfather to join them he would set up such a terrific howl they named him "Cries-for-War."

Willie says he's just as anxious to fight now as his ancestor was in the old days.

Elijah Wells Dies; First Citizen of Arundel-on-Bay

ANNAPOLIS, Dec. 8.—Arundel-on-the-Bay's famous first citizen died yesterday.

He was Elijah Wells, 72, who passed away at the Annapolis Emergency Hospital following a brief illness.

As recently as 1930 the United States Census Bureau continued to report only one registered resident for this incorporated Southern Maryland resort, six miles southeast of here.

Mr. Wells was that resident. He was the only person who lived at Arundel-on-the-Bay the year round, although many vacationists spent summer there.

During the early 30s he was the subject of numerous newspaper features and interviews.

Col. Darryl Zanuck Sees Action In Africa, Lauds Troops' Spirit

Former Producer Taking War Films For Signal Corps

By GAULT MacGOWAN, Accredited U. S. War Correspondent With the American Forces in North Africa.

WITH UNITED STATES AIR-CRAFT SOMEWHERE OVER ALGERIA, Dec. 9 (N.A.N.A.)—Col. Darryl Zanuck, the famous motion picture producer who is now motion picture adviser to the chief Signal Corps officer with the United States Army, is traveling with me from the front toward a new assignment in the war zone. "Americans would be proud," he tells me, "if they could but see their sons in action against the tough German divisions."

Col. Zanuck has been in the forward zone for the last 10 days, taking the first North African war films for the Signal Corps. "The Americans and the British are working together beautifully," he goes on. "The suggestions that they would not have turned out to be wholly unfounded. I have hid- dled in ditches, shell holes and bomb craters with American and British officers and soldiers, and I found each was as concerned about the other as if they were brothers. Men get a different footing here. National distinctions vanish in good fellowship."

Big-Time Stuff Now. "The war is getting big-time stuff now," he continues. "The early stuff was fairly easy but now we're fighting Germany's crack Africa Corps. There's bloody pounding day and night. Men are wounded and dying but there's wonderful team-work with the British. The way every one plays all just amazes me, especially the seasoned attitude of the young Americans—just kids, you know."

"My most vivid memory of the forward zone," says Col. Zanuck, "is that of a group of tired, exhausted, hungry American boys clinging to a tank which was helping them reach a hilltop. Then, to my amazement, I saw those deadbeat boys suddenly form a line and make a terrific toom-y-gun charge like fresh troops down a long, brushy slope to capture a German position on the Tunis road. The fighting is going on in long, rolling valleys and from the hilltops you can see Tunis."

Earns Great Reputation. Col. Zanuck has earned a great reputation here with his staff of 80 Signal Corps photographers. You can take the word of Sgt. Robert Edwards of Ashland, Ohio, on this. "Col. Zanuck constantly amazes us," he said. "He insists on going to the front line and shooting pic-

COL. DARRYL ZANUCK.

tures. He could tell a lieutenant to do the job and it would have been done, but he insists on going himself."

Nazis Force Sale of Rails

Shareholders of the two railway lines in Luxembourg were compelled to sell their holdings to the German government at Nazi-dictated prices.

Old at 40?

"THE PRIME OF LIFE CAN BE PROLONGED"—this is the news announced by the eminent scientist, Dr. Henry Sherman of Columbia University, in the following statement: "A generous supply of calcium results in better development of the young, a higher form of adult health, and a longer lease of what we may call the prime of life, the period between maturity and old age."

KAL furnishes a generous supply of calcium—a dependable supply of calcium—only six small tablets furnish enough calcium for the daily needs of the average person.

KAL then does more than that—it is also rich in phosphorus and vitamin D elements that are necessary in calcium metabolism. KAL is rich, too, in vitamin B1 which has a favorable influence on appetite, digestion and metabolism.

A calcium deficiency may be one of the causes, or may be the cause, of various ailments, nervousness, early aging, brittle nails, fatigue, poor bones and teeth, or other results of this form of malnutrition—and calcium is more often deficient in the American diet than in any other mineral element.

Add KAL to your daily diet—see how much better you feel as KAL helps your body overcome a deficiency of calcium or Phosphorus or Vitamin D or Vitamin B1 as it helps to gradually build and maintain a normal balance of these essential nutritional factors.

Flyers' Aching Teeth Provide Big Job for Dentist in New Guinea

Oklahoman Has Had Fingers in Mouths of Many People of Importance

By **GEORGE WELER**, Foreign Correspondent of The Star and Chicago Daily News.

SOMEWHERE IN NEW GUINEA, Dec. 9.—If anybody ever writes a war book called "Front Line Dentist"—and why shouldn't he?—you'll be able to tell who it is about without opening the cover. It will be about Capt. Charles McCracken, a middle-sized, plumpish tooth and gum man from Tulsa, Okla., who has settled down among the American fighter pilots and has had his fingers in the mouth of practically everybody of importance who is septic in Papua. And that is a lot of people.

Flyers, especially fighter pilots, are at their prime in cloud warfare at the age when their wisdom teeth are just emerging. They get both metaphorical and real wisdom teeth at the same time. And teeth are very susceptible to high altitudes where our Alracobras and Kittyhawks lock with Jap Zeros. Wisdom teeth, especially, begin to give pain above 20,000 feet. Consequently, when a pilot's need for vigilance is greatest he may suddenly be stabbed with a toothache.

Dr. McCracken, who is 29 and a graduate of Loyola University, New Orleans, started his front-line life when the Jap posts could practically be seen from his revolving chair. He was then quartered in a pyramidal tent on ground sloping downhill. Whenever he said "open please" his left foot was on ground several inches lower than his right. From the other side he looked downhill into the patient's widened mouth.

Screw Driver Became Chisel.
Lacking a bone chisel in those days, Dr. McCracken made one from a screw driver. His motor for his drill was pulsed from a refrigerator. He worked nine hours daily. Now, with the Japs driven across the Owen Stanley Range Dr. McCracken has two chairs, instead of one and he often works from 10 to 12 hours daily instead of nine. He has two assistants, Wilbur Nichols of Peoria, Ill., who once worked in a dental laboratory there, and Virgil Dockery of Nashville, Tenn.

Dr. McCracken now has a screened-in laboratory with a thatched roof and hip-high thatched walls built by bushy-headed Papuanas without a single nail. Everything is tied together with grass and bamboo thongs. He has even been able to get screening against the ever-present flies and mosquitoes.

These quarters, Dr. McCracken shares with Maj. Reynolds Smith of Oakland, Calif., flight surgeon of the Alracobras under Lt. Col. Richard Legg, a West Pointer from Ala., Neb. Both doctors have bamboo tables with bamboo weights. This American dispensary is the only qualified office in New Guinea where six-four eyesight tests for flyers can be given.

Works Without Shirt.
In humid New Guinea, Dr. McCracken works shirtless, with only a white tunic over his torso. He dusts with sulfanilamide powder in all his treatments as an infection preventive. Teeth are filled with a concrete and metal alloy overlay, because this seems to give better results in the tropics. One ground-crew man, fresh from the United States, needed 16 such fillings.

Any Army dentist has only his conscience as his guide and he can be as energetic about his job as his duty tells him. Dr. McCracken's energy may be judged by the fact that he is now reminding them of their appointments after New York. (Copyright, 1942, Chicago Daily News, Inc.)

Salvage Group Plans Victory Rally Tomorrow

Informative speakers, a glee club recital and movies and a community sing will be the program for the "homemakers' victory rally" to be held at 10 p.m. tomorrow in Banneker auditorium, Georgia avenue and Euclid street N.W., under the auspices of the Howard Park Salvage Committee.

Among the speakers will be Miss Venice Sprague, assistant personnel director, National Youth Administration, and Mrs. Gifford Pinchot, chief of the Emergency Feeding and Housing Corps.

Songs will be sung by the Howard University Women's Glee Club under the direction of Miss Carolyn Grant. One of the pictures to be shown was issued by the OWI and has a special message on the salvage drive.

They asked for a scrap—now let 'em have it. Collect yours now.

Ryti's Speech Viewed As Repudiation of Nazis' New Order

Finns Believed Seeking Guarantee of Security In Scandinavian Union

By PAUL GHALL, Foreign Correspondent, The Star and Chicago Daily News.

BERN, Dec. 9.—President Risto Ryti's speech on Sunday, the 25th anniversary of Finland's independence, is regarded by many observers here as one of the most enlightening official declarations ever to come from the war-weary little democracy which fate has placed in the totalitarian camp.

These observers see in the speech the clearest repudiation of the Nazis' new European order, together with further confirmation of the suggestion that Finland may be seeking a guarantee of future security in some form of Scandinavian union.

The most striking feature of the speech was its disclosure of President Ryti's firm belief in Scandinavian solidarity, Finnish independence, the President declared, rested on the physical and spiritual integrity and freedom of the north in which alone Finland's future development lay. Finland's geographical key position, Ryti continued, made it the "shield of the north against expansionist aims of the east."

Fighting for Whole North.

In fighting for existence the Finns are fighting for the whole north, whose "outpost" their country was, Ryti indicated. Recalling history, Ryti pointed out that Finland is only successful in defensive wars when the "Swedish-Finnish Reich" has been strong and well led.

These remarks are regarded in Swedish circles as among the most important of the whole speech. Never, Stockholm dispatches point out, have Finland's foreign political obligations toward other north countries, resulting from acknowledgment of the "Nordic idea," been stated with such clarity by so authoritative a Finnish voice.

The Swedish press reactions are reflected in a series of articles emphasizing the country's strong sympathies for the neighbor whose independence is considered indispensable to Sweden's security. "May the day be not far distant," the important Dagens Nyheter concludes its comment.

History shows that fear of external aggression and the consequent desire for greater security have been the primary motives bringing about federations of independent states.

Today there are numerous indications that these same motives may lead to the creation of a Scandinavian union.

New European Order Opposed.

Such a union would clearly diametrically oppose the Nazis' new European order which the Finnish President seems definitely to reject. Ryti expressed himself as pessimistic about Europe's future because "great productive territories on the far side of the ocean hitherto administered by European powers for the benefit of the commerce of the whole world now appeared finally lost."

It would seem clear that the President was here voicing the

opinion reportedly shared by Axis circles that the Japs' conquest of Europe's eastern possessions was one of the most unfortunate results of the tripartite pact. Europe, continued Ryti, should cease weakening itself through internal wars. It was to be hoped that a "real peace" would be created which would take into account the rights of small nations which did not exist merely as objects of barter in bargaining between great powers. They had the right to their own existence, the President declared, especially as through their moral and material forces they had enriched human culture and often had been more successful than the great nations in promoting interstate relations.

Hope to Regain Freedom.

The Finnish press, stressing the same point, expressed the significant hope that those small nations which today have lost their freedom may soon regain it.

There is some difference of opinion here concerning the significance of the President's remarks about Russia. Many foreign observers point out their conciliatory tone and even suggest that they may be an overture to Russia intended to pave the way for a separate peace. Ryti certainly stressed that the Finns did not hate the "hard-hit, unfortunate Russian people" and

had no desire to interfere with their governmental system. Stockholm dispatches, on the other hand, suggest that the President's remarks have been ill received in Moscow and have lessened the chances of liquidation of the Russo-Finnish conflict before the end of the war. (Copyright, 1942, Chicago Daily News, Inc.)

Orders Bond From Outpost

SAN DIEGO (AP)—Telephoning from a Navy post in the Southern Pacific, John L. Emory, chief water-tender who has been in several major battles, asked his wife Margaret to purchase a \$500 War bond "so the Japs will know we mean business." She bought \$600 worth of bonds.

Man Fined \$50 for Biting Transit Co. Inspector

Gordon M. Brightman, 33, of the 5400 block of Cathedral avenue N.W., said to have been employed as a Government clerk, yesterday was sentenced to pay a \$50 fine or serve 45 days in jail on each of three assault charges which claimed he hit a woman and her daughter and bit a Capital Transit Co. inspector on the finger, the latter part of last month. The sentences were imposed by Judge John P. McMahon of Municipal Court. Mrs. Titiana Kennedy, 39, and her daughter, Miss Frances Kennedy, 18, of the 5500 block of Sherrier place N.W., said they were

struck by the man near a Cabin John carline stop at Cathedral avenue and Sherrier place N.W. The transit inspector, John W. Cornell, was bitten by Brightman when investigating the trouble, it was testified. Brightman admitted on the stand he had been drinking and said he failed to recall events. At the time of the alleged attacks, he was unknown to any of the victims, it was testified.

Membership Campaign Organized by UFW

A new organizing drive designed to strengthen the ranks of the CIO United Federal Workers will be

undertaken here and elsewhere, Miss Eleanor Nelson, secretary-treasurer, announced today. A four-member organization team led by Dan Schwartz will head the effort here. Mr. Schwartz resigned as a social science analyst at the Library of Congress to push the campaign. Associated with him will be Mrs. Ann Rossmore, Marie Richardson and Donald Murray.

RELIEVES CHAPPED SKIN SOOTHES RAW HANDS ... CRACKED LIPS MENTHOLATUM New, bitter cracked skin cells, leaves them "thirsty". Skin becomes chapped—may crack and bleed. Soothing Mentholum acts medicinally, helps: 1) Retain needed moisture; 2) Protect chapped skin from further irritation. Use Mentholum for raw, sore hands, cheeks and lips. Jar 30c.

Commonsense Says: PAZO for PILES Relieves pain and soreness For relief from the torture of simple Piles, PAZO ointment has been famous for more than thirty years. Here's why: PAZO ointment soothes inflamed areas, relieves pain and itching. Second, PAZO ointment lubricates hardened, dried piles—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check bleeding. Fourth, it's easy to use. PAZO ointment is sold in 1/2 oz. and 1 oz. tubes. Get PAZO now! At Your Druggists!

Worried about They say reading helps our escape our wartime worries. Well, here's a story that'll make the problems of '42 seem like child's play.

COFFEE? "Oregon Road" by Alice Maxwell is a tale of pioneer Maxwell that should give courage to an American sufferer on every lip—even without that second cup of coffee. Sunday in THIS WEEK Magazine, with your THE SUNDAY STAR

Winning Contract By THE FOUR ACES. (David Bruce Burrington, Oswald Jacoby, Howard Schenken and Theodore A. Lightner, world's leading team of bridge players, whose system has beaten every other system in existence.) Crime Doesn't Pay! No. 131 A very good bridge detective will spot the crime in today's hand easily, but so will a very poor bridge player. The in-betweeners will have trouble.

South dealer. North-South vulnerable. Q 10 7 3 A K 6 K 7 4 Q 6 3 8 4 Q J 10 7 N E S W 10 8 8 8 4 2 K 8 7 4 A K 9 5 5 3 5 2

West opened the queen of hearts, dummy winning with the king. Declarer drew two rounds of trumps, ending in the dummy, they dressed the jack of diamonds. West won with the queen of diamonds and led the jack of hearts, forcing out dummy's ace. South then cashed the ace of diamonds and entered dummy with a trump to discard his losing heart on dummy's king of diamonds. The next step was to lead a club from dummy. East played the nine and West captured South's jack with the king. South was able to ruff the heart return, but lost two more club tricks to East for a one-trick set.

Yesterday you were Howard Schenken's partner and, with neither side vulnerable, you held: A Q 7 3 Q 6 J 9 4 Q 10 6 2 The bidding: Schenken, Jacoby. You, Lightner. 1 A Pass (2) Answer—Bid three clubs. If your partner has only a fair opening bid, you ought to be safe at the level of three. If he has a maximum for his bids thus far, you should have a reasonable play for some game contract.

Score 100 per cent for three clubs, 50 per cent for two no-trump, 40 per cent for pass. Question No. 1,251. Today you hold the same hand and the bidding continues: Schenken, Jacoby. You, Lightner. 1 A Pass 1 A Pass 2 A Pass 3 A Pass 4 A Pass 5 A Pass

What do you bid? (Answer tomorrow.) (Released by the Bell Syndicate, Inc.) The Four Aces will be pleased to answer letters from readers if a stamped (1-cent), self-addressed envelope is enclosed with each communication addressed to the Four Aces, care of The Evening Star, 1100 National Building, Washington, D. C. Send your request to the Four Aces, care of The Evening Star, a stamped (1-cent), self-addressed, return-size envelope and you will receive an outline without any charge.

Take My Word for It By FRANK COLBY. Surprise Word of the Week We all are familiar with the word AUTOPSY, especially those of us who are devotees of the murder mystery. But many of us mispronounce the word "uh-TOPSY," possibly because the last two syllables remind us of Harriet Beecher Stowe's Topsy, who "wasn't borned; I just growed" (Uncle Tom's Cabin).

It's Hard to Believe New Orleans: Our art class has been wonderful about the origin of the word EASEL. Please tell us. M. D. Answer: Brace yourselves, budding Michelangelos, for this one may topple you. Easel is the English form of the Dutch word ezel, which means "donkey" ("thick"). The term was used by the famous Dutch painters of the Renaissance.

The Cheerful Cherub Success is free expression—I mean if we express Most fully all that's in us We have and feel success. R.M.C.

NATURE'S CHILDREN —By Lillian Cox Athey FLYING FISH. (Genus exocoetus). Flying fishes are abundant. Their habitat is the Atlantic Ocean; they are common southward on both the American and European coasts, straying northward to Newfoundland and England. It is their method of escaping their enemies that has enabled us to see them. For they suddenly leap into the air, and when the winging fish, though not intentionally, among Nature's Children, the first vertebrate to become an aviator was the flying fish. Many insist he should be called a glider, since his never flaps his fins and rises by his own motorpower to reach the swiftly traveling wind. Actually, the fish in the air resembles a modern airplane. In order to take off, it swims rapidly to the surface and out into the air, the large lobe of the tail being used for a violent push-off. Sometimes flying fish have been seen to descend, and when their tail touches the water, they scull along and again take to the air. The question is, did the flyer again discover his arch foe was too close, or did he decide that, since the wind was with him, he had better go as far as he could by air?

The flying fish of the Atlantic travel in large schools, and some of them reach a length of 15 inches. The young fry are able to fly, too. At the approach of a boat, they become terribly frightened and rise en masse in the air. From a distance, they resemble huge silver moths or butterflies. There are about 70 species of flying fish known. Most of them inhabit the warm seas; 25 occur in the waters of Middle and North America. Do you remember "On the Road to Mandalay," where the flying fishes play?" by Kipling. It is said that he saw them in the Bay of Bengal, through which his boat passed to Burma.

These fishes are blue above, white beneath, and not much larger than herring. What makes them take to the air, often in a whole school resembling a flock of silver birds, is that hungry dolphins or bonitos are desirous of feasting on them. The dolphin is a swift swimmer, and is evidently quite aware of the fact that the flying fish can remain in the air only a short time. Therefore, the clever dolphin merely increases his speed and reaches the spot at which the flyer makes a forced landing, timing himself to arrive at about the same time. The hunter, by the way, is an excellent food fish, and if you have ever eaten dolphin, you have also eaten

THE SPIRIT (Keep up with The Spirit's war on crime in The Sunday Star's comic book.)—By Will Eisner BUT WHY, DESTINY? WHY DID THE EUROPEAN COMBATS BEING YOU BACK TO KILL POLICEMEN? SIMPLE—BECAUSE HIS PREVIOUS ENTERPRISE, THE KILL COMBATS, HAD ENDED ORGANIZED MURDER... THE NAZIS GAVE THEM A SECRET LIST OF ALLIED AGENTS TO BE MURDERED—THE FATE OF NATIONS HANGS ON BEING THAT LIST SECRET. BUT, DESTINY, LISTEN! THAT LIST—IT WAS SURVIVED AND SLAY IS HANGING ON MY HEAD! OF COURSE, BUT THAT LIST LIVES IN YOUR MEMORY—I CAN'T LET YOU COMMIT SOLD-BLOODED MURDER! THIS IS TERRIBLE, BUT I CAN'T LET YOU COMMIT MURDER! DESTINY, WHAT DO YOU MEAN? SHOW! WITH A TOUCH OF POLICE IN POLICE QUICK, CLEAN AND SO EFFECTIVE!

FLYIN' JENNY (Flyin' Jenny also flies every Sunday in the colored comic section.)—By Russell Keaton and Glenn Chaffin WONDER HOW COME THESE FLYERS HAVEN'T SPOTTED US? I FLEW STRAIGHT INTO THE SUN FROM THE ISLAND—THEY DIDN'T SEE US GO DOWN. JENNY'S CORRECT. THE PLANE BECAME INVISIBLE IN SUNLIGHT—WE LOST CONTACT. TYPICAL AMERICAN TRICKERY—DER FUHRER SHALL HEAR OF THIS. TAKE IT EASY, BABE—SAVE YOUR STRENGTH—WE HAVEN'T QUITE A WHILE!! HOW CAN YOU TELL WHERE FROM THERE?—THE SCENERY ALL LOOKS THE SAME TO ME.

DINKY DINKERTON (Don't miss Dinkerton's hilarious adventures in the colored comic section on Sundays.)—By Art Huhta A LETTER, FOR YOU, MISS DONNA—YOUR MISTAKE DROPPED IT OFF ON HER WAY TO WORK. WHY IT'S FROM SNIFFY!!... I HAVEN'T FOUGHT AGAINST THE CIRCUMSTANTIAL EVIDENCE AGAINST YOU... (WHAT IN THE WORLD?) ...NOW THAT YOU'VE SKIPPED TOWN...? IT DOESN'T MAKE SENSE!! I DIDN'T KEEP OUR DATE BECAUSE I WAS DETAINED HERE... AND HE SAYS CRIME DON'T PAY WELL. I LIKE THAT!!! SO THEYVE CAUGHT THE CAT BANDIT? IT WAS GULD BELL—WAGN! BANG! LET'S HURRY! I DON'T KNOW!! THE COMMISSIONER SAID WAS 'WEVE GOT TH' CAT' LET'S HURRY!

DRAFTIE (Laugh at Draftie and Oime in The Sunday Star's colored comic section.)—By Paul Fogarty GOSH OIME—THEYVE PICKED US OUT! TH' MULL ARMY 'I GO TO AUSTRALIA! YEA—AN FR ONCE WE GET AWAY FROM SOLDIERS PER A WHILE. WE'LL STAND OUT LIKE A PAPER MANGER AND A SORE THUMB AND A TON OF OTHER SOMETHIN'. WE'LL POORLY BE 'TH' FIRST AMERICAN SOLDIERS FROM THE CITY OF AUSTRALIA! HEY! WHERE YOU SOLDIERS GO? TO AUSTRALIA! ON LEAVE! FINE O WAR!

LITTLE STORIES FOR BEDTIME —By Thornton W. Burgess When I start to do a thing I always see it through. I find it really is the best and only way to do. That's a little rule that Shadow the Weasel made for himself a long time ago and which he tries to live up to. Of course, sometimes things happen to prevent, but usually he does whatever he sets out to do. It really is a very good rule if you add to it this: I never try to do a thing I shouldn't if I could. And always try to make that thing a thing that's really good. But Shadow never has added that last part. In truth, Shadow would just laugh at that if he should hear it. The fact is, Shadow the Weasel has a bad heart. Yes, sir, Shadow has a bad heart, a black, black heart. It is such a black heart that sometimes it seems as if there was no good in it. None of his neighbors believe there is. They all hate him, even his own cousins, Billy Mink and Jimmy Skunk. And Shadow doesn't seem to care. It seems sometimes as if he actually enjoyed being hated. Certainly, he enjoys seeing other little people afraid of him, as most of them are, particularly those who are near his hole. Just whisp in the ear of Peter Rabbit or Happy Jack Squirrel or Danny Meadow Mouse or Striped Chipmunk or Mrs. Grouse that Shadow the Weasel is near and see how anxious they will grow. This particular morning Shadow had been feeling very much out of sorts. Yes, sir, Shadow had been feeling very much out of sorts. You see, he had hunted most of the night without finding anything to eat and so he was hungry, very hungry, indeed. He had been out on the Green Meadow hunting for Danny Meadow Mouse when he heard Chatterer the Red Squirrel scolding over in the Green Forest. Shadow liked his head to listen. Then a cruel, hungry look crept into his eyes and he showed his sharp little teeth in a cruel, hungry smile as he said: "That sounds to me like last night's dinner and this morning's breakfast, both in one. I think Chatterer will make a better meal than even Danny Meadow Mouse." With that he licked his lips and started in the direction of Chatterer's voice, and he actually had started up the tree Chatterer was in before Chatterer saw him. It was then that Chatterer had started on his mad flight of fear through the treetops. Now, while Chatterer raced and jumped through the treetops as fast as ever he could, and so tired himself out, Shadow the Weasel took his time in following. He ran swiftly, but not swiftly enough to tire himself. He didn't try to keep Chatterer in sight. You see, he trusted to his nose to tell him where Chatterer had gone, and his nose never deceived him. It told him just what branches Chatterer had run along and just where he had jumped to the next tree. Now, Shadow is himself a nimble climber and he had no trouble in going wherever Chatterer had gone until he reached the place where Chatterer had made the long jump and fallen. Shadow just glanced at it and turned around. He had no mind to risk any such fall as that. He knew that all he had to do was to run down the tree and up the next. When he reached the ground he started at a gallop across to the next tree, but from habit his nose was busy on the ground as he ran. Suddenly he stopped. "Ha!" said he. "Seems to me I smell Chatterer down here! What does that mean?" His nose led him straight to the tree and up. Shadow grinned. He knew perfectly what had happened. "Chatterer missed that jump and had a bad fall. I guess it must have shaken him up a little and he won't be able to run so fast," thought he. Then he started on as lively as ever. He was enjoying himself. He didn't mind that run through the treetops because he didn't have to hurry any faster than he pleased and because he was sure of a good dinner at the end. Sonny sayings My mother 'splained about Santa Claus. She said, 'Certainly, they is a Santa Claus! But the spirit of giving! Well, that takes quite a load off my mind!

WE'RE GETTING "MORE FRIENDS PER GALLON" THESE DAYS!

"WHEN our local rationing board gave us that 'A-Book' of coupons, I said to my wife: 'This means good-bye to our friends. We can't do much driving on 3 or 4 gallons of gas a week!'"

"Well, we soon discovered our neighbors were in the same fix. People who live across the street—and down the block—telephoned to say: 'How about us folks pooling our cars?'"

"So, we got together—and now we're taking turns driving the dads to work, the mothers to market, and the kids to school.

"And frankly—we've discovered that sharing our car, instead of being a hardship, is really a blessing in disguise.

"For neighbors who formerly were little more than nodding acquaintances are beginning to drop

in evenings for a game of bridge—or a friendly chat over a glass of Pabst Blue Ribbon Beer.

"Like a lot of other folks, I guess we are just rediscovering how much real pleasure there is in home and simple hospitality. . . ."

With wartime restrictions bringing a new appreciation of home and hearth, Pabst Blue Ribbon Beer has become, more than ever, a symbol of friendly companionship.

That softer, kindlier taste of Pabst Blue Ribbon is achieved by FULL-FLAVOR BLENDING—a Pabst process that gives you all the taste tones of a well-rounded beer. Not just 3, nor 5, nor 7 or 8 brews—but no less than 33 master brews are skillfully "woven" into one great beer. There is no finer, friendlier beer in all the world than Pabst Blue Ribbon.

Now More Than Ever
A Symbol of Friendly Companionship

In standard 12-ounce and full quart size bottles.
Also on draught at better places everywhere.

© Pabst Brewing Company, Milwaukee, Wisconsin

'Dress Up' for Dinner

Our 'New-Fashioned' Christmas Colorful, Cheerful Feast

By Margaret Nowell

The setting of the Christmas table is almost as important as the food that goes on it.

Color will dramatize the table, making your china and glassware look new and different.

For a change from the shining damask you might "whip up" an inexpensive tablecloth which will make an interesting setting for your dishes.

All the rose and copper tones which blend so well with chrysanthemums and other fall flowers are lovely with pottery plates of the informal type.

White milk glass and a centerpiece of fruit. Pale green is delightful foil for the traditional white, gold-banded china.

Wise Use of Fuel, Care of Stove Necessary

'Saving' Also Demands Thrifty Planning Of Menus

By Edith M. Barber

The salvage program has held the limelight for the last few months. Many of us have learned something about the value of materials which used to be thrown into the waste basket or garbage can without a qualm.

There is another word which should come more often into our vocabulary—that is "saving." The large definition of this word, as applied to the household, might be given as "making the best use of everything we have on hand and everything we buy."

First of all, we should make sure that we are getting efficient work from our stoves. This calls for daily care, wiping the burners with a damp cloth after use.

Remember that anything cooked on the top of the stove can get no hotter than boiling. After this time is reached, the flame should be turned low.

This may not be an old-fashioned recipe in 1942, but there is no reason why it shouldn't be a better "new-fashioned" one.

Manners of the Moment

It's a bit startling to have the child of your hostess suddenly grab your pocketbook and start emptying its contents on the floor. He gurgles and giggles. He hoots and hollers. He loves it. The more keys, lipsticks, powder puffs and pencils he can shake out of the pocketbook, the happier he is.

Correct Posture Vital to Health And Beauty

By Patricia Lindsay
It is amazing how much physical beauty can be destroyed through incorrect posture while sitting, walking or standing. This is brought to our attention now through health authorities who have been concerned themselves with prevalent absenteeism in war plants.

When you are sitting at your work, or while visiting your abdomen bulges, your chest sinks, your shoulders round forward and your head is strained forward because your spine no longer supports it adequately.

Field Flower Favorites

By Peggy Roberts

How long since you took needle and thread in hand and stitched faintly embroidered designs on your plain linens? Remember the excitement of watching them take form and color and the joy of seeing your own handiwork around the house?

Compacts make charming presents and this season they are valuable gifts as well. Currently featured are powder containers in sterling silver, some of them wafer-thin, others heavily decorated with scrollwork or monograms.

Keep Children Occupied

Set Regular Schedule but Vary Form of Their Diversion

By Angela Patti

Keep the little ones occupied. They thrive under a routine day. When they know what is going to happen from hour to hour, they feel sure of themselves, but if they never know what is to happen next, they become erratic as their program and difficult to manage.

Provide games for the children of all ages. The usual forms of recreation and amusement are curtailed and we must supply others that can be enjoyed at home.

Cards, checkers, chess, parchesi, the old lotto games of our childhood minus the gambling phase, dominoes, jackstraws, jacks, marbles, kites and the hosts of family games familiar to most of us are going to do duty in earnest this year.

This is the time to remember that children are different from grown people in all their ways. Expect them to be noisy when quiet would suit you better.

Attractive House Dress Popular

Novel Presentations in Cosmetics Are 'Tops' on Santa's Lists

By Helen Vogt

If you can forget all those silly slogans like "Beauty is your duty," you'll get a real kick out of looking your best these days.

Particularly exciting are perfumes, of which no woman ever has too many. Among the best are five fragrances presented by a leading cosmetic house—all five are masterpieces.

How to Achieve Personality Discussed

Play Up Own Line; Understudying Others Bad

By Dorothy Dix

A group of young girls ask how they can develop personality. Well, the best advice that any one can give about how to acquire personality is comprised in the slang phrase, be yourself.

The trouble with most girls is they grope when they have the gumption to break away from the mass that they are distinctive.

The excuse that every girl gives for what she does is that all the girls are doing it. This is the best reason in the world for not doing it.

Inasmuch as clothes go such a long way towards making a woman, a girl can do a lot in developing her personality through her wardrobe.

Biscuit Dough Wraps Tasty Treated Filling

Small Amounts of Leftovers Make Good Dish

These days it is not so easy from the point of view of the housekeeper to find economical, quick-cooking meats. It may be worth while to purchase a boned shoulder of lamb or veal or a pot roast of beef and to cook it during the evening for use for next day's dinner.

The biscuit dough should be rolled rather thin, cut in squares and spread with the savory meat mixture. The edges of the dough should be moistened, just as they are for apple dumplings, and pressed together before they are baked.

To Sour Milk

Two tablespoons of vinegar added to one cup sweet milk will turn it into sour milk. Let stand for three minutes before using.

Wash and pare potatoes and cut in very thin slices. Place one-third of the potatoes in greased two-quart baking dish. Sprinkle with salt, pepper and one-third of the flour. Dot with one tablespoon of butter and sprinkle with ham. Repeat twice.

QUICK AND EASY RECIPES for a delicious butterscotch pudding, mix the contents of one package of My-T-Fine Butterscotch Dessert Mix with 1/2 cup milk. Cook over low flame, stirring constantly until pudding thickens. Chill and serve. Try the other easy recipes on the package.

4 OTHER DELICIOUS MY-T-FINE DESSERTS: CHOCOLATE - NUT CHOCOLATE VANILLA - LEMON PIE FILLING

Perfume for Christmas—a welcome gift for women of all ages. This year's selection is so varied that every preference may be satisfied; so temptingly packaged that even the most inexpensive looks like "a million dollars."

From a Woman's Angle ---

University of Maryland Plans Courses To Train Women for War Jobs—Free

By Betsy Caswell

Women's News Editor

Here's good news for you women—and for older men, too, if not liable to be called for military service—who have been wanting to get into the war effort in a big way.

The new courses include production tools and processes, motion and time studies, welding theory and techniques, aircraft materials and inspection and other engineering—supplemental.

The minimum admission requirement to these courses is high school graduation or its equivalent, with preference given to persons now employed in industry and to those willing to accept such employment upon completion of training.

The program of courses is being conducted by the University of Maryland in co-operation with the United States Office of Education, under an appropriation recently granted by Congress.

Application blanks and all requests

Champion Clubs

WALTER HAGEN CHAMPION WOODS AND IRONS

- Selected Persimmon Heads with Fiber Inserts on Woods
- Mild English Steel, Chrome-Plated Heads on Irons
- All Shafts are Famous True-Temper Step-Down Style
- Grips of Finest Brown Calfskin
- Clubs Keyed for Match Replacement

These Walter Hagen Champion Woods and Irons are an amazing buy. The woods are equal to many clubs priced up to \$12.50. The heads on the woods carry the weight directly in back of the hitting surface to deliver extra power. Shafts have the finest quality shrunk on sheaths assuring absolute tightness for the life of the clubs. The brown calfskin grips are perforated, skived, and edge-tempered. Edge tempering is a patented process that prevents the edges from curling or skuffing. Each club is numbered so that in case of loss or breakage, the club may be replaced with another to exactly match the remaining set.

Irons \$5.95 EA. **Woods \$6.95 EA.**

You can't go wrong on this one!

Give Bonds For Christmas

THE IDEAL GIFT FOR THOSE IN THE SERVICE

It's almost impossible to enjoy the usual Christmas Gift at the front. But imagine the pleasure they'll have selecting just the things they want when they come home. That's what you can give them—with a War Bond—Buy it now and send a cheery card or note to let them know it's waiting for them to enjoy when they come back.

Yes, Dad is surely right this time! For there's not a member of the family—young or old—who wouldn't welcome a War Bond as the most practical, patriotic present to be had this war-Christmas. It's a present with a three-way appeal: It's fine to receive now; it grows in value each day you keep it; and it helps the boys "out there" preserve Christmas everywhere. Every patriotic American family should give at least 10% of its Christmas gift budget in War Bonds and Stamps.

MAKE THIS A
PATRIOTIC CHRISTMAS
Let's do our part at home

SAVE TIRES, GAS AND OIL
Carry all small packages. Double up with the neighbors when you use the car.

AVOID TRANSPORTATION CONGESTION:
Shop between 10 and 3.

SHOP WISELY
Be tolerant of inexperienced salespeople.
Buy only gifts you know are suitable—
Avoid exchanges.
And Above All . . . Give War Bonds!
